## **NOTES TO THE SEPERATE FINANCIAL STATEMENTS** **QUARTER IV- 2024**

### **I. GENERAL INFORMATION OF THE COMPANY**

#### **1. Form of ownership**

- The Petroleum Mechanical Stock Company is a State-owned enterprise that was converted into a joint-stock company under Decision No. 132/1999/QĐ-TTg dated December 31, 1999, issued by the Prime Minister.
- Business Registration Certificate No. 063343 issued by the Department of Planning and Investment of Ho Chi Minh City on October 21, 1999, and re-registered under Certificate No. 0301838116 (11th amendment) on April 26, 2012.
- The company's headquarters is located at: 446 No Trang Long Street, Binh Thanh District, Ho Chi Minh City.
- The company's charter capital as per the Business Registration Certificate is: 72,276,620,000 VND.  
( Seventy-two billion two hundred seventy-six million six hundred twenty thousand Vietnamese dong ).

#### **2. Business field:** Manufacturing, trading, and services.

#### **3. Business activities:**

The company's business activities include: Manufacturing and trading of mechanical packaging; importing and exporting raw materials, equipment, and supplies for production and business operations. Industrial construction. Trading of petroleum materials and equipment. Building and repairing ships, barges, and other mechanical products. Retail dealership for petroleum products, buying and selling petroleum. Manufacturing and repairing tanks and reservoirs. Repairing various types of tanker trucks. Investing in the construction and leasing of industrial park infrastructure and commercial centers. Trading in specialized transport vehicles.

#### **4. Characteristics of the company's operations during the fiscal year affecting the financial statements**

### **II. ACCOUNTING SYSTEM AND ACCOUNTING POLICY**

#### **1. Accounting period**

The Company's fiscal year begins on January 1 and ends on December 31 of each year.

#### **2. Accounting currency**

The currency used in accounting records is the Vietnamese Dong (VND).

### **III . STANDARDS AND APPLICABLE ACCOUNTING POLICIES**

#### **1. Applicable Accounting Policies**

The Company applies the Enterprise Accounting Policy issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance and other supplementary guiding documents and circulars.

#### **2. Declaration of compliance with Accounting Standards and Accounting System**

The Company has applied the Vietnamese Accounting Policy and the guiding documents issued by the State. The financial statements are prepared and presented in accordance with the regulations of the standards, the circulars guiding the implementation of the standards, and the current accounting policy being applied.

### **3. Accounting method applied in Financial Statements**

The company applies the accounting book format: Recording vouchers.

## **IV. APPLICABLE ACCOUNTING POLICIES**

### **1. Cash and cash equivalents**

- Transactions in foreign currencies other than USD and VND are converted into USD at the actual exchange rate at the time of the transaction. At the end of the year, monetary items denominated in foreign currencies other than USD and VND are converted at the average interbank exchange rate announced by the State Bank of Vietnam on the closing date of the accounting period.
- Short-term investments with a maturity of no more than 3 months that are easily convertible into cash and carry minimal risk of conversion into cash from the purchase date of the investment are reported at the reporting date.

### **2. Inventories**

- Inventories are measured at cost. The cost of inventories includes purchase costs, processing costs, and other directly related costs incurred to bring the inventories to their current location and condition.
- The value of ending inventories is determined using the first-in, first-out (FIFO) method and is accounted for using the perpetual inventory system.
- A provision for inventory devaluation is recognized when the cost exceeds the net realizable value. Net realizable value is the estimated selling price of the inventories less the estimated costs of completion and the estimated costs necessary to make the sale.

### **3. Tangible fixed assets and depreciation**

- Fixed assets are recorded at cost less accumulated depreciation. The cost of fixed assets includes all expenditures incurred by the company to acquire the asset and bring it to a state ready for use. Subsequent expenditures are added to the cost of the fixed asset only if it is certain that these costs will increase the future economic benefits derived from the use of the asset. Costs that do not meet these criteria are recognized as expenses in the period incurred.
- When fixed assets are sold or disposed of, their cost and accumulated depreciation are derecognized, and any resulting gain or loss is included in the income or expenses of the period.
- Depreciation is calculated using the straight-line method. The estimated useful lives are as follows:

<u>Type of fixed asset</u>	<u>Years</u>
+ Building and structures	06 - 25 years
+ Machinery and equipment	06 - 10 years
+ Transportation vehicles	06 - 10 years
+ Office equipment	04 - 05 years

### **4. Financial investments**

- Investments in associates are accounted for using the cost method. Net profits distributed by associates after the date of investment are recognized in the Income Statement. Other distributions (beyond net profits) are considered as a recovery of investment and are deducted from the carrying value of the investment.
- Investments in joint ventures are accounted for using the cost method. Contributions to the joint venture are not adjusted based on changes in the company's share of the net assets of

the joint venture. The Income Statement reflects income distributed from the cumulative net profits of the joint venture arising after the contribution.

- Investments in securities at the reporting date are classified as:
  - + Short-term assets if they have a recovery period of less than 1 year or within a single business cycle.
  - + Long-term assets if they have a recovery period of more than 1 year or over one business cycle.
- Provisions for investment devaluation are made at year-end for the difference between the cost of investments recorded in the accounting books and their market value at the time of provisioning.

#### **5. Borrowings**

- Borrowing costs are recognized as production and business expenses during the period when incurred, except for borrowing costs directly related to the construction or production of incomplete assets, which are capitalized into those assets when the conditions specified in Vietnamese Accounting Standard No. 15 "Borrowing Costs" are met.
- Borrowing costs directly related to the construction or production of incomplete assets, which are capitalized, include interest on loans, allocation of discounts or premiums on bond issuance, and other ancillary costs associated with the borrowing process.

#### **6. Prepaid expenses**

- Prepaid expenses related only to the current fiscal year are recognized as production and business expenses within the fiscal year.

#### **7. Payables**

- Actual expenses that have not yet occurred but are accrued in the production and business expenses of the period ensure that when actual expenses arise, they do not cause a sudden increase in production and business costs, adhering to the matching principle between revenue and expenses. When such expenses occur, if there is a discrepancy with the previously accrued amount, adjustments are made to increase or decrease the expense accordingly.

#### **8. Owners' equity**

- Owner's investment capital is recognized based on the actual contributed capital of the owners.
- Share premium is recognized as the difference between the actual issuance price and the par value of the shares.
- Other owner's equity is recognized as the remaining value between the fair value of assets donated or gifted by other organizations or individuals and the taxes payable (if any) related to those assets, excluding additional capital contributed from business activities.
- Treasury shares are shares issued by the company and subsequently repurchased. Treasury shares are recognized at actual value and presented on the balance sheet as a deduction from owner's equity.
- Undistributed after-tax profits are profits from the company's activities after adjustments for retrospective application of changes in accounting policies and prior-period material errors.

#### **9. Revenue**

- **Revenue from sale of goods:** Recognized when the following conditions are met:
  - + The significant risks and benefits of ownership have been transferred to the buyer;
  - + The company no longer retains control over or management of the goods as the owner;
  - + Revenue can be measured reliably;
  - + The company has received or will receive the economic benefits from the sale;
  - + Costs associated with the sale can be measured reliably;
- **Revenue from rendering of services:** Recognized when the outcome of the transaction can be reliably measured. For services provided over multiple periods, revenue is recognized based

on the proportion of work completed as of the balance sheet date. The outcome is determined when the following conditions are met:

- + Revenue can be measured reliably;
- + Economic benefits from the service are probable;
- + The stage of completion can be reliably determined at the balance sheet date;
- + Costs incurred and the costs to complete the transaction can be reliably measured ;
- + The stage of completion is determined using the percentage-of-completion method.
- **Financial income:** Includes interest income and other financial revenues, recognized when the following conditions are met:
  - + Economic benefits are probable;
  - + Revenue can be measured reliably;
  - + Dividends or profit shares are recognized when the company has the right to receive them;
- **Revenue from construction contract:** Revenue is determined based on the percentage of completion of the contract, calculated as the ratio of actual costs incurred for completed work at a specific time to the total estimated costs of the contract. In certain cases, revenue is recognized based on the percentage of contract completion confirmed by the investor as of the balance sheet date.

#### **10. Financial expenses**

Financial expenses include:

- Losses related to financial investments;
- Interest on loans or borrowings;
- Losses from exchange rate differences in foreign currency transactions;
- Provisions for devaluation of securities investments;
- These expenses are recognized in the total amount incurred during the period without offsetting against financial income.

#### **11. Corporate income tax**

- Current corporate income tax expenses are determined based on taxable income and the current corporate income tax rate applicable during the year.

#### **12. Receivables**

- Receivables are presented in the financial statements at their book value, net of provisions for doubtful debts.
- Provisions for doubtful debts are made for each overdue receivable based on its aging or expected losses.

#### **13. Provisions**

- The recognized amount of a provision is the best estimate of the expenditure required to settle the present obligation as of the balance sheet date.
- Only expenses related to the initially recognized provision can be offset against that provision.
- Differences between unused provisions from prior periods and the newly calculated provision for the current reporting period are reversed, reducing production and business costs, except for provisions related to construction warranty obligations, which are reversed into other income.

**V. NOTES TO THE FINANCIAL STATEMENTS.**
