REPORT
ACTIVITIES OF THE BOARD OF DIRECTORS
OF SONG DA 505 JOINT STOCK COMPANY

Dear: Respected Shareholder!

Assuming the role of managing, monitoring and directing production and business activities of the Company, the Board of Directors of Song Da 505 Joint Stock Company would like to report on management activities in 2024 and action plan for 2025 according to the functions and tasks specified in the Charter of organization and operation to the 2025 Annual General Meeting of Shareholders as follows:

1. Regarding implementation management and organization of the 2024 production and business plan

- At the beginning of the year, the Board of Directors organized a meeting with the Executive Board to analyze, assess and develop the 2024 production and business plan and investment plan for approval by the General Meeting of Shareholders.
- During the past year, the Board of Directors held 11 direct meetings and solicited written opinions to review a number of proposals submitted by the Executive Director. They were held to review and evaluate the implementation results during the period, and at the same time make attempts to reach a consensus on solutions for the next period and provide timely directions. Together, the Board considered and came to agreements on resolutions under the authority of the Board of Directors appropriate to each period so that the Executive Board can implement the goals in production and business management and investment to ensure business efficiency, and unanimously approve 10 resolutions with specific decisions corresponding to the contents of the resolutions presented in the 2024 management report, which is disclosed in accordance with regulations.
- Regarding internal management: On the basis of the production and business plan and investment plan approved by the Board of Directors, the Executive Director proactively organized the implementation of signed contracts to ensure completion of the set plan.
- During the year, the Company received the transfer of Son Hai Lai Chau Development Investment Joint Stock Company to own the Van Ho Hydropower Plant Project with a capacity of 9.9 MW.
- Regarding resource utilization: There were no new purchases. The available resources were made full use of and effectively utilized.

a. Some key production and business targets achieved in 2024:

No.	Key targets	Unit	At the Parent Company			Consolidated		
			2024 Plan	2024 Actual	Rate	2024 Plan	2024 Actual	Rate
1.	Charter Capital	10 ⁶ d	100.000	100.000	100%	100.000	100.000	100%

No.	Key targets	Unit	At the Parent Company			Consolidated		
			2024 Plan	2024 Actual	Rate	2024 Plan	2024 Actual	Rate
2.	Other revenues and income	10 ⁶ d	73.906	94.763	128%	664.395	642.753	97 %
3.	Profit after tax	10 ⁶ d	50.376	62.885	125%	116.314	139.369	120%
4.	Expected dividend	%	15	5	33%			

- At the Parent Company: The actual revenue increased compared to the plan due to the following reasons:

+ High dividends from subsidiaries: In 2023, S55 Construction Joint Stock Company paid a 50% dividend, Ehula 7%, Bac Na 13%, and Anzen 6,5% respectively, Song Ong Hydropower Joint Stock Company 45%.

+ Revenue from financial investment activities such as interest from investment on purchasing deposit certificates and interest from lending.

- In the consolidated report: Although revenue has not reached the plan, profit increased beyond the plan, mainly due to:

+ Power generation revenue at overall management plants exceeded the set plan, leading to increased profits;

+ Construction work at S55 Construction Joint Stock Company declined due to lack of new work leading to revenue not meeting plan;

- Capital Recovery:

+ Regarding debts from Song Da Corporation as the general contractor, particularly the Xekaman 3 project, which has been stagnant for many years. In 2024, the company continued to closely monitor and work with the general contractor and investor expecting to complete the project settlement in the third quarter of 2025

+ Debts from units other than Song Da Corporation, such as the Chu Pong K'rong project and the Phu Tan 2 solar power project, continued to be reconciled monthly and debt collection efforts continued.

+ Debt collection from the Khanh Khe solar power project faced many difficulties due to the investor's delay and financial difficulties.

+ Debt collection from the Bac Cuong solar power project is currently difficult because the investor is unable to pay, so they proposed converting the debt into a loan.

+ Debt collection from Dai Binh and Da Dang projects has not shown much progress due to lack of cooperation from the Investor and General Contractor.

- Regarding profit distribution and dividend payment in 2024: The proposed dividend payment for 2024 is 5% in cash. The official dividend payment for 2024 will be decided by the 2025 Annual General Meeting of Shareholders.

b) Regarding investment:

- The company acquired 100% of capital at Son Hai Lai Chau Development Investment Joint Stock Company to own the Van Ho Hydropower Plant Project with a capacity of 9.9MW.

- The Company continued to promote and approach investment opportunities to increase sales, diversify business lines, create jobs and increase income for employees.

II. BUSINESS REPORT APPRAISAL:

1. Regarding business plan implementation:

The implementation of the Company's business targets in 2024 is as follows:

No.	Key targets	Unit	At the Parent Company			Consolidated		
			2024 Plan	2024 Actual	Rate	2024 Plan	2024 Actual	Rate
1	Charter Capital	10 ⁶ đ	100.000	100.000	100%	100.000	100.000	100%
2	Other revenues and income	10 ⁶ đ	73.906	94.762	128%	664.395	642.231	96,6%
3	Profit after tax	10 ⁶ đ	50.376	62.884	124,8%	116.314	139.396	119,8%
4	Dividend	(%)	15%	15%	100%	15%	15%	100%

Through reviewing the business performance report, the Board of Supervisors found that:

- The results of production and business activities in 2024 are fully, clearly and honestly presented.

- The Board of Directors and the Board of Management have closely followed the business plan approved by the 2024 Annual General Meeting of Shareholders, resolutely directed and operated, flexibly applied many solutions to operate business activities effectively, profitably, preserve and develop shareholders' capital, achieve the highest business targets, and ensure cash flow to pay dividends to shareholders as planned.

- Parent Company's results: Total revenue, other income and Profit after tax all exceeded the plan approved by the General Meeting of Shareholders, by 28% and 24.8% respectively. The main reason is that the Parent Company continues to receive high dividend income from its subsidiaries and income from deposits and loans.

- Consolidated results: Profit after tax in 2024 exceeded the set plan by 19.8%. Total revenue and other income, although not reaching the plan, the implementation rate was relatively high (reaching 96.6%). The reason for Total revenue and other income not reaching the plan was that during the year, Typhoon Yagi affected the operations of a number of factories (Nam Bum 1 and

2), reducing power generation revenue, and unfinished basic construction contracts were not yet accepted and settled...

- Debt collection: In 2024, the Company made an additional provision for bad debt of VND 6.42 billion compared to 2023. Although the additional provision did not affect the implementation of the profit plan, it showed that the quality of some receivables tended to decline. Bad debts are still mainly concentrated in debts of some customers that are overdue for more than 3 years: Xekaman 3 Power Project Management Board (VND 64.19 billion), Song Da Corporation (VND 7.98 billion), Long Hoi Electricity Investment and Construction Joint Stock Company (VND 9.14 billion), PVC Truong Son Petroleum Construction Joint Stock Company (VND 10.49 billion)

2. Regarding investment and development:

- In 2024, the Company continued to focus on expanding investment in the hydropower sector by receiving the transfer of 99.9% of shares at Son Hai Lai Chau Development Investment Joint Stock Company to own the Van Ho Hydropower project, with a capacity of 9.9 MW in Nam Xe commune, Phong Tho district, Lai Chau province. This investment is consistent with the Company's main field of operation, which is Hydropower, and is implemented in accordance with the provisions of the Law and the Company's Charter.

- Besides the Van Ho Hydropower Project with additional investment in 2024 (the new project coming into operation in 2024 needs more time to evaluate its performance), the projects that the Company has previously invested in continue to operate stably, effectively, and profitably.

III. FINANCIAL REPORT APPRAISAL:

1. Financial Report Appraisal:

- The 2024 financial statements include the Balance Sheet, Income Statement, Cash Flow Statement, and Notes to the Financial Statements prepared by the Company in accordance with current Vietnamese accounting standards and regimes, meeting the Company's management requirements.

- The preparation, circulation, use and preservation of accounting documents generally ensure legality, reasonableness and validity; accounting books are prepared, recorded, used and preserved fully, promptly and in accordance with the regulations on forms of the current accounting regime.

- Reporting and disclosure of financial information periodically and as required by the Securities Law are carried out in accordance with regulations for listed companies.

- The 2024 financial statements were audited by AAC Auditing and Accounting Company Limited, which is approved by the State Securities Commission in the list of audits of listed companies. The auditor's conclusion assessed: "The financial statements have fairly and fairly reflected the financial situation of the Company as of December 31, 2024 as well as the business performance and cash flow situation for the fiscal year ended on the same day, in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting Regime and legal regulations related to the preparation and presentation of financial statements".

After review and inspection, the Board of Supervisors fully agrees with the Audit Report of AAC Auditing and Accounting Company Limited.

2. Regarding the Company's financial standing as of December 31, 2024:

Based on the audited 2024 financial report, the Company's financial situation is shown through the following key indicators:

- Total assets reached 890,555 million VND, of which short-term assets were 187,866 million VND, accounting for 21.1%, and long-term assets were 702,689 million VND, accounting for 78.9%.

+ *In short-term assets: Cash and cash equivalents, investments held to maturity (expressed in the form of term deposits) account for a fairly high proportion (38.3%), which is a factor that helps the Company to be more proactive in business activities, pay off due obligations and generate income from interest on deposits. The remaining short-term assets are mainly receivables (accounting for 61.2%). The Company's receivables are reviewed, evaluated and provisioned for risks in accordance with regulations.*

+ *In long-term assets: The largest proportion is long-term financial investment in the form of investment in subsidiaries and associated companies (VND 525,352 million, equivalent to 74.7%). Subsidiaries and associated companies owning hydropower projects that have come into operation and are profitable (Bac Na Electricity Joint Stock Company, Ehula Joint Stock Company, Anzen Investment Joint Stock Company, Ani SH LLC, Song Ong Hydropower Joint Stock Company), S55 Construction Joint Stock Company are the units that bring regular annual dividend income to the Company.*

The second largest item is Long-term Loan Receivables (VND 144,245 million, equivalent to 20.5%). This is a receivable under the Business Cooperation Contract with the parent company, Anza Joint Stock Company, with a term of 84 months, for the purpose of Anza Joint Stock Company to implement the search and investment in efficient energy projects. The profit that the Company receives is 9%/year (subject to change according to market interest rates, agreed upon by both parties) on the amount of capital contributed by the Company under the contract. The implementation of this cooperation contract is carried out by the Company in accordance with the provisions of law, contributing to increasing the Company's operational efficiency.

- *Total capital reached 890,555 million VND, of which liabilities were 171,534 million VND, accounting for 19.2%, and equity was 720,113 million VND, accounting for 80.75%.*

+ *The debt payable as of December 31, 2024 is less than 20% of total capital, showing that the Company is maintaining a fairly low debt level, however, this may change depending on the short-term loan demand for production and business and the long-term loan demand for the Company's investments in the coming time. The Company's short-term debts are all assessed as having the ability to repay in full.*

+ *The Company's equity as of December 31, 2024 reached VND 719,021 million, of which the Charter Capital (share capital) was VND 100 billion, the rest was capital surplus, development investment fund and undistributed profits (VND 619,021 million). This shows that the Shareholder's Equity has been well preserved and developed over the years, increasing the book value, thereby increasing the market value of the shareholders' shares. As of December 31, 2024, the book value of each share was VND 71,902/share, which is high compared to many companies listed on the stock exchange.*

- *Indicators of solvency, operating indicators, and efficiency indicators as of December 31, 2024 show that the Company has the ability to pay due debts, reasonable capital turnover, effective capital use, and quite high profitability.*

3. Report on the assessment of transactions between the Company, subsidiaries, other companies in which the Company controls more than fifty percent (50%) or more of the charter capital with members of the Board of Directors, Directors and related persons of such members; transactions between the Company and companies in which members of the Board of Directors are founding members or business managers within the last 3 years before the time of the transaction:

Conducted in accordance with the provisions of law and the Company's Charter. Parties participating in the transaction are equal, voluntary and in accordance with their capacity. The purpose of the transaction is not contrary to social ethics. Transactions between the Company and the above-mentioned entities are listed and fully disclosed in the audited financial

statements, the Corporate Governance Report and information disclosure in accordance with the provisions of the Securities Law for listed companies.

Electricity Law, Bidding Law, Land Law... The Board of Directors and the Board of Management carefully study these laws and can hire consultants to evaluate in order to grasp the advantages and anticipate the disadvantages for the Company's operations in general and investment activities in particular, thereby having appropriate solutions to ensure safety and efficiency.

3. About debt collection

- *The Company's debt recovery is facing difficulties and has not made much progress. The Company needs to be more aggressive in recovering these debts (it may consider researching the form of lawsuits and selling debts to a third party).*
- *For ongoing and new contracts: Resolutely carry out acceptance, payment and settlement work, carefully evaluate the financial capacity of partners, and prevent new bad debts from arising.*
