## AUDITOR'S REPORT ON FINANCIAL SAFETY RATIO REPORT

### To the Board of Directors DNSE Securities Joint Stock Company

We have audited the accompanying Financial Safety Ratio Report of DNSE Securities Joint Stock Company ("the Company") as of 31 December 2025 ("Financial Safety Ratio Report") and the explanatory notes thereto, which were authorised for issue by the Board of Management on 3 March 2026, as set out on pages 6 to 35.

### Management's Responsibility

The Company's Board of Management is responsible for the preparation and presentation of the Financial Safety Ratio Report in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations ("Circular 91"), and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91, and for such internal control as the Board of Management determines is necessary to enable the preparation of the Financial Safety Ratio Report that is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Financial Safety Ratio Report based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Safety Ratio Report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Safety Ratio Report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Safety Ratio Report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the Financial Safety Ratio Report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Management, as well as evaluating the overall presentation of the Financial Safety Ratio Report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Auditor's Opinion

In our opinion, the Financial Safety Ratio Report as of 31 December 2025 of DNSE Securities Joint Stock Company has been prepared, in all material respects, in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratio and measures for non-compliance applicable to securities business organisation ("Circular 91"), and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91.

## Basis of Preparation and Restriction on Use

We draw attention to Note 2 to the Financial Safety Ratio Report, which describes the basis of preparation of the Financial Safety Ratio Report. The Financial Safety Ratio Report has been prepared for the Company to comply with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance ("Circular 91") regulating financial safety ratios and measures for non-compliance applicable to securities business organizations, and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91 ("Circular 102"). As a result, the Financial Safety Ratio Report may not be suitable for other purposes. Our audit report is intended solely for the Company's submission to the State Securities Commission of Vietnam and disclosure of information as required by Circular 91 and Circular 102 and should not be used for any other purposes.

*The accompanying notes are an integral part of the Financial Safety Ratio Report*

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**

These notes form an integral part of and should be read in conjunction with the accompanying Financial Safety Ratio Report.

**1. Reporting entity**

**(a) Basis of establishment**

DNSE Securities Joint Stock Company (“the Company”) is a joint stock company incorporated under Establishment and Operation License No. 62/UBCK-GP initially issued by the State Securities Commission of Vietnam (“SSC”) on 30 October 2007 in Vietnam. The latest Amended License No. 115/GPDC-UBCK was issued by the SSC on 16 October 2025.

The Company is recognized for listing and its shares are officially traded on the Ho Chi Minh City Stock Exchange on 21 June 2024 and 1 July 2024, respectively, with the stock code DSE.

The Company’s Head Office is located at the 6<sup>th</sup> Floor, Pax Sky Building, No. 63 - 65 Ngo Thi Nham Street, Hai Ba Trung Ward, Hanoi, Vietnam. As at 31 December 2025, the Company had one (1) branch in Ho Chi Minh City.

**(b) Charter capital**

As at 31 December 2025, the Company's charter capital was VND3,426,000,000,000 (1/1/2025: VND3,300,000,000,000).

**(c) Principal activities**

The principal activities of the Company are securities brokerage, securities trading services, securities investment advisory, securities custody and securities trading services and securities underwriting, derivatives brokerage, derivatives trading, derivatives investment consulting, derivatives clearing and settlement services.

**(d) Number of employees**

As of 31 December 2025, the Company had 274 employees (1/1/2025: 231 employees).

**2. Basis of preparation**

**(a) Statement of compliance**

The Financial Safety Ratio Report has been prepared to assist the Company to comply with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance (“Circular 91”) regulating financial safety ratios and measures for non-compliance applicable to securities business organisations, and Circular No. 102/2025/TT-BTC dated 29 October 2025 issued by the Ministry of Finance amending and supplementing a number of articles of Circular 91 (“Circular 102”). Accordingly, the Financial Safety Ratio Report and its utilisation are not designed for those who are not informed about the principles and requirements of Circular 91 and Circular 102 on preparation and presentation of Financial Safety Ratio Report applicable to securities business organisations in Vietnam. As a result, the Financial Safety Ratio Report may not be suitable for another purpose.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

**(b) Underlying financial data**

The Financial Safety Ratio Report is prepared based on the Company's financial data as of 31 December 2025 and for the year ended 31 December 2025. This Financial Safety Ratio Report should be read in conjunction with the Company's financial statements for the year ended 31 December 2025.

**(c) Accounting and presentation currency**

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for Financial Safety Ratio Report presentation purpose.

**3. Summary of significant policies adopted in the preparation of the Financial Safety Ratio Report**

The following significant policies have been adopted by the Company in the preparation of this Financial Safety Ratio Report.

**(a) Liquid capital ratio**

The Company's liquid capital ratio is calculated in accordance with the requirements of Circular 91 and Circular 102 as follows:

$$\text{Liquid capital ratio} = \frac{\text{Liquid capital}}{\text{Total risk value}} \times 100\%$$

In which, total risk value is the aggregate of market risk value (Note 3(c)), settlement risk value (Note 3(d)) and operational risk value (Note 3(e)).

**(b) Liquid capital**

Liquid capital is the capital which can be converted into cash within 90 days. The Company's liquid capital includes the following items:

- Share capital;
- Capital surplus;
- Other capital;
- Differences upon asset revaluation in fair value;
- Foreign exchange differences;
- Reserve to supplement share capital;
- Operational risk and financial reserves;
- Other equity funds appropriated in accordance with the prevailing regulations;
- Realised retained earnings;
- Allowance for diminution in the value of assets;
- 50% value of upward revaluation of fixed assets in accordance with the prevailing regulations (in case of upward revaluation) or minus 100% value of the downward revaluation of fixed assets (in case of downward revaluation); and

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

- Other capital (if any).

Additions to the Company's liquid capital include the following items:

- All increases in the values of investments and financial assets in carrying value excluding the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days from the reporting date, based on the difference between the carrying value and the market price;
- Debts that can be converted into owners' equity include:
  - Convertible bonds issued by the Company meeting all of the following conditions:
    - Having an original term to maturity of at least five (5) years;
    - Not being secured by the Company's assets;
    - Convertible bonds which may not be redeemed before maturity or may only be redeemed before maturity where the bond terms provide that the issuer may redeem the bonds before maturity at the request of the bondholders or repurchase them on the secondary market and such redemption or repurchase is carried out after the Company has reported to the State Securities Commission of Vietnam;
    - The Company can only stop paying interest and transfer the accumulated interests to the subsequent year if the interest payment will result in business losses in the year;
    - In case the Company being dissolved, shareholders/bondholders may receive payments only after the Company has fully paid its liabilities to other secured and unsecured debt-holders;
    - Any upward adjustment of interest rates, including the upward adjustment of interest rate added to the reference interest rate, may only be implemented 5 years from the date of issuance, and only once throughout the term before conversion into ordinary shares; and
    - Registered with the State Securities Commission of Vietnam to supplement the liquid capital;
  - Other debt instruments meeting all of the following conditions:
    - Being debts whose holders may, in all circumstances, receive payments only after the Company has paid its liabilities to all other secured or unsecured debt-holders;
    - Having an original term of at least 10 years;
    - Not being secured by the Company's assets;
    - The Company can stop paying interest and transfer the accumulated interests to the subsequent year if the interest payment will result in business losses in the year;
    - The Company can make full repayment before maturity only after having notified the State Securities Commission of Vietnam in accordance with the prevailing regulations;
    - For upward adjustment of interest rates, the following must be ensured: in case of a fixed interest rate, upward adjustment of interest rate added to the reference interest rate shall be made only after five (5) years from issuance date, contract signing date and for only one time during the term of subordinated debts;
    - In case of a formulated interest rate, changes shall not be made to such formulas, but only to the margin (if any) in the formulas for one time after five years from issuance date, contract signing date; and
    - Registered with the State Securities Commission of Vietnam to supplement the liquid capital.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

- The above debts, which can be converted into owners' equity, are decreased with the following principles:
  - After each year during the last five years before maturity of settlement, conversion into ordinary shares, 20% of their original values is deducted;
  - After each quarter during the last four quarters before maturity of settlement, conversion into ordinary shares, another 25% of their remaining value is deducted as regulated above.

Value of items used to supplement the liquid capital is capped at 50% of the Company's equity.

Deductions from the Company's liquid capital include the following items:

- Deposited amounts;
- Value of assets used as collaterals for the obligations of other organisations or individuals with remaining term to maturity of more than 90 days. Where the collateral is used for multiple obligations of the Company, the deduction value shall be calculated proportionately for each obligation of the Company (Remaining value of the obligation/collateral);
- All decreases in the values of financial assets in carrying amounts, excluding the security issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date, based on the difference between the carrying value and the market price;
- Items in long-term assets;
- Items in current assets include: the securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date in short-term financial assets; prepayments; receivables with the remaining term to maturity of more than 90 days; advances with the remaining term to clearance of more than 90 days and other current assets; and
- Asset items with a qualified, adverse or disclaimer opinion in the audited/reviewed financial statements (if any), which have not been excluded from the liquid capital in accordance with the above regulations.
- In case a partner is totally insolvent, the loss calculated according to the contract value shall be deducted from liquid capital.

When determining the deductions from liquid capital, the Company deducts from the liquid capital an amount equal to the minimum value of the market value of (the market value of the assets, the book value and the residual value of the obligations) (for the assets used as security for the obligations of the Company) and the minimum value of the market value of the collaterals and the book value (for the assets secured by customers' assets).

The deductions from liquid capital exclude the assets for which the market risk value must be determined as specified in Note 3(c), except for securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days; allowance for diminution in the value of financial assets in carrying value; allowance for diminution in the value of other assets; and allowance for doubtful debts.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

**(c) Market risk value**

Market risk value is the value corresponding to the level of loss which may occur if the market value of assets and securities securely underwritten by the Company which have not been fully distributed and paid during the underwriting period changes unfavourably.

The market risk must be determined for following assets:

- Securities on proprietary trading accounts excluding un-issued covered warrants, trust securities, and other investment securities. The above securities include the securities in the process of transfer from the sellers;
- Securities received as support from other individuals and organizations as prescribed by law, including securities borrowed for the securities trading organisation, securities borrowed on behalf of other individuals and organizations;
- Securities of customers that the securities trading organisation receives as collateral, which is then used by the Company or loaned to a third party in accordance with the law;
- Cash, cash equivalents, negotiable instruments, valuable papers owned by the securities trading organisation;
- Securities underwritten by the securities trading organisation in a firm commitment which have not been distributed and for which payments have not fully received during the underwriting period.

The market risk value is not determined for following securities and assets:

- Treasury shares;
- Securities issued by a related organisation of the Company and the securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Securities issued by a related organisation of the Company which is one of the following cases:
  - Parent company or subsidiaries of the Company;
  - Subsidiaries of the Company's parent company;
- Securities with the remaining restricted trading period exceeding 90 days from the reporting date;
- Matured bonds, debt instruments and money market valuable papers; and
- Securities hedged by put warrants or future contracts; put warrants and put options are used to hedge the underlying securities.

Market risk value is determined in accordance with the requirements of Circular 91 as follows:

$$\text{Market risk value} = \text{Net position} \times \text{Asset value} \times \text{Market risk coefficient}$$

**(i) Net position**

Net position of any securities at a point of time is the quantity of securities currently held by the Company, after deducting the number of securities lent out and adding the number of securities borrowed in accordance with the prevailing regulations.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025 (continued)**

**(ii) Asset value**

Asset value is determined in accordance with principles for valuation of securities in Circular 91 as follows:

No.	Type of asset	Principles for determining market value
<b>Cash and cash equivalents, money market instruments</b>		
1	Cash in banks (VND)	Account balance at the reporting date
2	Foreign currencies	Value converted into VND at the exchange rate of credit institutions authorized for trading foreign currencies at the reporting date
3	Term deposits	Deposit amount plus accrued interest
4	Treasury bills, bank drafts, commercial papers, transferable certificates of deposits, bonds and other discounted money market instruments	Purchase price plus accrued interest
<b>Bonds</b>		
5	Listed bonds	<ul style="list-style-type: none"> <li>- Average price at the latest trading date plus accrued interest from the most recent coupon payment date to the trading date (if the average price is the clean price);</li> <li>- If the bond has no transaction for more than 15 days before the valuation date, or is delisted, its value shall be the highest among the following: <ul style="list-style-type: none"> <li>+ Price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest;</li> <li>+ Purchase price plus accrued interest;</li> <li>+ Par value plus accrued interest;</li> <li>+ Value determined in accordance with the Company's internal regulations, including accrued interest.</li> </ul> </li> </ul>
6	Unlisted bonds	<ul style="list-style-type: none"> <li>- Average price of the bond quoted on the trading system of the Stock Exchange on the most recent trading day plus accrued interest from the most recent coupon payment date to the trading date (if the average is the clean price).</li> <li>- If the bond is not traded on the centralized trading system of the Stock Exchange, or has no transaction for more than 15 days before the valuation date, or is deregistered from trading, its value shall be the highest among the following: <ul style="list-style-type: none"> <li>+ Price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest;</li> <li>+ Purchase price plus accrued interest;</li> <li>+ Par value plus accrued interest;</li> <li>+ Value determined in accordance with the Company's internal regulations, including accrued interest.</li> </ul> </li> </ul>

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025 (continued)**

No.	Type of asset	Principles for determining market value
<b>Shares</b>		
7	Listed shares	<p>Closing price (or equivalent term under the Exchange's Regulations) of the latest trading date prior to the reporting date; If there is no transaction for more than 15 days before the valuation date, or the share is delisted, its value shall be the highest among the following:</p> <ul style="list-style-type: none"> <li>+ Book value;</li> <li>+ Purchase price;</li> <li>+ Value determined in accordance with the Company's internal regulations.</li> </ul>
8	Shares of public companies registered for UpCom trading	<p>Reference price (or equivalent term under the Exchange's Regulations) at the latest trading date prior to the reporting date; If there is no transaction for more than 15 days before the valuation date, or the share is deregistered from trading, its value shall be the highest among the following:</p> <ul style="list-style-type: none"> <li>+ Book value;</li> <li>+ Purchase price;</li> <li>+ Value determined in accordance with the Company's internal regulations.</li> </ul>
9	Shares already custodied but not yet listed and not yet registered for trading	<p>Average price from the quoted prices from at least three (03) securities companies which are not related to the Company at the latest trading date prior to the reporting date.</p> <p>If there were not sufficient quoted prices from three (03) securities companies, then the market value is the highest value of the followings:</p> <ul style="list-style-type: none"> <li>+ Quoted prices from securities companies;</li> <li>+ Price of the latest period;</li> <li>+ Book value;</li> <li>+ Purchase price;</li> <li>+ Value determined in accordance with the Company's internal regulations</li> </ul>
10	Shares for which trading has been suspended or delisted shares or shares with trading cancellation	<p>The highest of the followings:</p> <ul style="list-style-type: none"> <li>+ Price of the nearest valuation period but not exceeding 90 days before the valuation date;</li> <li>+ Book value;</li> <li>+ Par value;</li> <li>+ Value determined in accordance with the Company's internal regulations.</li> </ul>

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025 (continued)**

No.	Type of asset	Principles for determining market value
11	Shares of organisations which are currently being dissolved or bankrupt	80% of the liquidation value of such shares (share value announced by the dissolved or bankrupt organization or book value) at the latest balance sheet date, or value determined in accordance with the Company's internal regulations.
12	Other shares and capital contribution	The highest of the followings: + Book value; + Purchase price/capital contribution amount; + Value determined in accordance with the Company's internal regulations.
<b>Fund certificates/Shares of securities investment companies</b>		
13	Listed public fund certificates/Shares of public securities investment companies	- Closing price (or equivalent term under the Regulations issued by the Stock Exchange) of the latest trading date prior to the reporting date. - If there is no transaction for more than 15 days before the valuation date, or delisting occurs due to transfer of listing between Stock Exchanges, the value shall be the highest among the following: + Net asset value per fund certificate/share as publicly disclosed under regulations at the most recent date before the valuation date; + Purchase price; + Value determined in accordance with the Company's internal regulation.
14	Member funds/Shares issued in private placement of securities investment companies	Latest net asset value NAV per one capital contribution unit/fund certificate/share prior to the reporting date
15	Unlisted public fund certificates	Net asset value per fund certificate as publicly disclosed under regulations at the most recent date before the valuation date

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

**(iii) Market risk coefficient**

Market risk coefficient is determined for each type of asset in accordance with the provisions of Circular 91 as disclosed in Note 5(a).

**(iv) Increase in market risk value**

The market risk values of assets will be increased if the Company significantly invests in such assets, except for secured underwriting securities, Government bonds and bonds guaranteed by the Government. Market risk value is increased in accordance with the following principles:

- Increase by 10% if the total value of any investment in securities or capital contributions of an organisation accounts for from more than 10% to 15% of the Company's equity;
- Increase by 20% if the total value of any investment in securities or capital contributions of an organisation accounts for from more than 15% to 25% of the Company's equity;
- Increase by 30% if the total value of any investment in securities or capital contributions of an organisation accounts for more than 25% of the Company's equity.

Dividends, coupons, value of privileged rights of securities (if any) or interest receivables from cash and cash equivalents, transferrable instruments and valuable papers are added to the asset values when determining the market risk value.

**(d) Settlement risk value**

Settlement risk value is the value corresponding to the level of loss which may occur if counterparty is unable settle obligations or transfer assets on time as committed. Settlement risk value is determined at the end of transaction date or contract date as follows:

- Settlement risk value before the due date for payment/transfer of securities is determined in accordance with following principle:

$$\text{Settlement risk before due date} = \text{Value of the asset with settlement risk} \times \text{Settlement risk coefficient by counterparty}$$

The above principle to determine settlement risk value before due date is applicable for following contracts:

- Term deposits at credit institutions, certificates of deposit issued by credit institutions, and cash held in securities trading accounts of the fund management company opened at the Company;
  - Securities lending contracts and securities borrowing contracts in compliance with laws;
  - Repurchase agreements in compliance with laws;
  - Reverse repurchases agreements in compliance with law;
  - Margin loan contracts in compliance with laws; and
  - Undue accounts receivable of securities trading company, accounts receivable from customers in brokerage activities for securities sales.
- For underwriting contracts signed with other organisations in an underwriting syndicate in the form of a firm undertaking in which the Company is the lead underwriter, the settlement risk value shall be 30% of the residual value of an underwriting contract for which payment has not been made.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

- Overdue settlement risk value is determined in accordance with following principle:

$$\text{Overdue settlement risk} = \text{Settlement risk coefficient by overdue period} \times \text{Value of the asset with settlement risk}$$

The above principle to determine settlement risk value after due date is applicable for:

- Overdue receivables, including matured bonds, valuable papers, matured but unpaid debt instruments;
  - Assets that are overdue for transfer, including securities incurred during the normal business of the Company, customers' securities in securities brokerage transactions;
  - Securities, cash not received from matured transactions/contracts include term deposits at credit institutions, certificates of deposit issued by credit institutions; securities lending contracts and securities borrowing contracts in compliance with laws; repurchase agreements in compliance with laws; reverse repurchase agreements in compliance with laws; and margin loan contracts in compliance with laws.
- The settlement risk value for other cases is determined as follows:
    - Deposit agreements or agreements for purchasing real estate, and economic agreements of similar nature: Settlement risk value = Deposit amount  $\times$  150%
    - Loans or receivables from customers not falling under Points d and g Clause 1, Article 10 of: Settlement risk value = Loan or receivable amount  $\times$  150%
    - Other contracts or transactions: Settlement risk value = Total value of assets potentially exposed to settlement risk  $\times$  100%.
  - For advances whose remaining repayment term is under 90 days (excluding extended advances; extended cases shall be eligible for deductions from eligible capital, the settlement risk value shall be determined as follows:

Assets potentially exposed to settlement risk		Risk coefficient	Settlement risk value
Total advances	accounting for 0% to 2% of equity at the calculation date	8%	Settlement risk value = Assets potentially exposed to settlement risk $\times$ Settlement risk coefficient.
	accounting for more than 2% to under 5% of equity	50%	
	accounting for 5% or more of equity	100%	

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

**(i) Settlement risk coefficient**

In accordance with the requirements of Circular 102, settlement risk coefficient by counterparty is as follows:

No.	Counterparty	Settlement risk coefficient
1	The Government, issuing organisations guaranteed by the Government and central banks of countries in the OECD, people's committee of provinces and cities under central authority	0%
2	Stock Exchanges, Vietnam Securities Depository	0.8%
3	Credit institutions, financial institutions, and securities companies established in countries in the OECD and with a credit rating satisfying the internal rules of the Company	3.2%
4	Credit institutions, financial institutions, and securities companies established in countries outside the OECD; or established in countries in the OECD but with a credit rating not satisfying the internal rules of the Company	4.8%
5	Credit institutions, financial institutions, securities trading entities, securities investment funds, securities investment companies established and operating in Vietnam	6%
6	Other organisations, individuals and others	8%

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

In accordance with the requirements of Circular 102, settlement risk coefficient by overdue status is as follows:

No.	Overdue period	Settlement risk coefficient
1	0 - 15 days after the due date for payment/transfer of securities	16%
2	16 - 30 days after the due date for payment/transfer of securities	32%
3	31 - 60 days after the due date for payment/transfer of securities	48%
4	Above 60 days after the due date for payment/transfer of securities	100%

Time for payment/transfer of securities is T+2 (for listed securities), T+1 (for listed bonds), T+n (for transactions agreed outside the trading system in n days as agreed by the two parties).

**(ii) Value of assets with settlement risk**

➤ *Value of assets with settlement risk in securities borrowing activities, securities lending activities, margin trading activities, repurchase/reverse repurchase agreements, and other transactions:*

No.	Type of transaction	Value of assets with settlement risk
1	Term deposits and unsecured loans	All balances of deposits, certificates of deposit, loans, contracts, transactions plus dividends, coupons, value of privileged rights (for securities) or interest receivables and other charges (for credit amounts)
2	Securities lending	$\text{Max} \{(\text{Market value of the contract} - \text{Value of collateral assets (if any)}), 0\}$
3	Securities borrowings	$\text{Max} \{(\text{Value of collateral assets} - \text{Market value of the contract}), 0\}$
4	Reverse repurchases agreements	$\text{Max} \{(\text{Contract value calculated in accordance with purchase price} - \text{Market value of the contract} * (1 - \text{Market risk coefficient})), 0\}$
5	Repurchase agreements	$\text{Max} \{(\text{Market value of the contract} * (1 - \text{Market risk coefficient}) - \text{Contract value based on the selling price}), 0\}$
6	Margin loans (lending to customers to purchase securities)/Other arrangements with similar nature	$\text{Max} \{(\text{Outstanding loan balance} - \text{Value of collateral assets}), 0\}$

Outstanding balance comprises the principal, interest and related fees.

Value of collateral assets is based on the market value. When the market values of collateral assets are not available, values are determined in accordance with the Company's internal regulations.

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

➤ *Value of assets with settlement risk in securities trading transactions:*

No.	Time	Value of assets with settlement risk
A. For the sale of securities transactions (seller is the Company or the Company's customers in brokerage activities)		
1	Before the due date for payment	Nil
2	After the due date for payment	Market value of the contract (if the market value is lower than the transaction price)
		Nil (if the market value is higher than the transaction price)
B. For the purchase of securities transactions (buyer is the Company or the Company's customers in brokerage activities)		
1	Before the due date for securities transfer	Nil
2	After the due date for securities transfer	Market value of the contract (if the market value is higher than the transaction price)
		Nil (if the market value is lower than the transaction price)

Time for payment/transfer of securities in accordance with regulations is T+2 (for listed shares), T+1 (for listed bonds), or T+n (for transactions agreed outside the trading system in n days as agreed by the two parties)

➤ *Settlement risk values of overdue accounts receivable, matured bonds and debt instruments are the underlying amounts including par value plus accrued interest and fees, less actual cash previously received (if any).*

**(iii) Deductions from the value of assets with settlement risk**

The Company deducts the value of collateral asset received from counterparties or customers from the value of assets with settlement risk when determining the value of assets with settlement risks if the contracts and transactions meet the following criteria:

- The counterparties or customers have collateral assets to secure for their obligations including cash, cash equivalents, valuable papers, transferable money market instruments, listed securities on Vietnam Stock Exchanges and its subsidiaries, Government bonds, or bonds underwritten by the Ministry of Finance;
- The Company has the right to control, manage, use or transfer the collateral assets if the counterparties fail to settle the obligations according to the contractual schedules.

Value of collateral assets deducted from the value of assets with settlement risk is calculated as follows:

$$\text{Value of collateral assets} = \text{Asset quantity} \times \text{Asset value per unit} \times (1 - \text{Market risk coefficient})$$

Asset value is determined in accordance with the requirements of Circular 91 as described in Note 3(c)(ii).

Market risk coefficient is determined in accordance with the requirements of Circular 91 as disclosed in Note 5(a).

**DNSE Securities Joint Stock Company**  
**Notes to Financial Safety Ratio Report as at 31 December 2025**  
**(continued)**

**(iv) Settlement risk value increase**

Settlement risk values are increased in the following cases:

- Increase by 10% if the value of deposit contracts, certificates of deposit, loans, undue accounts receivable, reverse repurchase agreements, repurchase agreements, total loans to any organisation or individual and group of related organisations and individuals (if any), accounts for more than 10% to 15% of the Company's equity;
- Increase by 20% if the value of deposit contracts, certificates of deposit, loans, undue accounts receivable, reverse repurchase agreements, repurchase agreements, total loans to any organisation or individual and group of related organisations and individuals (if any), accounts for more than 15% to 25% of the Company's equity;
- Increase by 30% if the value of deposit contracts, certificates of deposit, loans, undue accounts receivable, reverse repurchase agreements, repurchase agreements, total loans to any organisation or individual and group of related organisations and individuals (if any), or any individual and its related parties (if any), accounts for over 25% of the Company's equity.

Dividends, coupons, value of privileged rights of securities (if any) or interest receivables from cash and cash equivalents, transferrable instruments and valuable papers are added to the asset values when determining the settlement risk value.

**(v) Netting off value of assets with settlement risk**

The value of assets with settlement risk is netted off if:

- The settlement risk is related to the same counter party;
- The settlement risk arises from the same type of transactions; and
- The netting off is agreed by the parties in writing in advance.

**(e) Operational risk value**

Operational risk value is the value corresponding to the level of loss which may occur due to a technical or system error, human error during the operations, or shortage of capital arising from expenses, losses from investment activities, or other objective reasons

The operational risk value of the Company is calculated at the higher of 25% of the expenses for calculating operational risk in the latest 12-month period to the reporting date and 20% of its minimum charter capital for business operations in accordance with the law.

Expenses for calculating operational risk include all costs incurred during the period after deducting:

- Depreciation expenses
- Expense or reversal of allowance for diminution in the value of current financial assets and collaterals;
- Expense or reversal of allowance for diminution in the value of long-term financial assets;
- Expense or reversal of allowance for diminution in the value of accounts receivable;
- Expense or reversal of allowance for diminution in the value of other current assets;
- Expense on downward revaluation differences of financial assets at FVTPL;
- Interest expenses;
- Differences arising from revaluation of outstanding warrants payable;
- Unrealised foreign exchange gain or loss; or
- Financial expenses and other non-cash expenses in the business activities.
