**REPORT OF THE BOARD OF DIRECTORS
AT THE 2026 ANNUAL GENERAL MEETING OF SHAREHOLDERS**

Dear shareholders, distinguished guests,

The Board of Directors of Song Da Industry Trade Joint Stock Company respectfully reports to the General Meeting on the operating results in 2025, Plan, direction and tasks in 2026, as follows:

A. PRODUCTION AND BUSINESS RESULTS IN 2025 AND ACTIVITIES OF THE BOARD OF DIRECTORS IN 2025:

I. Characteristics of the world and domestic situation in 2025 affecting the company:

- The global economic situation's impact on the company's production and business activities:

In 2025, the global economy witnessed numerous adverse economic, political, and social events, alongside escalating tensions between the world's top two powers, the US and China. The prolonged tariff war; rising trade tensions, geopolitical tensions, and policy instability made the global trade economy quite gloomy. US tariff policies disrupted the market and had a negative impact on the manufacturing sectors of many countries, including Vietnam.

- Vietnam's economy: The domestic economy in 2025 showed many macroeconomic bright spots. GDP in 2025 grew positively by over 8%, the highest growth rate since 2011. The import-export turnover of goods in 2025 increased by 16.9% compared to the previous year, marking the highest increase ever and continuing to maintain a trade surplus. Inflation was kept under control; general interest rates were stable and maintained at a low level. The Consumer Price Index (CPI) increased by 3.31%, and inflation rose by 3.21%, contributing to domestic macroeconomic stability.

The disbursement of public investment capital reached 82.7%, a sharp increase compared to the previous year, creating significant advantages for domestic enterprises, including our company.

Regarding the company's production and business activities, caught in the general economic turbulence, production was also unstable from the first quarter through the end of the third quarter of 2025. There was a particularly sharp decline in orders from May to September, affecting both domestic and export orders. From the fourth quarter of 2025, the output market began to improve significantly.

However, to compensate for the difficulties regarding orders, the company's production activities this year benefited from stable input material prices, which were maintained at levels lower than the planned costs. This ensured economic efficiency and led to exceeding the planned economic targets assigned by the General Meeting of Shareholders and the Board of Directors.

II. Implementation of the Resolution of the 2025 Shareholders' General Meeting:

1. Results of implementing the 2025 production and business plan:

The results of production and business activities in 2025 are as follows:

No.	Target	Unit	Plan for 2025	Implementation in 2025	
				Value	Completion rate (%)
1	Total production and business value	Bil. VND	202.36	208.38	102.9
2	Revenue	Bil. VND	190.80	196.67	103.0
3	Payment to the budget	Bil. VND	8.0	3.34	41.7
4	Profit before tax	Bil. VND	8.0	9.82	122.8
5	Profit after tax	Bil. VND	-	7.92	-
6	Average income of employees	Mil. VND/ person/mon.	11.5	11.8	103.4
7	Consumed products				
	- Production of all kinds of packaging	Mil. products	33.0	34.24	103.7
	- Plastic pellet trading	Ton	600	127.5	21.2

2. Assessment of production and business implementation in 2025:

- Regarding production and business results in 2025: Implement the main targets approved by the 2025 Annual General Meeting of Shareholders, specifically:

- + Revenue reached 196.67 billion VND, completing 103,0% of the year plan
- + Profit before tax reached 9.82 billion VND, completing 122.8% of the year plan.
- + Product consumption reached 34.24 million packaging bags of various types, completing 103.7% of the annual plan.

Regarding the profit structure: In 2025, profit was primarily contributed by the core production and business activities of the enterprise. The total profit was correspondingly reduced after offsetting a relatively large provision for late-paying customers' receivables, amounting to 5.68 billion VND. However, even after deducting these provisions, the company still managed to exceed the set plan by 22%.

The profit of the associated company, following investments in its production and business activities, has started to become profitable from 2023 to the present; however, it has not yet been accounted for because the associated company has not distributed its profit.

- Market work:

In 2025, the Company's Management Board continued to strengthen management activities, improve the quality of executive management, and exercise flexibility in expanding the market for packaging products. They placed special emphasis on tapping into the export market to enhance the capacity to supply products internationally. However, due to low global demand, the export volume this year decreased by 20% compared to the previous year. Nevertheless, the import-export segment still achieved certain milestones; for the first time, the company's products reached demanding markets such as the US and Canada. The development of new export products, such as PE bags and supermarket shopping bags at the associated company, has laid the groundwork for subsequent years.

The company's domestic consumer market in 2025 faced many difficulties, primarily relying on maintaining existing customers. However, having made prior assessments and forecasts, the company developed a product sales plan based on a cautious and reasonable approach. As a result, the product consumption performance in 2025 still reached 103% of the set plan.

- Capital recovery work :

Total capital collection in 2025 reached 208.9 billion VND compared to the planned 220 billion VND, achieving 95%. Capital recovery efforts still faced significant difficulties;

although the accounts receivable decreased, they remained high. The outstanding balance of customer receivables as of December 31, 2025, was 96.2 billion VND.

- Production and supply work

All product production management activities of the company are synchronously standardized in terms of management processes and food safety requirements applied to export goods according to 2 processes: ISO 9001:2015 and ISO 9001:22000.

Product quality and product supply services for customers in 2025 continued to be maintained stably, meeting customers' technical requirements, and highly appreciated by customers, contributing to increasing the prestige and competitive advantage of the unit in the market within the same industry.

The company has done a good job of maintaining, servicing, and repairing machinery and equipment, ensuring that the equipment system is always ready to operate to meet usage efficiency without affecting production progress and product quality.

The activities of the Safety and Hygiene network and the Safety and Labor Protection Board at the packaging enterprise have been put into order, ensuring safe working conditions for the Company's officers and employees.

- Business activities:

The company continued to maintain its cement trading activities to enhance support for debt recovery efforts at cement plants. Additionally, the company integrated plastic resin trading to supplement its own production activities and partly assist the associated company in proactively securing imported raw materials for production. Priority was given to sales with immediate capital recovery to ensure capital safety, given the small profit margins and high risks of outstanding debt.

- Investment work: In 2025, the company did not have any major investment expenditures. The production and business activities at the associated company, in which the company has invested capital, have stabilized. The primary focus of production and supply is braided ropes and supermarket bags aimed at the export market; however, the output market demand remains low.

- Financial work:

The company's 2025 financial statements were independently audited (A&C Auditing and Consulting Company Limited) and obtained unqualified opinion.

Manage the company's assets and capital, financial revenues and expenditures in accordance with regulations; arrange sufficient capital to serve the unit's production and business activities.

The company's financial situation is healthy. Capital management and use, and debt management are strictly controlled, ensuring financial safety.

3. Completion of dividend payment: Paid dividends fully and on time to ensure the rights of shareholders. Executed the 2024 dividend payment in cash at a rate of 8%, paid on May 9, 2025.

4. Completion of auditor selection: A&C Auditing and Consulting Company Limited is the independent auditor performing the audit/review of the company's 2025 financial statements.

5. Remuneration and benefits of the Board of Directors, Board of Management, Chief Accountant in 2025:

B. PLAN AND DIRECTION OF OPERATIONS IN 2026

**** General assessment of the world and domestic situation affecting the company's production and business activities:***

The global situation still harbors many potential risks regarding the continuation of war; existing geopolitical tensions in 2026 could impact oil prices and international freight rates. Trade tensions between the two superpowers, the US and China, continue to put

significant pressure on the global economy, which is forecasted to continue slowing down to its weakest growth rate since the 2008 financial crisis (2.5-3%/year).

Vietnam's economy in 2026 is forecasted to continue its recovery and achieve higher growth, with a double-digit target approved by the National Assembly. The bright spot comes from domestic growth drivers, first and foremost being public investment. The public investment plan for 2026 is expected to increase by about 10.3% compared to the previous year, equivalent to nearly 8% of GDP. This is a substantial figure, sufficient to create a spillover effect across many sectors, from construction, materials, and logistics to related services.

However, alongside these opportunities, experts note that the 2026 economic landscape will also witness massive challenges, particularly macroeconomic risks, external instability, and the complexities of domestic policy management. Regarding external impacts, the recent escalation of the US-Iran war has raised concerns about global energy security instability; if prolonged, it will have a tremendous impact on businesses, with skyrocketing prices for raw materials, production costs, and shipping rates potentially wiping out corporate profits. Regarding domestic regulatory policies, if efforts are made to achieve growth targets at all costs, inflationary pressure will be significant; without the right solutions for credit control, it could severely impact the entire economic system.

Based on these cautious assessments and forecasts, the Board of Directors and the Board of Management have developed and proposed the 2026 operational plan and direction to be submitted to the General Meeting of Shareholders for approval, specifically as follows:

L. Operational plan and direction for 2026:

1. Production and business plan targets for 2026:

- Total output value:	207.32 billion VND
- Total revenue:	196.53 billion VND
- Payment to the state budget:	6.0 billion VND
- Profit before tax:	8.0 billion VND
- Average income of employees (person/month):	13.95 million VND
- Main product volume:	33.1 million bags
- Plastic business:	500 tons
- Expected dividend payout ratio:	7%÷10%/year

2. Key directions and tasks for 2026:

- Organize the Annual General Meeting of Shareholders, and propose to the General Meeting issues within the decision-making authority of the General Meeting of Shareholders.
- Direct the Executive Board to develop specific plans and solutions to complete the targets set by the 2026 Annual General Meeting of Shareholders.
- Direct the successful implementation of the Resolution of the General Meeting of Shareholders, and simultaneously issue timely and flexible resolutions and decisions for the General Director and the executive apparatus to implement.
- Maintain regular quarterly meetings according to regulations to resolve tasks within the authority of the Board of Directors.

- Maintain stability with existing customers and continue to seek and expand the domestic packaging consumption market.
- Strengthen marketing and bidding efforts to seek job opportunities in 2026 and subsequent years.
- Be decisive in settlement and finalization, and closely urge and direct the recovery of debts, especially long-standing debts and bad debts, to ensure capital balance for production and business.
- Strengthen the management and supervision of the activities of the Executive Board and supporting apparatus.
- Strengthen supervision and direction of the Executive Board in monthly and quarterly production and business, striving to achieve and exceed the targets approved by the Annual General Meeting of Shareholders.
- Strictly manage costs so that product prices are competitive with similar products on the market. Supervise the thorough implementation of cost savings in production and business activities to contribute to reducing product costs and bringing overall efficiency to the unit.
- Urge and closely supervise the implementation of resolutions of the General Meeting of Shareholders, as well as resolutions and decisions of the Board of Directors, in strict accordance with legal regulations and the company's Charter.
- Pay attention to the rights and working conditions of employees. Improve income for employees as well as social insurance, health insurance, unemployment insurance regimes, and other welfare regimes for employees.
- Continue to organize, consolidate, and develop human resources towards being lean and effective, attracting high-quality human resources.

Above is the Board of Directors' report on the operating results in 2025; Plan and direction of operations in 2026. The Board of Directors respectfully reports and respectfully submits to the General Meeting for consideration and approval.
