Re: *Explanation of the difference in profit and loss
on the financial statements for Quarter 1 of 2026*

Hai Phong, April 17, 2026

**To: - The State Securities Commission;
 - Hanoi Stock Exchange.**

Pursuant to Circular No. 96/2020/TT-BTC on the disclosure of information on the stock market, VP Petrochemical Transport Joint Stock Company would like to explain the difference in profit and loss on the Company's financial statements for the accounting period ending 31/03/2026 as follows:

In the Financial Statements for the accounting period ending 31/03/2026 of VP Petrochemical Transport Joint Stock Company, the Statement of business results shows:

- | | | |
|-------------------------|---|----------------------|
| - Quarter 1 2026 Profit | : | 5,803,336,435 VND; |
| - Quarter 1 of 2025 | : | (6,381,176,175) VND; |

The basic reasons for the difference in profit in Q1 2026 by VND 12.12 billion compared to the same period in 2025 are as follows: The target of sales and service revenue in the first quarter of 2026 increased by VND 9,696 billion over the same period last year, but due to strong exchange rate fluctuations, causing financial expenses to decrease by VND 2,743 billion, and at the same time, revenue from financial activities in Q1 of 2026 increased compared to the same period last year by VND 1,348 billion, leading to a difference in profit after tax in Q1 of 2026 of VND 12.12 billion compared to the same period in 2025.

The above is an explanation of the reason why the profit after tax in the first quarter of 2026 is over 10% compared to the profit after tax in 2025. That is also the reason for the profit in this period's financial statements of VP Petrochemical Transportation Joint Stock Company.

Best regards.
