No.: 525.../2026/CV - SHS
(Re: *Explanation of the Financial Statements
for Q1/2026*)

Hanoi, April 20, 2026

**To: Vietnam Stock Exchange
Hanoi Stock Exchange**

In compliance with Clause 4, Article 14 of Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance, guiding information disclosure in the securities market, Sai Gon – Hanoi Securities Joint Stock Company provides the following explanations:

a. Regarding the variance of 10% or more in Profit After Corporate Income Tax compared to the same period last year:

Profit after corporate income tax in the Income Statement for Q1/2026 decreased by 12% compared to the same period last year. The reasons are as follows:

- Proprietary trading revenue in Q1/2026 decreased by 51% compared to Q1/2025 due to adverse market conditions.
- Interest income from loans and receivables in Q1/2026 increased by 111% compared to the same period in 2025, reflecting strong trading demand.
- Brokerage revenue in Q1/2026 increased by 86% compared to Q1/2025 thanks to improved market liquidity. However, brokerage operating expenses in this period also increased by 54% compared to the same period last year.
- Interest expenses in Q1/2026 increased by 523% compared to the same period last year.

Sincerely!

Recipients:

- *As above;*

NOTES TO THE FINANCIAL STATEMENTS

First quarter of 2026

1 GENERAL INFORMATION**1.1 Certificate of establishment of securities company:**

Saigon – Hanoi Securities Joint Stock Company (the “Company” or “SHS”) was established and operates under Securities Business Licence No. 66/UBCK-GP issued by the State Securities Commission on 15 November 2007, as subsequently amended, the latest amendment being Licence No. 07/GPDC-UBCK dated 14 January 2026.

The Company was granted Enterprise Registration Certificate No. 0102524651 by the Hanoi Department of Planning and Investment on 15 November 2007, with the latest amendment dated 20 January 2026.

1.2 Company contact address

The Company’s head office is located at: 43 Ly Thuong Kiet Street, Cua Nam Ward, Hanoi City.

Branch name:	Address
Ho Chi Minh Branch of Sai Gon - Ha Noi Securities Joint Stock Company	6th Floor, HDTC Office Building, No. 36 Bui Thi Xuan Street, Ben Thanh Ward, Ho Chi Minh City
Da Nang Branch of Sai Gon - Ha Noi Securities Joint Stock Company	2nd Floor, SHB Da Nang building, No. 06 Nguyen Van Linh Street, Hai Chau Ward, Da Nang City
Ha Noi Branch of Sai Gon - Ha Noi Securities Joint Stock Company	No. 41 Ngo Quyen Street, Cua Nam Ward, Hanoi City

1.3 Company's charter capital

The Company’s charter capital as registered in the Enterprise Registration Certificate is VND 8,994,622,200,000.

As at 31 March 2026, the charter capital fully contributed amounted to VND 8,994,622,200,000, equivalent to 899,462,220 shares with a par value of VND 10,000 per share

1.4 Principal activities

The Company’s business activities include: Securities brokerage, securities trading, securities investment advisory Financial advisory, securities issuance guarantee Securities depository and other financial services as permitted by law.

2. BASIS FOR PREPARATION OF INTERIM FINANCIAL STATEMENTS**2.1 Accounting period and accounting monetary unit**

Annual accounting period commences from 1st January and ends as at 31st December.

The Company maintains its accounting records in VND.

2.2 Accounting Standards and Accounting system

The Company applies the accounting regime for securities companies under Circular No. 210/2014/TT-BTC dated 30 December 2014 and Circular No. 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance. Securities Company.

The financial statements have been prepared and presented in accordance with Vietnamese Accounting Standards, the accounting regime applicable to securities companies and relevant statutory requirements.

2.3 Form of accounting record

The Company is applying accounting record by computer.

2.4 Basis of measurement

The financial statements have been prepared under the historical cost convention, except for financial assets measured at fair value in accordance with prevailing regulations

The financial statements reflect financial transactions that have been recognised in the Company’s accounting records.

2.4 Accounting estimates and judgements

The preparation of the financial statements in accordance with Vietnamese Accounting Standards and the accounting regime applicable to securities companies requires the Company to make accounting estimates and judgements that affect the reported amounts of assets and liabilities, as well as revenues and expenses.

Key areas involving estimates and judgements include:

- Provision for doubtful debts;

- Estimated allocation of prepaid expenses;
- Estimated useful life of fixed assets;
- Classification and provision of financial investments;
- Estimated income tax.

Estimates and judgements are reviewed on an ongoing basis based on historical experience and other relevant factors. Actual results may differ from these estimates.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.5 Cash and cash equivalents

Cash comprises cash on hand, bank balances and cash in transit.

Cash equivalents are short-term investments with an original maturity of not more than three months from the date of acquisition, which are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

Deposits for securities clearing and settlement represent the Company's deposits maintained at settlement banks for the purpose of clearing and settling securities transactions in accordance with the regulations of the Vietnam Securities Depository.

Investors' deposits for securities trading and deposits from issuers are presented off-balance sheet..

3.2 Financial instruments

3.2.1 General principles

Classification

The Company's financial assets are classified, at initial recognition, into the following categories:

- Financial assets at fair value through profit or loss ("FVTPL");
- Held-to-maturity investments ("HTM");
- Available-for-sale financial assets ("AFS");
- Loans and receivables.

The classification depends on the nature of the financial assets, the purpose for which the assets were acquired and the Company's management intention.

Financial liabilities are classified into the following categories:

- Financial liabilities at fair value through profit or loss;
- Financial liabilities measured at amortised cost.

Initial recognition

Financial assets and financial liabilities are initially recognised at cost.

The cost of financial assets includes the purchase price plus directly attributable transaction costs, except for financial assets classified as FVTPL, for which transaction costs are recognised in profit or loss in the period incurred.

Financial liabilities are initially recognised at cost, being the amount received from the incurrence of the liability plus directly attributable transaction costs.

3.2.2 Financial assets

a) Financial assets at fair value through profit or loss (FVTPL)

Financial assets at FVTPL are those financial assets that meet one of the following conditions:

- Acquired principally for the purpose of selling in the short term;
- There is evidence of short-term profit-taking; or
- They are derivative financial instruments, except for those designated as financial guarantee contracts or effective hedging instruments.

At initial recognition, the Company may designate financial assets into the FVTPL category.

Subsequent to initial recognition, these financial assets are measured at fair value at the end of the reporting period.

Gains or losses arising from changes in fair value are recognised in the statement of profit or loss.

Transaction costs relating to the acquisition of FVTPL financial assets are recognised as expenses in the period incurred.

Where fair value cannot be reliably measured, such financial assets are carried at cost less impairment losses (if any).

b) Held-to-maturity investments (HTM)

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the positive intention and ability to hold to maturity, other than:

- Financial assets classified as FVTPL;

- Financial assets classified as AFS; or
- Financial assets classified as loans and receivables.

Subsequent to initial recognition, HTM investments are measured at amortised cost using the effective interest method, less impairment losses (if any).

The Company shall not classify financial assets as HTM if, in the current financial year or during the two preceding financial years, it has sold or reclassified a significant amount of HTM investments before maturity, except in the following cases:

- The sale occurs close to maturity and is not significantly affected by changes in market interest rates;
- The sale occurs after the Company has collected substantially all of the original principal; or
- The sale is attributable to an isolated event beyond the Company's control that could not have been reasonably anticipated.

c) Available-for-sale financial assets (AFS)

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or are not classified into any of the following categories:

- Loans and receivables;
- Held-to-maturity investments;
- Financial assets at fair value through profit or loss.

Subsequent to initial recognition, AFS financial assets are measured at fair value at the end of the reporting period.

Gains or losses arising from changes in fair value are recognised in equity.

When the asset is disposed of or determined to be impaired, the cumulative gain or loss previously recognised in equity is reclassified to profit or loss.

Subsequent recoveries in value are accounted for in accordance with applicable accounting regulations.

d) Loans

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

The Company's loans include margin lending and advances to customers for securities trading.

Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method, less impairment losses (if any).

e) Receivables

Receivables include amounts due from trading of financial assets, provision of services and other receivables.

Subsequent to initial recognition, receivables are carried at recoverable amount, being the carrying amount less allowance for doubtful debts (if any).

3.2.3 Impairment of financial assets

Impairment is assessed on an individual asset basis or collectively for groups of assets with similar risk characteristics.

At the end of each reporting period, the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired.

Objective evidence of impairment may include, but is not limited to:

- Significant financial difficulty of the issuer or borrower;
- Breach of contract, such as default or delinquency in payments;
- Probability of bankruptcy or financial reorganisation;
- Significant or prolonged decline in fair value;
- Observable data indicating a measurable decrease in estimated future cash flows.

Impairment losses are recognised as follows:

- For financial assets measured at amortised cost: recognised in profit or loss;
- For AFS financial assets: cumulative losses previously recognised in equity are reclassified to profit or loss;
- For FVTPL financial assets: no separate impairment is recognised as changes in value are already reflected in profit or loss.

Impairment allowances are reviewed and adjusted at each reporting date based on available information and events.

3.2.4 Determination of fair value

Fair value of financial assets is determined in accordance with prevailing regulations and reflects the market value of the assets at the measurement date.

The determination of fair value prioritises quoted prices in active markets. Where quoted prices are not available, the Company applies appropriate valuation techniques using observable market inputs to the extent possible.

Specifically:

- For listed securities: fair value is the closing price on the most recent trading date prior to the reporting date on the relevant Stock Exchange;
- For securities registered for trading on UPCoM: fair value is the closing price at the most recent trading date;
- For unlisted securities without an active market: fair value is determined using appropriate valuation techniques, including reference to recent market transactions or accepted valuation models;
- Where fair value cannot be reliably determined: the financial assets are carried at cost less impairment losses (if any).

3.3 Fixed assets

Tangible fixed assets and intangible fixed assets are initially recognised at cost.

Subsequent to initial recognition, these assets are carried at cost less accumulated depreciation/amortisation and net book value.

Depreciation and amortisation are calculated using the straight-line method over the estimated useful lives of the assets, as follows:

- Machinery, equipment	03 - 07 years
- Transportation equipment	06 years
- Trading software, patents	04 - 05 years
- Office equipment and other fixed assets	03 - 05 years

3.4 Short-term and long-term deposits received

Deposits and margins received represent amounts received by the Company from relevant parties in the course of its operations in accordance with prevailing regulations.

These amounts do not belong to the Company and are managed and monitored separately from the Company's cash balances.

3.5 Short-term and Long-term receivables

Receivables include:

- Receivables from the sale of financial assets (not through the Stock Exchanges), including amounts due at maturity or upon disposal;
- Dividends and interest receivables and accruals from financial assets;
- Receivables from services provided, including amounts due from Stock Exchanges, the Vietnam Securities Depository and Clearing Corporation (VSD), investors, issuers and other counterparties.

Receivables are monitored in detail by maturity, counterparty, currency and other factors as required for the Company's management purposes.

Receivables are classified as short-term or long-term based on their remaining maturities at the reporting date.

An allowance for doubtful debts is recognised for:

- Receivables that are overdue based on contractual terms; and
- Receivables that are not yet due but are assessed as unlikely to be recoverable.

The determination of overdue periods is based on the original contractual payment terms, without considering any subsequent extensions agreed between the parties.

For receivables not yet due but considered doubtful, the allowance is assessed based on the actual condition of the debtor, including cases such as bankruptcy, dissolution, disappearance, absconding, or being subject to legal proceedings or enforcement.

Allowance levels are determined in accordance with Circular No. 48/2019/TT-BTC dated 8 August 2019 and Circular No. 24/2022/TT-BTC dated 7 April 2022, as follows:

<u>Overdue period</u>	<u>Provision rate</u>
From over six (06) months to less than one (01) year	30%
From one (01) year to less than two (02) years	50%
From two (02) years to less than three (03) years	70%
From three (03) years and above	100%

3.6 Construction in progress

Construction in progress represents fixed assets under construction or acquisition that are not yet completed at the end of the reporting period and are recognised at cost.

Such costs include construction costs, installation costs of machinery and equipment, and other directly attributable costs.

Construction in progress is not depreciated until the related assets are completed and put into use.

3.7 Operating lease

Operating leases are leases in which substantially all the risks and rewards incidental to ownership of the leased assets remain with the lessor.

3.8 Prepaid expenses

Prepaid expenses represent costs incurred that relate to multiple accounting periods and are allocated to expenses over the respective periods.

Prepaid expenses are recognised at cost and allocated to profit or loss over the relevant periods using a method appropriate to the nature of each type of expense, primarily on a straight-line basis.

The Company's prepaid expenses include:

- Tools and supplies: assets used in the normal course of business with a cost of less than VND 30 million per item and therefore not meeting the criteria for recognition as fixed assets. These costs are allocated on a straight-line basis over a period of 1 to 36 months;
- Office rental expenses: allocated on a straight-line basis over the lease term;
- Other prepaid expenses: recognised at cost and allocated on a straight-line basis over a period of 1 to 36 months.

3.9 Short-term and long-term liabilities

Liabilities are monitored in detail by maturity, counterparty, currency and other factors as required for the Company's management purposes.

Liabilities are classified as short-term or long-term based on their remaining maturities at the reporting date.

Borrowings

Borrowings include loans obtained from banks, financial institutions and other counterparties in accordance with regulations applicable to securities companies.

Borrowings also include bonds issued by the Company and related repayment obligations.

Payables related to securities trading activities

These represent payables arising from the Company's securities trading and service activities, including fees payable to the Stock Exchanges, the Vietnam Securities Depository and Clearing Corporation (VSD) and securities issuance agents.

Payables to issuers

These represent amounts payable to issuers in respect of proceeds collected from underwriting activities performed by the Company, including distributions through agents.

3.10 Borrowing costs

Borrowing costs are recognised in profit or loss in the period in which they are incurred, except where they are capitalised.

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of those assets when the recognition criteria under Vietnamese Accounting Standard No. 16 "Borrowing Costs" are met.

For specific borrowings used for the construction of fixed assets or investment properties, borrowing costs are capitalised during the construction period, including cases where the construction period is less than 12 months.

3.11 Accrued expenses

Accrued expenses represent costs incurred for goods and services received or provided during the period but not yet paid as at the reporting date.

Accrued expenses are recognised in profit or loss in the period to which they relate.

Accrued expenses include, but are not limited to, accrued interest expenses and other operating expenses.

Accrued expenses are estimated based on reasonable assumptions at the reporting date.

3.12 Owner's equity

Equity comprises contributed capital, share premium, revaluation surplus and retained earnings.

Contributed capital

Contributed capital is recognised based on the actual amount contributed by the owners.

Share premium

Share premium represents the excess of the issuance price over the par value of shares, net of directly attributable issuance costs.

Share premium may be positive or negative depending on the issuance price relative to par value and related costs.

Revaluation surplus

Revaluation surplus represents differences arising from the revaluation of assets at fair value in accordance with prevailing regulations.

Revalued assets include available-for-sale financial assets, fixed assets and other assets as required by competent authorities (if any).

Retained earnings

Retained earnings comprise realised profits and unrealised profits.

- **Realised profits** represent the difference between total income and total expenses of the Company. Realised profits, after offsetting accumulated losses, are available for distribution to owners;
- **Unrealised profits** represent gains or losses arising from the revaluation of financial assets (including FVTPL and other financial assets) and related deferred tax (if any).

Unrealised profits are not available for distribution to owners.

Profit distribution is carried out in accordance with applicable regulations and the resolutions of the General Meeting of Shareholders.

3.13 Revenue and income

Service revenue

Revenue from services is recognised when the outcome of the transaction can be measured reliably.

Where services are rendered over multiple accounting periods, revenue is recognised by reference to the stage of completion at the end of the reporting period.

The outcome of a service transaction can be reliably measured when all of the following conditions are met:

- The amount of revenue can be measured reliably;
- It is probable that economic benefits will flow to the Company;
- The stage of completion at the reporting date can be measured reliably;
- The costs incurred and costs to complete the transaction can be measured reliably.

Income from securities trading activities

Income from securities trading activities includes:

- Gains from disposal of FVTPL financial assets: representing the difference between selling price and carrying amount of the financial assets sold;
- Fair value gains or losses on FVTPL financial assets: representing changes in fair value at the end of the reporting period (unrealised gains or losses);
- Income from financial assets: including interest income from loans, dividends, profit distributions, bond interest and interest from deposits.

3.14 Finance income and finance costs

Finance income

Finance income represents income arising from the Company's treasury and financial management activities and excludes income from securities trading activities presented in Note 3.13.

Finance income includes:

- Interest income from bank deposits (primarily from surplus funds);
- Foreign exchange gains (if any);
- Other finance income not directly related to the Company's core securities business.

Finance costs

Finance costs comprise expenses arising from the Company's financial activities, including:

- Interest expense;
- Foreign exchange losses (if any);
- Other finance-related expenses not directly attributable to the Company's core securities business.

3.15 Operating expenses and administrative expenses

Expenses are recognised in the statement of profit or loss in the accounting period when it is probable that an outflow of future economic benefits will occur and the amount can be measured reliably, regardless of the timing of cash payments.

3.16 Taxation

a) Deferred income tax

Deferred income tax is determined using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases.

Deferred income tax liabilities are recognised for taxable temporary differences.

Deferred income tax assets are recognised for deductible temporary differences, unused tax losses and tax credits to the extent that it is probable that future taxable profits will be available.

Deferred income tax is measured using tax rates that have been enacted or substantively enacted at the end of the reporting period.

Deferred income tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available.

b) Corporate income tax expense

Current income tax expense is determined based on taxable income for the period and the applicable corporate income tax rate.

Deferred income tax expense is determined based on movements in temporary differences during the period.

Income tax expense is recognised in profit or loss, except where it relates to items recognised directly in equity.

c) Corporate income tax rate: The Company applies a corporate income tax rate of 20%.

3.17 Earnings per share

Basic earnings per share is determined by dividing the profit or loss after tax attributable to ordinary shareholders of the Company (after appropriation to bonus and welfare funds, if any) by the weighted average number of ordinary shares outstanding during the period

3.18 Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
- Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.

In considering the relationship of related parties to serve for the preparation and presentation of Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.
