NOTES TO THE FINANCIAL STATEMENTS

For the financial statement period ending as at March 31, 2026

These notes are an integral part of and should be read in conjunction with the Financial Statements period ending as at March 31, 2026.

I. NATURE OF OPERATION

1. Form of ownership

Gia Lai Coffee Joint Stock Company (hereinafter referred to as “the Company”) is a joint stock company equitized under Decision No. 142/QĐ-UBND dated April 9, 2018 of the People's Committee of Gia Lai province from Gia Lai Coffee One Member Co., Ltd. The Company is an independent accounting unit, operating in production and business under the Business Registration Certificate No. 5900189678 dated September 13, 2018 issued by the Department of Planning and Investment of Gia Lai province, the Enterprise Law, the Company Charter and other relevant current legal regulations.

2. Principal scope of business

The Company's principal scope of business are trade and agricultural production.

3. Principal activities

The Company's principal activities are:

- Buying and selling agricultural products for export (except rubber latex);
- Trading in fertilizers used in agriculture;
- Growing coffee trees;
- Roasting and filtering coffee, producing coffee products;
- Importing and exporting all kinds of seedlings, seeds, and various agricultural products.

4. Normal production and business cycle

The Company's normal production and business cycle is not more than 12 months.

5. The Company's operations during the period that affect the financial statements

Since September 13, 2018, the Company has officially operated under a Joint Stock Company model with a new legal entity, Gia Lai Coffee Joint Stock Company. However, up to now, the Company has not yet finalized and officially transferred assets and capital from the One Member Limited Liability Company to the Joint Stock Company.

This year's coffee output was less than last year, causing sales revenue to decrease. Unfavorable weather, storms damaged the entire banana garden invested in the last crop, leading to increased other costs. At the same time, the Company increased loans for production and business purposes, causing interest expenses to increase. These factors caused pre-tax accounting profit this year to decrease sharply compared to last year.

GIA LAI COFFEE JOINT STOCK COMPANY

97 Pham Van Dong/Yet Kieu Street, Thong Nhat Ward, Gia Lai Province

FINANCIAL STATEMENTS

As at March 31, 2026

Notes to the Financial Statements (cont'd)

- Finished product: including material cost, direct labor and related overheads are amortized based on normal operating level/land use right cost, direct costs and related general costs incurred in the investment in the construction of finished real estate products.
- Work-in-progress is the costs of main raw materials.

Net realizable values is the estimated selling price of inventory in normal operating cycle except for the estimated costs to complete and necessary to consume them.

The value of inventories are recognized at the weighted average method and recorded at the perpetual method.

Allowance for decline in inventory is made for each item based on their costs is higher than their net realizable values. For services provided in progress, the provision for impairment is calculated for each of service which has a separate price. Increase/Decrease in the balance of provision for devaluation of inventory must be made as at the end of the accounting period and are recognized in the cost of goods sold.

5. Prepaid expenses

Prepaid expenses include short-term prepaid expenses or long-term prepaid expenses on the balance sheet and are amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Prepaid expenses are expenditures that have been incurred but related to the operations of many accounting periods. The Company's primary prepayments are as follows:

Tools and instruments

Tools and instruments are allocated using the straight-line method for a period of no more than 36 months.

Business advantage

Business advantage arising after equitization is allocated to expenses using the straight-line method over a 10-year allocation period.

6. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The cost of tangible fixed assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready for use state. The costs incurred after the initial recognition of tangible fixed assets shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of these assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

When tangible fixed assets are sold or liquidated, their cost and accumulated depreciation are written off, and arisen gain/loss are recorded into the income or the expenses in the period.

Depreciation is computed at the straight-line basis over their original and estimated useful time in conformity with Circular No. 45/2013/TT-BTC dated 25th April 2013 by the Ministry of Finance. Details as follows:

Intangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible fixed assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready for use state. The costs related to intangible fixed assets arising after initial recognition are recognized as production and business expenses in the year unless these costs are associated with a specific intangible fixed asset and increase economic benefits from these assets.

When intangible fixed assets are sold or liquidated, their cost and accumulated depreciation are written off, and arisen gain/loss are recorded into the income or the expenses in the period.

The Company's intangible fixed assets are the Land Use Rights with a term and in perpetuity. The Land Use Rights are all actual expenses the Company has incurred that are directly related to the land used, including: money spent to obtain the land use rights, costs for compensation, site clearance, site leveling, registration fees, etc.

8. Construction in progress

Construction expenses in progress reflects the cost directly attributing (including relevant interest expense suitable with the accounting policies of the Company) to the assets currently in the process of building, machinery and equipment are installed to serve the purpose of manufacturing, leasing and management, as well as costs related to the repair of fixed assets are performing. These assets are recorded at cost and are not amortized.

9. Liabilities and accruals

Liabilities and accruals are recognized for payable amounts in the future related to the received goods and services. Accruals are recognized based on the reasonable estimates of the payable amounts.

Payables are classified as trade payables, accruals and other payables comply with the following principles:

- Trade payables reflect the commercial elements arising from purchasing transactions of goods, services, assets and the seller is an independent entity, include payables from import by a trustee.
- Accruals reflect the payables to the received goods and services from seller or provided to buyer but not yet paid due to do not have invoice or insufficient accounting records and vouchers and payable to employees on sabbatical salary, operating costs must be accrued.
- Other payables reflect the non-commercial elements, unrelated to selling - purchasing transactions, rendering of services.

10. Owner's equity***The owner's contributed capital***

The owner's contributed capital reflects the amount of capital actually contributed by the shareholders.

Share premium

Share premium is recognized as the difference between the issuance price and the par value of the shares when they are first issued. Direct costs related to the issuance of additional shares and the reissuance of treasury shares are deducted from the share premium.

The owner's other funds

The owner's other funds are formed by supplementing from the results of business operations, asset revaluation and the remaining value between the fair value of donated assets after subtracting payable tax (if any) related to these assets.

11. Profit distribution

Profits after corporate income taxes is distributed to the shareholders after building funds in accordance with the approval of the annual General Meeting of Shareholders.

The profit distribution is considered non-cash items included in undistributed earnings that may affect cash flows and ability to pay as interest due to revaluation of assets contributed as capital; revaluation of monetary items; revaluation of financial instruments and other non-monetary items.

Dividends are record as payables at the time of approval of the shareholders' meeting.

12. Recognition of revenue and income

Revenue is recognized when it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, after deducting trade discounts, sales returns, and allowances for goods sold.

Revenue from sales of green coffee and passion fruit

The revenue of sales of goods and finished products are recognized when satisfying all the following conditions:

- Enterprises have transferred most of risks and benefits associated with ownership of products, goods to the buyer.
- Enterprises no longer hold the right to manage goods as owners or the right to control goods.
- Revenue is determined with relative certainty. When the contract stipulates that the buyer has the right to return the purchased products or goods under specific conditions, revenue is only recognized when those specific conditions no longer exist and the buyer is not entitled to return the products or goods (except in cases where the customer has the right to return the goods in exchange for other goods or services).
- Revenue is determined with relative certainty.
- Enterprises have received or will receive economic benefits from the sale transaction.
- Costs related to sale transactions may be determined.

Interest

Interest is recognized on an accrual basis, and determined on balance of savings accounts and the actual interest rates for each period.

FINANCIAL STATEMENTS

Notes to the Financial Statements (cont'd)

VIII. OTHER INFORMATION**1. Inherent liabilities**

Pursuant to Tax Notice No. 5556/TB-CTGLA-KDT dated July 8, 2024 of the Gia Lai Provincial Tax Department. Accordingly, the total land rent and late payment penalties of previous years are as follows:

	Land rent	Late payment	Total
State-owned enterprise period	7,754,365,354	4,096,906,487	11,851,271,841
Joint Stock Company period	395,826,473	135,444,900	531,271,372
Total	8,150,191,827	4,232,351,387	12,382,543,213

The reasons for this amount not being reflected in the financial statements of previous years are as follows:

- a. State-owned enterprise period: is the land rent arising from the State-owned enterprise period, not included in the equitization plan, not included in the enterprise valuation dossier and still stuck in the handover procedure between the State-owned enterprise and the Joint Stock Company, so it has not been reflected in the Business Results Report in the corresponding period.
- b. Joint Stock Company period: The difference is due to the Tax Department calculating the land rent on the entire land area that the Joint Stock Company has handed over to the locality for management. Regarding this issue, the company has sent a document to the Provincial People's Committee and relevant departments/sectors of the province to agree on the official figures.

2. Transactions and balances with related parties

Related parties include: key management members, individuals relating with key management members and other related parties.

a. Transactions and balances with key management members and individuals relating with key management members

Key management members include: members of the Board of Directors and the Supervisory Board. Individuals relating with key management members are intimate family members with key management members.

FINANCIAL STATEMENTS

As at March 31, 2026

Notes to the Financial Statements

4. Corresponding figures

The comparative figures is taken from the financial statements for the period ending March 31, 2025 are prepared by the company itself.

5. The Company's ability to continue as a going concern

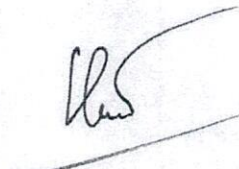

The Company's financial statements are prepared on the assumption that the Company will continue to operate as a going concern. As at 31/03/2026, the accumulated loss was VND (141,861,681,721), and the Company's short-term debt also exceeded its short-term assets by VND 80,503,673,888. Accordingly, the Company's ability to continue operating depends on future profitable operations and/or financial support from shareholders to ensure that the Company has sufficient resources to continue operating normally in the following years.

These financial statements do not include any adjustments relating to the recoverability and reclassification of recognized assets or relating to the amount or reclassification of liabilities, which would be necessary in the event that the Company is unable to continue as a going concern.

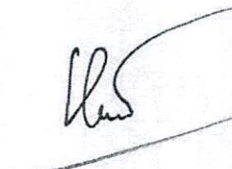

6. Subsequent events

There have been no significant events occurring after the balance sheet date which would require adjustments or disclosures to be made in the financial statements.
