Voting ballot clearly state the delegate's code, full name, number of shares owned, and authorized voting rights of that delegate.

- The voting method for matters at the 2026 Annual General Meeting of Shareholders is as follows:
 - Voting by raising the Voting card: this method is used to approve matters such as: Meeting Agenda; Working Regulations at the Meeting; approval of Meeting Minutes, Meeting Resolutions, and other contents at the Meeting (if any);

- When voting by raising the Voting card, the front of the Voting card must be raised towards the Presidium. If a delegate does not raise the Voting card during all three times of voting for agreement, disagreement, or abstention on a matter, it shall be considered as voting in favor of that matter. If a delegate raises the Voting card more than one (01) time when voting for agreement, disagreement, or abstention on a matter, it shall be considered an invalid vote. For the voting method by raising the Voting card, the Vote Counting Committee member marks the delegate code and the corresponding voting card number of each shareholder as Agree, Disagree, Abstain, and Invalid.
- When voting by filling out the Voting ballot, for each content, the delegate selects one of the three options "Agree", "Disagree", "Abstain" printed on the Voting ballot by marking "X" or "" in the chosen box. - On the voting ballot, a voting item (report, proposal) is considered valid when the delegate marks one (01) of the three (03) voting checkboxes. A voting item is considered invalid if it does not comply with the requirements for a valid voting item.

Based on the 2025 AGMS Resolution, the Board of Supervisors has supervised the implementation of production, business, investment, profit distribution, and dividend payment targets of the Corporation.

*** Regarding production and business results:**

In 2025, the garment industry recovered positively due to the rebound in global demand and improved order volumes. However, it faced many challenges, such as: export products facing international competitive pressure on prices and delivery times; domestic purchasing power declining due to economic impacts; dependence on imported raw materials and rising production costs (wages, logistics, etc.); increasing pressure to comply with international standards; and risks from geopolitical tensions at the end of the year.

With the close direction of the Board of Directors, the proactive, decisive, and flexible management of the Executive Board, and the united efforts of all employees, the Corporation has completed the targets set by the General Meeting of Shareholders, specifically as follows:

No.	Key indicators	Unit	2024	2025		Comparison ratio

3	Dividend	%	30%	30%	30%	100.0%	100.0%

- Revenue reached VND 10,503.9 billion = 107.2% of the Resolution, an increase of 7.7% compared to 2024.

- Profit before tax reached VND 330.6 billion = 100% of the Resolution, an increase of 8.9% compared to 2024.
- After making appropriations for funds as prescribed, the Board of Directors submitted a profit distribution plan to the AGMS, in which cash dividends were set at a rate of 30% of charter capital = 100% of the Resolution.

*** Regarding investment:**

The total investment value during the year was VND 43.62 billion = 87.2% of the plan (VND 50 billion). Investment items were implemented according to the plan and within the approved authority.

*** Regarding profit distribution and dividend payment:**

The Corporation has distributed profits and made appropriations for funds (including: Development Investment Fund, Reward and Welfare Fund, Business Performance Reward Fund) in accordance with regulations; completed the payment of 2024 cash dividends at a rate of 30% of par value (i.e., VND 3,000/share), ensuring the correct recipients and deadlines.
