NO VA LAND INVESTMENT GROUP CORPORATION

STATEMENT BY THE BOARD OF MANAGEMENT

STATEMENT OF THE RESPONSIBILITY OF THE BOARD OF MANAGEMENT OF THE COMPANY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Management of No Va Land Investment Group Corporation ("the Company") is responsible for preparing consolidated financial statements which give a true and fair view of the financial position of the Company and its subsidiaries (together, "the Group") as at 31 March 2026 and of the results of its operations and its cash flows for the period then ended. In preparing for these consolidated financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the consolidated financial statements on a going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Group and which enable consolidated financial statements to be prepared which comply with the basis of accounting set out in Note 2 to the consolidated financial statements. The Board of Management is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and error.

The Legal representative has authorised the authorised party of the Company to approve and sign the consolidated financial statements for the period ended 31 March 2026 as per Power of Attorney No. 38/2025-UQ-NVLG dated 1 October 2025.

APPROVAL OF THE CONSOLIDATED FINANCIAL STATEMENTS

We hereby approve the accompanying consolidated financial statements as set out on pages 3 to 84 which give a true and fair view of the financial position of the Group as at 31 March 2026 and of the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements.

As of the date of these financial statements, the Company has completed the transfer.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements. The consolidated financial statements have been prepared under the historical cost convention except for investments in associates and joint ventures, and business combinations as presented in Note 2.4.

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilized in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

The consolidated financial statements in Vietnamese language are the official statutory financial statements of the Company. The consolidated financial statements in English language have been translated from the Vietnamese language financial statements.

2.2 Fiscal year

The Group's fiscal year is from 1 January to 31 December.

2.3 Currency

The consolidated financial statements are measured and presented in Vietnamese Dong ("VND" or "Dong"). The Company and its subsidiaries determine their accounting currencies based on the currencies which are mainly used in sales of goods and rendering of services, which have a significant impact on selling prices of goods and services, which are normally used to list selling prices and receive payments; which are mainly used in purchases of goods or services, which have a significant impact on costs of labor, materials and other production or operating costs and normally used as payments for those costs.

Additionally, the Group also use these currencies to raise financial resources (such as via issuance of shares or bonds) and regularly collect these currencies from business operations and savings.

Foreign currency transactions are recorded initially at the exchange rate prevailing at the date of the transaction. The actual exchange rate at the transaction date is the average transfer buying and selling rate quoted by the commercial bank where the Company regularly conducts transactions. Foreign exchange differences arising from these transactions are recognized in the consolidated income statement.

Monetary assets and liabilities denominated in foreign currencies at the consolidated statement of financial position date are respectively translated at the average transfer buying and selling exchange rates at the consolidated statement of financial position date of the bank where the Group regularly trades. Foreign currencies deposited in bank at the consolidated statement of financial position date are translated at the average transfer buying exchange rate of the bank where the Group holds the foreign currency accounts. Foreign exchange differences arising from these translations are recognized in the consolidated income statement.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.4 Basis of consolidation*****Subsidiaries***

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies in order to gain future benefits from their activities generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated income statement.

Inter-company transactions, balances and unrealized gains and losses on transactions between group companies are eliminated.

In a multi-phase acquisition, when determining goodwill or bargain purchase, the consideration is the sum of the total consideration on the date of acquiring control and previous considerations remeasured to fair value on the date of control acquisition.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The financial statements of the Group's subsidiaries are prepared for the same accounting period. If there are differences in end dates, the gap must not exceed 3 months. Adjustments are made to reflect impacts of significant transactions and events occurring between the end dates of the subsidiaries' accounting period and that of the Group's. The length of the reporting period and differences in reporting date must be consistent between periods.

Non-controlling transactions and interests

The Group applies a policy for transactions with non-controlling interests as transactions with external parties to the Group.

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

The divestment of the Group's interest in a subsidiary that does not result in loss of control is accounted for as a transaction with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received from divestment of the Group's interest in subsidiaries is recorded directly in the undistributed earnings under equity.

In a divestment of the Group's interest in a subsidiary that results in a loss of control, the difference between the Group's share in the net assets of the subsidiary and the net proceeds from the divestment is recognised in the consolidated interim income statement. The retained interest in the entity will be accounted for as either an investment in other entity or investment to be equity accounted for since the divestment date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.4 Basis of consolidation (continued)*****Joint ventures and associates***

- Joint ventures are contractual arrangements whereby two or more parties undertake an economic activity which is subject to joint control.

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in joint ventures and associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investment in joint ventures and associates includes goodwill identified on acquisition, net of any accumulated impairment loss.

The Group's share of its joint ventures' and associates' post-acquisition profits or losses is recognized in the consolidated income statement, and its share of post-acquisition movements in reserves is recognized in consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in a joint venture or associate equals or exceeds its interest in the joint venture or associate, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the joint venture or associate.

Accounting policies of joint ventures and associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Unrealized gains and losses on transactions between the Group and its joint ventures and associates are eliminated to the extent of the Group's interest in the joint ventures and associates. Accounting policies of joint ventures and associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.5 Goodwill

Goodwill represents on the consolidated financial statements is initially measured at cost being the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary/ associate at the date of acquisition. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortization. Goodwill on acquisitions of subsidiaries is recognised as an asset and is amortised on the straight-line basis over its estimated period of benefit but not exceed 10 years.

Goodwill on acquisitions of investments in joint ventures and associates is included in the carrying amount of the investments at the date of acquisition. The Group does not amortise this goodwill.

On disposal of subsidiaries or associates, the attributable amount of unamortized goodwill is included in the determination of the profit or loss on the disposal.

Goodwill is tested annually for impairment and carried at cost less accumulated amortization less accumulated impairment losses. If there is evidence that the impairment during the year is higher than the annual goodwill charge, the Group records the impairment immediately in the accounting period.

2.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, cash in transit, demand deposits and other short-term investments with an original maturity of three months or less.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.7 Receivables**

Receivables represent trade receivables from customers arising from sales of goods and rendering of services or non-trade receivables from others and are stated at cost. Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the expected loss that may arise. Bad debts are written off when identified.

Receivables are classified into long-term and short-term receivables on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

2.8 Inventories

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation are recognized as inventories. Inventories are stated at the lower of cost and net realizable value. The cost of inventories includes cost of land and construction costs of infrastructure and apartments, direct expenditures and other overhead expenses incurred in bringing the inventories to their present location and condition. Net realizable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution. Provision is made, where necessary, for obsolete, slow-moving, defective inventory items and where cost is higher than net realizable values.

Other inventories mainly include raw materials and tools. The cost of other inventories is determined on a weighted average basis and consists of the purchasing cost, processing cost and other directly-related costs incurred for having the inventories stored in the present place and conditions. In the case of manufactured products, the cost includes all direct costs and manufacturing overheads based on normal production conditions.

The Group applies the perpetual inventory system to account for inventories.

Provision is made, when necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this period and the provision of the previous period is recognised as an increase or decrease of cost of goods sold in the period.

2.9 Investments**(a) Investments held-to-maturity**

Investments held-to-maturity are investments which the Group's Board of Management has positive intention and ability to hold until maturity.

Investments held-to-maturity include term deposits, bonds, preference shares which the issuer is required to buy back at certain time in the future and other investments held to maturity. Those investments are initially accounted for at cost. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

Provision for diminution in value of investments held to maturity is made when there is evidence that the investment is uncollectible in whole or in part. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Investments held to maturity are classified into short-term and long-term investments held to maturity on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the remaining maturity date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.9 Investments (Continued)****(b) Investments in joint ventures and associates**

Investments in joint ventures and associates are accounted using the equity method when preparing the consolidated financial statements (Note 2.4).

(c) Investments in equity of other entities

Investments in other entities are investments in equity instruments of other entities without controlling rights or co-controlling rights, or without significant influence over investee. These investments are initially recorded at cost. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

Provision for investments in other entities is made when there is a diminution in value of the investments at the year end. Regarding investments in listed shares or the investments whose fair value can be determined reliably, the provision for diminution in value is made when the cost is higher than the market value. For other investments, provision for diminution in value is made when the entities make losses, except when the loss was anticipated by the Board of Management before date of investment. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

2.10 Others short term investments

Investments in business cooperation contracts in which the entity does not have joint control but is entitled to returns based on the profit after tax of the contracts, with a remaining maturity of not exceeding 12 months as at the end of the reporting period.

2.11 Business cooperation contract

A business cooperation contract ("BCC") is a cooperation contract between the Group and other parties to carry out specific business activities without establishing a new legal entity. These activities may be jointly or not jointly controlled by the contributing parties, or controlled by one of the parties to the contract.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.12 Fixed assets***Tangible fixed assets and intangible fixed assets*

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes any expenditure that is directly attributable to the acquisition of the fixed assets bringing them to a suitable conditions for their intended use. Expenditure incurred subsequently which has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, they are charged to the consolidated income statement when incurred.

Depreciation/amortization

Fixed assets are depreciated/amortized using the straight-line method so as to write off the cost of the assets over their estimated useful lives. The estimated useful lives of the assets are as follows:

Buildings	5 - 50 years
Machinery	3 - 10 years
Motor vehicles	2 - 10 years
Office equipment	2 - 8 years
Software	2 - 10 years
Trade mark	3 years
Others	3 - 4 years

Land use rights with indefinite useful life are recorded at historical cost and are not amortized.

Disposals

Gains and losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are recognized as income or expense in the income statement.

Construction in progress

Construction in progress represents the cost of assets in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, including all costs needed to build or repair, renovate, expand or retrofit the engineering of the facility, such as construction costs; equipment costs; compensation, assistance and resettlement expenses; project management expenditures; construction consulting expenditures; and capitalised borrowing costs for qualifying assets in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other fixed assets, commences when the assets are ready for their intended use.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.13 Leased assets**

Leases of property, plant and equipment where the lessor has transferred the ownership at the end of the lease period, and transferred substantially the risks and rewards, are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of leased property or the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charge, are included in long-term borrowings. The interest element of the finance cost is charged to the consolidated income statement over the lease period. The property, plant and equipment acquired under finance leasing contracts are depreciated over the shorter of the estimated useful life of the assets or the lease term. However, if there is reasonable certainty that the lessee will obtain ownership by the end of the lease term, depreciation is calculated over the estimated useful life of the assets.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated income statement on a straight-line basis over the period of the lease.

2.14 Investment properties

The historical cost of an investment property represents the amount of cash or cash equivalents paid or the fair value of other consideration given to acquire the investment property at the time of its acquisition or completion of construction. Expenditure incurred subsequently which has resulted in an increase in the expected future economic benefits from the use of investment properties can be capitalised as an additional historical cost. Otherwise, they are charged to the consolidated income statement when incurred.

Depreciation

Investment properties for leasing are depreciated on the straight-line method to write off the cost of the assets over their estimated useful lives. The estimated useful lives of the investment properties are as follows:

Buildings

6 - 50 years

Land use rights with indefinite useful life are recorded at historical cost and are not amortized.

The Group does not depreciate the investment properties held for price appreciation. A reduction in value of investment properties held for price appreciation is recognised when there is objective evidence of the reduction in the value of investment properties compared to the market price and an allowance can be estimated reliably. Changes in the impairment balance during the accounting period are recorded as an increase or decrease in cost of goods sold and services rendered. A reversal, if any, is made only to the extent the investment properties is restored to its original cost.

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the net book value and are recognized as income or expense in the income statement.

2.15 Deferred expenses

Deferred expenses include short-term and long-term deferred expenses on the consolidated balance sheet and are mainly sales commissions, interest expense from issuing bonds, and tools and equipment already put to use. Deferred expenses are recorded at historical cost and allocated to expenses using the straight line method over the allocation period, except for selling expenses which are allocated to expenses on the basis of matching with revenue recorded when the Group has handed over significant risks and rewards of ownership to the buyers.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.16 Payables**

Classifications of payables are based on their nature as follows:

- Trade accounts payable are trade payables arising from purchase of goods and services;.
- Other payables are non-trade payables, and payables not relating to purchases of goods and services.

Payables are classified into short-term and long-term payables on the balance sheet based on remaining period from the balance sheet date to the maturity date.

2.17 Accrued expenses

Accrued expenses include liabilities for goods and services received in the period but not yet paid for due to pending invoice or sufficient records and documents. Accrued expenses are recorded as an expense in the reporting period.

2.18 Borrowings

Borrowings include borrowings from banks, financial institutions, financial companies and other entities.

Borrowings are classified into short-term and long-term based on remaining period from the balance sheet date to the maturity date.

Borrowing costs that are directly attributable to the construction or production of any qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use. In respect of general-purpose borrowings, a portion of which used for the purpose of construction or production of any qualifying assets, the Group determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the weighted average expenditure on that assets. The capitalisation rate is the weighted average of the interest rates applicable to the Group's borrowings that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. Other borrowing costs are recognised in the consolidated income statement when incurred.

2.19 Provisions

Provisions are recognized when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provision is not recognized for future operating losses.

Provisions are measured at the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as a financial expense. Changes in the provision balance during the accounting period are recorded as an increase or decrease in operating expenses.

Provisions for warranty expenses for real estate held for sale: The Group estimates warranty provision expenses based on sales and existing information on warranty costs of properties sold in the past.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.20 Provision for severance allowances**

In accordance with Vietnamese labour laws, employees of the Group who have worked regularly for full 12 months or longer, are entitled to a severance allowance. The working period used for the calculation of severance allowance is the period during which the employee actually works for the Group less the period during which the employee participates the unemployment insurance scheme in accordance with the labour regulations and the working period for which the employee has received severance allowance from the Group.

The severance allowance is accrued at the end of the reporting period, on the basis that a half of an average monthly salary per each working year. The average monthly salary used for calculating the severance allowance is the employee's average salary for the six-month period prior to the balance sheet date.

This allowance will be paid as a lump sum when the employees terminate their labour contracts in according with current regulations.

2.21 Unearned revenue

Unearned revenue mainly comprises the amounts that customers have paid in advance for one or many accounting periods leased. The Group records unearned revenue for the future obligations that the Group has to fulfill. Once recognition criteria have been satisfied, unearned revenue will be recognised as revenue in the income statement to the extent that it has met the recognition criteria.

2.22 Convertible bonds

Convertible bonds are bonds that may be converted into ordinary shares of the same issuer under the conditions identified in the bond issuance plan.

At initial recognition, the Group calculates and determines separately the value of the debt component and equity component of convertible bonds using the effective interest rate method. The debt component of convertible bonds is recorded as a liability; equity component (share options) of convertible bonds is recorded as an owners' equity item. Subsequently, the Group regularly records bond interest using the effective interest rate. The costs of issuing convertible bonds are deducted to the bond's liability component and allocated to financial expenses/capitalised on straight line basis.

At maturity, the equity component which is a share option is transferred to the share premium account regardless whether the bond holder exercised the option or not.

2.23 Owners' capital

Contributed capital of the shareholders is recorded according to actual amount contributed and are recorded according to par value of the share.

Share premium is the difference between the par value and the issue price of shares and the difference between the repurchase price and re-issuing price of treasury shares.

Share conversion options on bonds is the value of the equity component of the convertible bonds at the reporting date. The value is defined as the difference between the total sums received from the issuance of convertible bonds and the value of the debt component of convertible bonds. At initial recognition, the value of share conversion options on bonds is recorded separately in owners' capital. At the bond maturity, this option is transferred to share premium.

Undistributed earnings record the Group's results (profit, loss) after business income tax at the reporting date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.24 Appropriation of profit**

Dividend of the Company is recognised as a liability in the Group's consolidated financial statements in the period in which the dividends are approved by the Company's Annual General Meeting of shareholders.

Net profit after income tax could be distributed to owners/ shareholders after approval at General Meeting, and after appropriation to other funds in accordance with the Group's charter and Vietnamese regulations.

The bonus and welfare fund is appropriated from the Group's net profit as proposed by the Board of Directors and subject to the shareholders' approval at the Annual General Meeting. This fund is presented as a liability on the consolidated interim balance sheet. This fund is set aside for rewarding, increasing general benefits and improving the welfare for officers and employees.

2.25 Revenue recognition**(a) Revenue from sale of real estate**

Revenue from real estate sale is recognised in the consolidated income statement when all five (5) following conditions are satisfied:

- The real estate has been completed, and the Group has transferred to the buyer the significant risks and rewards of ownership of the real estate;
- The Group no longer holds the right to manage the real estate as real estate's owners or the right to control the real estate;
- The amount of revenue can be measured reliably;
- The Group has received or enables to receive economic benefits from the sales of the real estate; and
- The costs incurred or to be incurred in respect of the real estate can be measured reliably.

(b) Revenue from rendering of services

Revenue from rendering of services is recognised in the consolidated income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from the sale of services is only recognised when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group;
- The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

(c) Interest income

Interest income is recognized on an earned basis.

(d) Dividend income

Income from dividend is recognized when the Group has established the receiving right from investees.

2.26 Sales deductions

Sales deductions include trade discounts, sales returns and allowances. Sales deductions incurred in the same period of the related sales of products, goods and services are recorded as deduction of revenue of that period.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.26 Sales deductions (continued)**

Sales deductions for products, goods or services which are sold in the period but are incurred after the balance sheet date but before the issuance of the consolidated financial statements are recorded as deduction of revenue of the period.

2.27 Cost of goods sold and services rendered

Cost of goods sold and services rendered are cost of finished goods, merchandises, materials sold and cost of services rendered during the period, and recorded on the basis of matching with revenue and on prudent concept.

2.28 Financial expenses

Finance expenses are expenses incurred in the period for financial activities including interest expenses, expenses of borrowing and bond issuance, losses incurred when selling foreign currencies, losses from foreign exchange differences, cost related to repurchase conversion loan and payment discounts.

2.29 Selling expenses

Selling expenses represent expenses that are incurred in process of selling products, goods, providing services, which mainly include publicity, display, promotions, advertising expenses, and sale commissions.

2.30 General and administration expenses

General and administration expenses represent expenses for administrative purposes which mainly include salary expenses of administrative staffs (salaries, wages, allowances,...); social insurance; medical insurance; labour union fees; unemployment insurance of administrative staff; expenses of office materials; tools and supplies; depreciation of fixed assets used for administration; provision for bad debts; outside services and other cash expenses.

2.31 Current and deferred income tax

Income taxes include all income taxes which are based on taxable profits including profits generated from production and trading activities in other countries with which the Socialist Republic of Vietnam has not signed any double taxation agreement. Income tax expense comprises current tax expense and deferred tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current year taxable profits and at the current year tax rates. Current and deferred tax should be recognized as an income or an expense and included in the profit or loss of the period, except to the extent that the tax arises from a transaction or event which is recognized, in the same or a different period, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the financial year when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**2.32 Related parties**

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Group, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Group. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the enterprise, key management personnel, including the Board of Management of the Group and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering of related party relationship, the Group considers the substance of the relationship not merely the legal form.

2.33 Segment reporting

A segment is a component which can be separated by the Group engaged in providing products or services (business segment), or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from those of other segments. A reportable segment is the Group's business segment or the Group's geographical segment.

Segment reporting is prepared and presented in accordance with accounting policies applied to the preparation and presentation of the Group's consolidated financial statements in order to help users of consolidated financial statements understand and evaluate the Group's operations in a comprehensive way.

2.34 Accounting estimates

The preparation of the consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the accounting period. Although accounting estimates are prepared using all the knowledge of the Board of Directors, the actual amount incurred may differ from the estimates.

The areas involving significant estimates and assumptions are as follows:

- Fair value of net asset at acquisition date in business combination;
- Accrued expenses.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

3 RESTATEMENT OF PRIOR YEAR CONSOLIDATED FINANCIAL STATEMENT

From 1 January 2026, the Group has adopted Circular No. 99/2025/TT-BTC issued by the Ministry of Finance. The adoption of this Circular does not result in any changes to the Group's existing accounting policies and does not have a material impact on the amounts presented in the consolidated financial statements. Certain line items in the comparative consolidated financial statements have been reclassified and restated to conform with the requirements of Circular No. 99/2025/TT-BTC. Such restatement does not affect total assets, total liabilities, or equity ("Restated").

20 TAXES AND OTHER (RECEIVABLES FROM)/ PAYABLES TO THE STATE (continued)

- (*) The balances included the obligations related to the land lease payable, the land use tax payable and the late payable to the State of the land plot at 30.106 hectares belonging to the Nam Rach Chiec residential area project, An Phu Ward, District 2 (currently known as Binh Trung Ward), Ho Chi Minh City ("Lakeview City Project").

In 2024, according to the Decision No. 4777/QĐ-UBND issued by the People's Committee of Ho Chi Minh City ("Decision No. 4777") determining the Group's financial obligations for Lakeview City Project at the time of April 2017 (the time when the People's Committee of Ho Chi Minh City approved the Decision No. 1812/QĐ-UBND dated 18 April 2017 ("Decision No. 1812") allowing the Group to use the aforementioned land area), the Information Transfer Form No. 113/PC-STNMT-QLĐ issued by the Department of Agriculture and Environment on 6 January 2021 ("Information Transfer Form No. 113") and the Notification No. 268/TB-CTTPHCM, the Notification No. 269/TB-CTTPHCM and the Notification No. 270/TB-CTTPHCM ("The Payment Notifications") issued by the Tax Department of Ho Chi Minh City on 8 January 2021, the Group has accrued the obligations related to the land lease payable, the land use tax payable amounting to VND6,707,482,810,333 (including the late payment penalty amounting to VND1,581,266,537,510).

On 1 April 2025, the Government issued the Decree No. 76/2025/ND-CP guiding on the Resolution No. 170/2024/QH15 issued by the National Assembly on 30 November 2024 ("Resolution No. 170") about special mechanisms and policies to resolve difficulties and obstacles related to projects and land in the inspection and audit conclusions in Ho Chi Minh City, Da Nang City and Khanh Hoa Province. According to the Article 8 Resolution No. 170, the valuation timing for the land area exchanged with 30.224 hectares land plot in Binh Khanh Ward (currently known as An Khanh Ward) is the time when the Group completed the land recovery and compensation for the 30.224 hectares land plot in An Khanh Ward (20 November 2008) the valuation timing for the land area for which land use fees have not been paid, the time to determine the land price is the time when the competent State agency issued a decision to allocate land for the 30.106 hectares land plot in Nam Rach Chiec (18 April 2017).

On 13 November 2025, the Department of Agriculture and Environment submitted Proposal No. 11941/TTr-SNNMT-KTD ("Proposal No. 11941") to the People's Committee of Ho Chi Minh City for consideration of a specific land price plan for the 30.106 hectares land area in Nam Rach Chiec, Binh Trung Ward. According to Section II of Proposal No. 11941, the Department of Agriculture and Environment has clearly stated that the Information Transfer Form No. 113 and The Payment Notifications and related enforcement decisions of the Tax Department of Ho Chi Minh City issuing based on Information Transfer Form No. 113 are no longer appropriate. According to Section II regarding the specific land price plan for approval by the People's Committee of Ho Chi Minh City, the Department of Agriculture and Environment submitted to the Chairman of the People's Committee of Ho Chi Minh City for approval the specific land price plan as follows: The total value of land use rights in the land area for the Residential and Tourism - Culture - Entertainment Area project (30.106 hectares) in the Nam Rach Chiec residential area (90.31 hectares), An Phu Ward, District 2 (currently known as Binh Trung Ward), Ho Chi Minh City invested by The 21st Century International Development Company Limited as of November 2008 was VND 1,014,130,416,641.

Based on the Proposal No. 11941, on 29 November 2025, the People's Committee of Ho Chi Minh City issued the Decision No. 2956/QĐ-UBND approving the specific land prices and determining the land lease fee and land use tax for the Lakeview City Project, with the land price calculation time being at the time of November 2008.

On 19 December 2025, the Department of Agriculture and Environment issued the Document No. 16315/SNNMT-QLĐ sent to the Tax Department of Ho Chi Minh City to recall the Information Transfer Form No. 113 and the Department of Agriculture and Environment will send a new Information Transfer Form to the Tax Department of Ho Chi Minh City after receiving the results from the State Audit and the opinion determining the investment costs in the 30.224 hectares land area in An Khanh Ward. The Information Transfer Form No. 113 was one of the legal bases on which the Tax Department of Ho Chi Minh City previously issued The Payment Notifications and enforcement decisions.

On 29 December 2025, the Tax Department of Ho Chi Minh City issued the Official Letter No. 6836/TPHCM-QLĐ reporting to People's Committee of Ho Chi Minh City that after receiving the updated Information Transfer Form from the Department of Agriculture and Environment and the results of the State Audit, the Tax Department of Ho Chi Minh City will recalculate and issue notices for land use fee payment and process The Payment Notifications and related enforcement decisions.

29 EARNINGS PER SHARE**(a) Basic earnings per share**

Basic earnings per share is calculated by dividing the net profit attributable to shareholders after deducting the bonus and welfare funds by the weighted average number of ordinary shares outstanding during the year, excluding ordinary shares repurchased by the Group and held as treasury shares.

Details are as follows:

	For the period ended	
	31/03/2026 VND	31/12/2025 VND

29 EARNINGS PER SHARE (continued)**(b) Diluted earnings per share**

Diluted earnings per share is calculated by dividing the net profit attributable to shareholders, which already subtracted the bonus and welfare fund, by the weighted average number of ordinary shares outstanding during the year and the ordinary shares expected to be issued via conversion of other financial instruments into ordinary shares.

Details are as follows:

	For the period ended	
	31/03/2026 VND	31/12/2025 VND

39 BUSINESS INCOME TAX**(a) Deferred income tax**

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority.

Movements in deferred income tax are as follows:

	For the period ended	
	31/03/2026	31/12/2025
	VND	VND
Deferred tax assets	146,178,407,645	141,684,358,122

Deferred tax liabilities	<u>(16,092,958,943,853)</u>	<u>(14,847,593,377,742)</u>

The deferred income tax assets and liabilities mainly arise from the temporary differences relating to unrealised profits from business combination.

The Group uses tax rate of 20% in year 2026 (2025: 20%) for determining deferred tax assets and deferred tax liabilities.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

45 SEGMENT REPORTING*Business activity segments:*

As the Group's revenue and profit are mainly derived from the business activities of the real estate while other sources of revenue are not material as a whole, the Board of Management accordingly believes that the Group's real estate and supporting activities for real estate are in a sole business segment only.

Geographical segments:

The Group's activities are mainly segmented by domestic activities. The Group does not monitor its operation results, fixed assets, other non-current assets or non-cash major expenses by the geographical areas of customers.

46 EVENTS AFTER THE CONSOLIDATED BALANCE SHEET DATE

As at 24 April 2026, the Group issued Board of Directors Resolution No. 18/2026-NQ.HDQT-NVLG regarding the change of the Legal Representative, whereby the new Legal Representative is Mr. Duong Van Bac – General Director. At the time of issuing this financial statements, the Group is in the process of registering the change with the business registration authority and has not yet been issued the amended Business Registration Certificate.

The consolidated financial statements were approved by the Board of Management on 29 April 2026.
