NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

2. BASIS OF PREPARATION

2.1 *Accounting standards and system*

The consolidated financial statements of the Group expressed in Vietnam dong ("VND"), are prepared in accordance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- ▶ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- ▶ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- ▶ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- ▶ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying consolidated financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the consolidated financial position and the consolidated results of its operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 *Applied accounting documentation system*

The Group's applied accounting documentation system is the General Journal system.

2.3 *Fiscal year*

The Group's fiscal year applicable for the preparation of its consolidated financial statements starts on 1 July and ends on 30 June.

2.4 *Accounting currency*

The consolidated financial statements are prepared in VND which is also the Company's accounting currency.

2.5 *Basis of consolidation*

The consolidated financial statements for quarter III comprise the financial statements of the Company and its subsidiaries for the period from 01 January to 31 March 2026.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet, separately from the Company shareholders' equity.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, high-liquid investments with an original maturity of not more than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.2 Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Raw materials, merchandise - cost of purchase on a weighted average basis.

Finished goods and work-in-process - cost of direct materials and labour plus attributable manufacturing overheads based on the normal operating capacity on a weighted average basis.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Group, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the consolidated income statement.

3.3 Receivables

Receivables are presented in the consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expenses in the consolidated income statement.

3.4 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.5 Leased assets

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Where the Group is the lessee

Assets held under finance leases are capitalised in the consolidated balance sheet at the inception of the lease at the fair value of the leased assets or, if lower, at the net present value of the minimum lease payments. The principal amount included in future lease payments under finance leases are recorded as a liability. The interest amounts included in lease payments are charged to the consolidated income statement over the lease term to achieve a constant rate on interest on the remaining balance of the finance lease liability.

Capitalised financial leased assets are depreciated using straight-line basis over the shorter of the estimated useful lives of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Rentals under operating leases are charged to the consolidated income statement on a straight-line basis over the lease term.

Where the Group is the lessor

Assets subject to operating leases are included as the Group's fixed assets in the consolidated balance sheet. Initial direct costs incurred in negotiating an operating lease are recognised in the consolidated income statement as incurred.

Lease income is recognised in the consolidated income statement on a straight-line basis over the lease term.

3.6 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement

Land use rights

Land use right is recorded as intangible fixed asset on the consolidated balance sheet when the Company obtained the land use right certificate. The costs of a land use right comprise all directly attributable costs of bringing the land lot to the condition available for its intended use.

The advance payment for land rental, of which the land lease contracts have effectiveness prior to 2003 and Land use right certificate being issued, are recorded as intangible fixed asset according to Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 July 2013 guiding the management, use and depreciation of fixed assets ("Circular 45").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 Depreciation and amortisation

Depreciation of tangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Land use rights	50 years
Buildings and structures	5 - 50 years
Machineries and equipment	5 - 25 years
Computer software	2 - 6 years
Office equipment	3 - 10 years
Means of transportation	8 - 15 years
Other tangible fixed assets	12 - 25 years

3.8 Investment properties

Investment properties are stated at cost including transaction costs less accumulated depreciation.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Group.

Depreciation and amortisation of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	20 - 25 years
Land use rights	50 years

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the consolidated income statement in the year of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

3.9 Investments

Investment in associates

The Group's investment in its associates is accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence that is neither subsidiaries nor joint ventures. The Group generally deems they have significant influence if they have over 20% of the voting rights.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING (continued)****3.9 Investments (continued)***Investment in associates (continued)*

Under the equity method, the investment is carried in the consolidated balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associates. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and subject to annual review for impairment. The consolidated income statement reflects the share of the post-acquisition results of operation of the associates.

The share of post-acquisition profit (loss) of the associates is presented on face of the consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends received or receivable from associates reduce the carrying amount of the investment.

The financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Held-for-trading securities and investments in other entities

Held-for-trading securities and investments in other entities are stated at their acquisition costs.

Provision for investments

Provision is made for any diminution in value of the held-for-trading securities and investments in capital of other entities at the balance sheet date in accordance with the guidance under the Circular No 48/2009/TT-BTC dated 8 September 2019 by the Ministry of Finance. Increases or decreases to the provision balance are recorded as finance expense in the consolidated income statement.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as finance expense in the consolidated income statement and deducted against the value of such investments.

3.10 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the consolidated balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Deferred sugar cane crop costs and sugarcane farming cost are calculated and amortised to production costs based on the volume of sugar produced and sugarcane harvested during the period.

Prepaid land rental

The prepaid land rental represents the unamortised balance of advance payment made in accordance with the lease contract signed with farmers for a period of 44-50 years. Such prepaid rental is recognised as a long-term prepaid expense for allocation to the income statement over the remaining lease period according to Circular 45.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.11 Business combinations and goodwill**

Business combinations are accounted for using the purchase method. The cost of a business combination is measured as the fair value of assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange plus any costs directly attributable to the business combination. Identifiable assets and liabilities and contingent liabilities assumed in a business combination are measured initially at fair values at the date of business combination.

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortization. Goodwill is amortized over 10-year period on a straight-line basis [amend as appropriate]. The parent company conducts the periodical review for impairment of goodwill of investment in subsidiaries. If there are indicators of impairment loss incurred is higher than the yearly allocated amount of goodwill on the straight-line basis, the higher amount will be recorded in the consolidated income statement.

No new goodwill is recorded as for a business combination involving entities under common control, which is a business combination in which all of the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. An entity may be controlled by an individual or by a group of individuals acting together under a contractual arrangement. The difference between the acquirer's cost of investment and the acquiree's net assets is presented as a separate reserve within equity section and recognised in "Other fund's belonging to owner's equity" in the consolidated balance sheet.

Business combinations involving entities under common control are accounted for as follows:

- The assets and liabilities of the combined entities are consolidated at their carrying amounts on the date of business combination;
- No goodwill is recognised as a result of the business combination;
- The consolidated income statement reflects the results of the combined entities for the full year, irrespective of when the combination took place.

3.12 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds.

Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalised as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

3.13 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.14 Foreign currency transactions**

Transactions in currencies other than the Group's reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- ▶ Transaction resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- ▶ Transactions resulting in liabilities are recorded at the selling exchange rates of the transaction of commercial banks designated for payment; and
- ▶ Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

At the end of the year, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rate at the balance sheet dates which are determined as follow:

- ▶ Monetary assets are translated at buying exchange rate of the commercial bank where the Group conducts transactions regularly; and
- ▶ Monetary liabilities are translated at selling exchange rate of the commercial bank where the Group conducts transactions regularly.

All foreign exchange differences incurred are taken to the consolidated income statement.

Conversion of the financial statements of foreign operation

For the purpose of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operation are translated into VND using exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the year, unless exchange rates fluctuated significantly during that year, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in the "foreign exchange difference reserve" account in the equity section of the consolidated balance sheet (attributed to non-controlling interests as appropriate).

3.15 Convertible bond

Bonds that are convertible by the holder into a fixed number of ordinary shares of the entity are separated into financial liability (a contractual arrangement to deliver cash or other financial assets) and equity instrument (a call option granting the holder the right, for a specified period of time) based on the terms of the contract.

On issuance of the convertible bond, the fair value of the liability component is determined by discounting the future payment (including principal and interest) to present value at the market rate for an equivalent non-convertible bond less issuance cost.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity. The carrying amount of the conversion option is not re-measured in subsequent years.

Transaction costs are amortised during the lifetime of the bond. At initial recognition, issuance costs are deducted from the liability component of the bond.

3.16 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, re-issue or cancellation of the Group's own equity instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.17 Appropriation of net profits

Net profit after tax (excluding negative goodwill arising from a bargain purchase) is available for appropriation to shareholders after approval in the Annual General Meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

The Group maintains the following reserve funds which are appropriated from the Group's net profit as proposed by the Board of Directors and subject to approval by shareholders at the annual general meeting.

➤ *Investment and development fund*

This fund is set aside for use in the Group's expansion of its operation or of in-depth investment.

➤ *Bonus and welfare fund*

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the consolidated balance sheet.

➤ *Scientific and technological development fund*

This fund is set aside in accordance with the Decree No. 95/2014/ND-CP dated 17 October 2014 for use in the Group's scientific and technological development in Vietnam.

3.18 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit or loss after tax attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.19 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Sale of electricity

Revenue is recognized based on the actual electricity sold and transferred to the grid at the pre-agreed tariff.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.19 Revenue recognition (continued)

Rendering of services

Revenues are recognised upon completion of the services provided.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Group's entitlement as an investor to receive the dividend is established.

3.20 Future contracts

Future contract is a standardized agreement to buy or sell a particular commodity asset, or security at a predetermined price at a specified time in the future. The premium or discount resulting from the difference between the spot rate at the effective date of the contract and the future rate will be recognised immediately at the effective date of the contract as an asset if positive or a liability if the negative on the consolidated balance sheet. The difference will be recognised to the consolidated income statement when the significant risks and rewards of ownership of the goods have passed to the buyer.

3.21 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.21 Taxation (continued)***Deferred tax (continued)*

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or when the Group intends either settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.22 Related parties

Parties are considered to be related parties of the Group if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including close members of the family of any such individual.

3.23 Segment information

A segment is a component determined separately by the Group which is engaged in providing products or related services (business segment), or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments. As the Group's revenue and profit are derived mainly from production and trading sugar and sugar related by-products in Vietnam while other sources of revenue are not material as a whole, the management accordingly believed that the Group operates in a sole business segment of production and trading sugar and sugar related by-products. Geographical segment of the Group is in Vietnam only.

The fair values of the investment properties as at 31 March 2026 had not yet been formally assessed and determined. However, the Management believed that it was much higher than the property's carrying values considering that the investment properties have been almost fully rented out as at the balance sheet date.

24. LOANS AND FINANCE LEASE OBLIGATIONS (continued)

24.4.1 Convertible bonds

On 12 September 2025, the Company completed the issuance of 4,992,969 convertible bonds with a par value of VND 100,000 per bond to shareholders holding ordinary shares. The total actual proceeds (net proceeds) from the issuance amounted to VND 499,295,800,000 (the gross issuance value of VND 499,296,900,000 less a transfer fee of VND 1,100,000 automatically deducted by the Vietnam Securities Depository and Clearing Corporation upon transferring the proceeds into the issuer's escrow account).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)
for the period from 01 January to 31 March 2026

Documents issued in connection with the bond package comprise Resolution of the Extraordinary General Meeting of Shareholders for fiscal year 2024 - 2025 No. 20/2025/NQ-DHDCD dated 23 January 2025, Resolution of the Board of Directors No. 133/2025/NQ-HDQT dated 20 March 2025, Resolution of the Board of Directors No. 03/2025/NQ-HDQT dated 9 July 2025, Public Offering Registration Certificate No. 230/GCN-UBCK issued by the Chairman of the State Securities Commission on 3 July 2025, the Prospectus for the public offering of convertible bonds, Notice No. 274/2025/CV/TTCBH dated 9 July 2025 regarding the public offering, and Report No. 358/2025/BC-SBT dated 15 September 2025 on the results of the public offering.

	31 March 2026	Principal repayment term
	VND	
Issued at par value		
Convertible bonds	499,296,900,000	On 12 September 2026
Issuance fee	(1,495,701,834)	
TOTAL	497,801,198,166	

The details of convertible bonds are detailed as follows:

- Par value per bond: VND 100,000
- Bondholders: Individual investor and Institutional investors;
- Type of bonds: Unsecured convertible bonds, convertible into common shares and without warrants;
- Maturity date: 12 September 2026
- Coupon rate: 9.5% per annum;
- Interest payment frequency: Quarterly;
- Use of proceeds: Debt restructuring

At initial recognition, the number of shares that will be issued upon conversion cannot be reliably measured due to its dependence on future conversion date information. Therefore, the full value of the convertible bonds is recorded as a liability.
