REPORT OF THE BOARD OF DIRECTORS

Regarding the Results of Production and Business Activities in 2025 and the Strategic
Direction for 2026

Dear Shareholders,

The Board of Directors of Sunlight Battery Joint Stock Company respectfully submits to the General Meeting of Shareholders the report on the Company's business performance in 2025 and the business orientation for 2026 as follows:

I. ASSESSMENT OF THE IMPLEMENTATION OF THE 2025 BUSINESS PLAN

In 2025, the business operations of Sunlight Battery Joint Stock Company continued to face numerous challenges due to the slow recovery of market demand, while consumption of both industrial and consumer battery products remained below expectations. In addition, increasingly intense competition from both domestic and foreign enterprises exerted significant pressure on selling prices, market share, and business efficiency.

The implementation results of key performance indicators were as follows:

- Net revenue reached VND 196.9 billion, equivalent to 87.5% of the annual plan and 104.9% of the level achieved in 2024.
- Profit after tax reached VND 2.1 billion, equivalent to 26.2% of the annual plan and 40.2% of the level achieved in 2024.
- Average employee income reached VND 15.67 million per person per month, equivalent to 101% of the annual plan and 107.8% of the level achieved in 2024.

Although revenue continued to grow compared to the previous year, the Company did not fully achieve its planned targets. The primary reasons were the continued difficulties in the consumption market, declining customer demand in certain traditional segments, and increasing competitive pressure, which required the Company to

implement flexible sales policies in order to maintain its customer base and market share.

Regarding profitability, the result was significantly below the planned target and substantially lower than that achieved in 2024. In addition to pricing competition, during the year the Company focused on developing and expanding the market for batteries used in electric bicycles and electric motorcycles. As these product lines are still in the market penetration stage, the Company proactively adopted competitive pricing policies, prioritizing market coverage expansion, distribution network development, and brand recognition enhancement. Consequently, profit margins for these products remained relatively low and did not yet make a significant contribution to the Company's overall business performance during the year.

In response to market challenges, the Board of Directors and the Executive Management focused on implementing various measures to reduce costs, improve labor productivity, enhance product quality, and optimize manufacturing operations. At the same time, the Company maintained stable employment, fully complied with labor policies and benefits, and gradually improved employee income.

In particular, amid continued fluctuations in Hai Phong's labor market, where foreign-invested enterprises in industrial zones increased recruitment demand, resulting in a shortage of unskilled labor, the Company made significant efforts to maintain a stable working environment and improve employee income and welfare policies. As a result, average employee income in 2025 reached VND 15.67 million per person per month, representing an increase of 7.8% compared to 2024, thereby contributing to workforce stability and supporting the Company's long-term development strategy.

Overall, although the Company did not fully achieve all planned targets, it maintained stable business operations, ensured employment and income for employees, preserved its traditional customer base, and established an initial foundation for the development of new product lines in the years ahead.

II. ACTIVITIES OF THE BOARD OF DIRECTORS IN 2025

During 2025, the Board of Directors fully performed its governance functions in accordance with applicable laws, the Company's Charter, and resolutions of the General Meeting of Shareholders.

The Board convened both regular and extraordinary meetings to review and decide on matters within its authority, focusing primarily on the following:

- Directing the implementation of the 2025 business plan.
- Supervising the activities of the Executive Management.
- Reviewing investment projects and equipment and technology improvement initiatives.
- Issuing resolutions relating to corporate governance, financial management, and market development.
- Providing strategic direction for new product development and enhancement of the Company's competitiveness.

III. BUSINESS ORIENTATION, KEY TASKS AND SOLUTIONS FOR IMPLEMENTATION OF THE 2026 PLAN

To successfully achieve the business plan targets for 2026, the Board of Directors has identified the following key tasks and solutions:

1. Production and Business Operations

- Focus on implementing the production plan of 130,000 kWh of batteries of various types, ensuring adequate supply to meet market demand.
- Improve product quality, reduce defective products and warranty claims, and strengthen quality control from raw materials to finished products.
- Continue reviewing and optimizing material consumption norms, reducing production costs, minimizing material losses, and enhancing equipment utilization efficiency.
- Promote innovation and technical improvement initiatives to increase labor productivity and operational efficiency.
- Strengthen cost management, inventory management, receivables management, and cash flow management to improve business performance.
- Proactively develop contingency plans to address fluctuations in raw material prices, particularly lead, acid, and other key materials.

2. Investment and Technology Improvement

- Invest in an integrated battery testing, cap fitting and washing system to increase automation, reduce manual labor requirements, and improve productivity.

- Invest in a pole group folding machine for electric motorcycle batteries to enhance product quality and support the development of electric vehicle battery products.
- Upgrade plate formation tanks to improve plate quality, stabilize production processes, and reduce energy costs.
- Continue researching and investing in new equipment in line with automation and modernization objectives.

3. Product and Market Development

- Continue improving and developing battery products for electric bicycles and electric motorcycles, while gradually increasing output and business efficiency of these new product lines.
- Focus on enhancing the quality, reliability, and service life of MF starting batteries; reduce warranty claims and customer complaints; and strengthen confidence in the Sunlight brand among distributors and end-users.
- Continue implementing solutions to expand the market and increase nationwide coverage of electric vehicle battery products, while gradually optimizing selling prices, production costs, and sales policies in order to move the electric vehicle battery segment from market penetration to a stable growth stage, thereby improving efficiency and contributing positively to the Company's profitability.
- Launch lithium battery products for electric-assist bicycles in accordance with an appropriate implementation roadmap.
- Strengthen market research activities to capture consumer trends and customer demand for timely development of new products.
- Expand the distribution network into underserved areas and improve the effectiveness of the existing distribution system.
- Enhance brand promotion, sales promotion, and customer service activities to increase market share and strengthen competitiveness.

4. Corporate Governance and Human Resources

- Continue improving the corporate governance system toward greater professionalism, transparency, and effectiveness.
- Enhance workforce quality through professional training, management skills development, and sales skills training.

- Effectively implement compensation, bonus, and welfare policies to stabilize the workforce amid a highly competitive labor market.
- Strengthen the development of a safe, professional, and collaborative working environment that fosters employee responsibility and creativity.
- Accelerate digital transformation in production management, business operations, and internal governance.

IV. CONCLUSION

The Board of Directors considers 2025 a year in which the Company has steadily overcome challenges and improved operational efficiency, thereby establishing a foundation for sustainable growth in the years ahead.

The Board firmly believes that, with the continued support of our shareholders, the determination of the Executive Management, and the solidarity and creativity of all employees, Sunlight Battery Joint Stock Company will successfully achieve its 2026 objectives, continue its sustainable development journey, and enhance value for shareholders.

The Board of Directors would like to express its sincere appreciation to all Shareholders for their continued support.

Respectfully submitted.

INDEPENDENT AUDITOR'S REPORT

**To: Shareholders, Board of Directors and Board of Management
Tia Sang Battery Joint Stock Company**

We have audited the accompanying Financial Statements of Tia Sang Battery Joint Stock Company prepared on 12 March 2026 from page 05 to page 30 including: Statement of Financial position as at 31 December 2025, Statement of Income, Statement of Cash flows and Notes to the Financial Statements for the fiscal year ended 31 December 2025.

Board of Management's Responsibility

The Board of Management is responsible for the preparation and presentation of Financial Statements that give a true and fair view in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of Financial Statements and for such internal control as directors determines is necessary to enable the preparation and presentation of Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with standards and ethical requirements; plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the Financial Statements give a true and fair view, in all material respects, of the financial position of Tia Sang Battery Joint Stock Company as at 31 December 2025, its operating results and its cash flows for the fiscal year then ended in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of Financial Statements.

NOTES TO THE FINANCIAL STATEMENTS
Year 2025

1 GENERAL INFORMATION

Form of ownership

Tia Sang Battery Joint Stock Company was converted from a state-owned enterprise under Decision No. 54/2004/QĐ-BCN dated 22 June 2004 issued by the Minister of Industry on the conversion of Tia Sang Battery Company into Tia Sang Battery Joint Stock Company. The Company operates under Business Registration Certificate No. 0200168458, initially issued on 01 October 2004, and most recently amended for the 11th time on 10 January 2025, by the Department of Planning and Investment of Hai Phong City.

The company's head office is located at Ton Duc Thang Avenue, An Hai Ward, Hai Phong City.

The charter capital of the Company is VND 67,454,800,000, equivalent to 6,745,480 shares, with a par value of VND 10,000 per share.

The number of employees of the Company as at 31 December 2025 was 154 employees (as at 01 January 2025: 153 employees).

Business field: Battery manufacturing and trading

Business activities

Main business activities of the Company include:

- Manufacturing batteries and accumulators;
- Trading in general chemicals (excluding those used in agriculture); wholesale of raw materials and supplies used in battery production; trading in battery components and spare parts.

The Company's operation in the year that affects the Financial Statements

During the year, market purchasing power improved, leading to a significant increase in both domestic sales and export activities. Consequently, net revenue from sales of goods sold and rendering of services rose by VND 10.21 billion, representing an increase of 5.6%. However, due to a sharp surge in the purchase price of raw lead, coupled with price fluctuations in other raw materials, profit after corporate income tax decreased by VND 3.12 billion, representing a decrease 59.8% compared to the previous year.

Corporate structure

The Company's member entities are as follows:

Name	Address	Main business activities
Hanoi Branch	Hanoi	Battery trading business
Da Nang Branch	Da Nang	Battery trading business
Ho Chi Minh Branch	Ho Chi Minh	Battery trading business

Comparability of information in the Financial Statements

The information presented in these Financial Statements has been prepared on a consistent basis by the Company, ensuring comparability between accounting periods.

2 ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1 Accounting period and accounting currency

Annual accounting period commences on 01 January and ends on 31 December.

The Company maintains its accounting records in Vietnamese Dong (VND).

2.2 Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies Corporate Accounting System issued under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance and the Circular No. 53/2016/TT-BTC dated 21 March 2016 issued by the Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. The Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3 Accounting estimates

The preparation of Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the Financial Statements and the reported amounts of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material impact in the Financial Statements include:

- Provision for bad debts;
- Provision for devaluation of inventory;
- Estimated useful life of fixed assets;
- Estimated allocation of prepaid expenses;
- Classification and provision of financial investments;
- Estimated corporate income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of Management to be reasonable under the circumstances.

2.4 Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnamese Dong using the actual rate at the transaction date.

Actual exchange rate when revaluing monetary items denominated in foreign currencies at the reporting date of Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transactions.

All exchange differences arising as a result of transactions or revaluation at the balance sheet date shall be recorded into the financial income or expense in the fiscal year.

2.5 Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with a maturity of no more than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

2.6 Financial investments

Investments held to maturity comprise term deposits held to maturity to earn profits periodically and other held to maturity investments.

Provision for impairment of held-to-maturity investments is made at the end of the period, based on the recoverability assessment, in accordance with legal regulations on making provisions for doubtful debts.

2.7 Receivables

The receivables shall be recorded in detail in terms of due date, receivable entities, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the financial statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating the possible losses.

2.8 Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory minus the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated using the weighted average method.

Inventory is recorded using the perpetual method.

Method for valuation of work in process at the end of the period: actual cost incurred for each unfinished product.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.9 Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

Subsequent measurement after initial recognition

If these costs augment future economic benefits obtained from the use of tangible fixed assets are extended to their initial standards conditions, these costs are capitalized as an increment in their historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the Statement of Income in the year in which the costs are incurred.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	05 - 25 years
- Machinery, equipment	03 - 15 years
- Vehicles, Transportation equipment	07 - 10 years
- Office equipment	03 - 10 years
- Other fixed assets	05 - 10 years
- Land use rights	Not amortised

2.10 Construction in progress

Construction in progress includes fixed assets which is being purchased and constructed as at the balance sheet date and is recognised in historical cost. This includes costs of construction, installation of equipment and other direct costs.

2.11 Operating lease

Operating leases are fixed assets leasing in which a significant portion of the risks and rewards of ownership are retained by the lessor. Payments made under operating leases are charged to Statement of Income on a straight-line basis over the period of the lease.

2.12 Prepaid expenses

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria.

Types of prepaid expenses include:

- Tools and supplies include assets which are possessed by the Company in an ordinary course of business, with a historical cost of each asset less than VND 30 million and therefore not eligible for recording as fixed asset under current legal regulations. The historical cost of tools and supplies is allocated on a straight-line basis over 1 to 3 years.
- Other prepaid expenses are recorded at their historical costs and allocated on a straight-line basis over 1 to 3 years.

2.13 Payables

The payables shall be recorded in detail in terms of due date, payable entities, types of currency and other factors according to the requirements for management of the Company. The payables shall be classified into short-term payables or long-term payables on the financial statements according to their remaining terms at the reporting date.

2.18 Revenue

Revenue is recognized to extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when payment is made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales returns:

The following specific recognition conditions must also be met when recognizing revenue:

Revenue from sales of goods:

- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the buyer;
- The Company no longer holds the right to manage the goods as the goods owner, or the right to control the goods.

Financial income:

Financial incomes include interest and other financial gains by the Company shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The amount of the revenue can be measured reliably.

2.19 Revenue deductions

Revenue deductions arising during the year from the sale of goods and rendering of services consist of trade discounts.

Trade discount, sales discount and sales return incurred in the same period of sale of goods and rendering of services are recorded as a decrease in revenue in the incurring period. In case goods and services are sold in the previous periods, but until the next period they are incurred as

deductible items, the Company records the decrease in revenue under the following principles: If it is incurred prior to the issuance of Financial Statements, it is then recorded as a decrease in revenue on the Financial Statements of the reporting period (the previous year); and if it is incurred after the issuance of Financial Statements, it is recorded as a decrease in revenue of incurring period (the next year).

2.20 Cost of goods sold

Cost of goods sold and services rendered are cost of finished goods, merchandises, materials sold or services rendered during the year, and recorded on the basis of matching with revenue and on a prudence basis. Cases of loss of materials and goods exceeded the norm, labour cost and fixed manufacturing overheads not allocated to the value of inventory, provision for devaluation of inventory, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the year even when products and goods have not been determined as sold.

2.21 Financial expenses
