The Chairman of the Board of Directors said that in 2025, the Company will have two legal representatives, in which the Chairman directly and the General Director direct production and business activities and thank the efforts of employees as well as the companionship of shareholders. In the context of many difficulties faced by businesses in the same industry, VINACAP has flexibly operated to maintain efficiency and maintain profit rates. In 2025, the Company will implement three investment projects including the construction of factories, electric cable production lines and rooftop solar power systems. The Board of Directors also adjusts the salary fund to ensure income and stabilize the workforce. At the end of 2025, the Company won the bidding package for the supply of fiber optic cables worth over 100 billion VND. In the first two months of 2026, production and business activities will remain stable and profitable, but it is forecast that there are still many challenges due to economic fluctuations and rising raw material prices. Mr. Ngo Hoang Phuong – Chairman of the Board of Directors, Chairman of the meeting: acknowledged the desired opinions of VNPT Group and shareholders on revenue/profit targets and orientations set for the company, this is what all shareholders want and is the orientation for the Company to develop further. The main production and business sectors are currently difficult to

achieve the Group's planned profit/revenue ratio. As a shareholder, Mr. Phuong agrees with VNPT Group's desire to set up funds and the profit distribution plan in 2025. The final decision will be voted by the shareholders and the general meeting will decide according to the principle of majority. Regarding voting on the contents of the report submitted to the General Meeting, basically the shareholders agreed, there were some points that VNPT Group had different opinions. It is proposed that the congress vote together to obtain unanimous opinions. Regarding the production and business plan in 2026, Mr. Phuong summarized the contents of the meeting discussed based on the production and business plan of the Board of Directors and the desired plan of VNPT Group. It is feasible to increase revenue in the opinion of the group compared to the company's plan, but the dividend payout rate of 4.97% is not feasible with the characteristics of the products the company is producing. In order to increase revenue and profit, the company will have to promote more commercial activities, the profit margin of commercial activities is very thin, the company cannot achieve the desired profit after tax plan of VND 8.96 billion. Mr. Phuong proposed to assign an additional profit plan based on the percentage of revenue increase and agree on the number of plan assignments for the General Meeting to vote for approval as follows: In 2026, shareholders vote to assign a revenue plan of VND 616.06 billion (up 15%), Profit after tax: VND 2.61 billion (up 15%).
