Subject: Measures and roadmap to address
the situation of securities being placed on
warning.

To: Hanoi Stock Exchange

- Based on Decision No. 877/QD-SGDHN dated July 7, 2026, of the Hanoi Stock Exchange regarding the maintenance of the warning status for FID shares;
- Based on the production and business situation at the Company.

Vietnam Enterprise Investment and Development Joint Stock Company (FID) remains under warning status for the following reasons: The listed company has not held its annual general meeting of shareholders for more than six months since the end of the fiscal year. Another reason is that the undistributed after-tax profit as of December 31, 2024, in the audited consolidated financial statements is negative. The company proposes the following corrective measures and roadmap:

- Remedial measures:

The company has not yet held its 2026 annual general meeting because the audit of the 2025 financial statements has not been completed. The company is working diligently with the auditing firm to finalize the audit procedures.

The company's after-tax profit in 2024 was negative due to the fact that FID's subsidiary had not yet renewed its mining license in Phu Tho, resulting in no revenue and the incurring of interest expenses and depreciation costs. Therefore, in the coming period, the company will seek new business opportunities, divest a portion of its capital in the subsidiary, and actively apply for and renew the mining license to improve its financial situation.

- Remediation plan:

Complete the audit process in July-August 2026.

Q3-Q4/2026: Complete the application for mining permits, ensuring the company's business operations are profitable, thereby removing the company's stock from the warning list.

The company would like to submit an explanation to the Hanoi Stock Exchange.

Best regards!
