Profit after tax in the 2nd quarter of 2026 The Company made a profit of VND 4,796 billion, accumulated in the first 6 months of the year, the profit was VND 9,339 billion, reaching 66.68% compared to the plan and down 14.2% compared to the first 6 months of 2025. The reason for the decrease in profit over the same period was mainly due to the impact of the US-Iran war, which led to a sharp increase in export sales costs such as freight, transportation, packaging, and logistics over the same period.

However, the Company continued to effectively implement the procurement and production plan for the Winter-Spring crop while strengthening cost management and cost control. These efforts helped ensure that profit after tax remained in line with the approved business plan.

Kien Giang Import&Export Joint Stock Company would like to explain the above reasons to the State Securities Commission and the Hanoi Stock Exchange.

Best regards!
