VIETNAM PLASTIC CORPORATION

SOCIALIST REPUBLIC OF VIETNAM
Independence - Freedom - Happiness

No: 220.../CV-NVN-TCKT

Ho Chi Minh City, July 17, 2026

Subject: Explanation of the difference in business results
the 2nd quarter of 2026 compared to the 2nd quarter of 2025

**To: State Securities Commission
Hanoi Stock Exchange**

In compliance with Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance on guidelines for the disclosure of information on the securities market.

Vietnam Plastic Corporation would like to explain the business results for the 2nd quarter of 2026 compared to the 2nd quarter of 2025 as follows:

1/ The after-tax profit on the income statement for the reporting period has changed by 10% or more compared to the same period last year:

+ For the Company's separate financial statements:

- After-tax profit for the 2nd quarter of 2026: VND 321,259,869
- After-tax profit for the 2nd quarter of 2025: VND (1,740,888,223)

Main reasons for the increase in profit compared with the same period of the previous year:

- + Revenue from sales and service rendering increased compared with the same period of the previous year as the Company strengthened its business activities, expanded its customer base, and improved sales efficiency. At the same time, the Company proactively restructured its product portfolio and optimized its sales policies in line with market developments, thereby improving gross profit during the period.
- + Selling expenses increased compared with the same period of the previous year, mainly due to the recruitment of additional sales personnel to expand the customer base and develop the market. However, the increase in revenue and gross profit more than offset the additional selling expenses, enabling the Company to turn from a loss to a profit.

+ For the Consolidated Financial Statements:

- After-tax profit for the 2nd quarter of 2026: VND 15,507,866,871
- After-tax profit for the 2nd quarter of 2025: VND 5,161,211,136

Main reasons for the increase in profit compared with the same period of the previous year:

- + In addition to the improved operating results of the parent company, consolidated profit increased as a result of higher profit recognized from

associates and joint ventures compared with the same period of the previous year. The positive operating performance of these entities contributed to the increase in consolidated profit after tax for the second quarter of 2026.

2/ Profit after tax in the reporting period changed from a loss in the previous year's corresponding period to a profit in the current period:

+ For the Company's separate financial statements:

- After-tax profit for the 2nd quarter of 2026: VND 321,259,869
- After-tax profit for the 2nd quarter of 2025: VND (1,740,888,223)

The Company's profit in the second quarter of 2026 was mainly attributable to the following factors:

During the second quarter of 2026, revenue from sales and service rendering increased compared with the same period of the previous year as the Company intensified its business activities, expanded its customer base, and enhanced sales efficiency. At the same time, the Company proactively restructured its product portfolio and optimized its sales policies in response to market developments, thereby improving gross profit. Although selling expenses increased due to the recruitment of additional sales personnel to expand the market, the increase in revenue and gross profit fully offset these additional costs, enabling the Company to turn from a loss in the second quarter of 2025 to a profit in the second quarter of 2026.

Vietnam Plastic Corporation prepares this explanation letter for the State Securities Commission and the Hanoi Stock Exchange for your information.

Respectfully submitted.
