Report: Explanation for the decrease
in Profit after Corporate Income Tax
(CIT) in Q2.2026 by over 10%
compared to the same period in 2025

THE SOCIALIST REPUBLIC OF VIETNAM

Dong Thap, 18th July, 2026

To:

- State Securities Commission of Vietnam (SSC)
- Hanoi Stock Exchange (HNX)

Pursuant to the Q2.2026 financial statements of Cai Lay Veterinary Pharmaceutical Joint Stock Company, the Profit after Corporate Income Tax (CIT) in Q2.2026 was VND 1.170.992.253, compared to VND 2.269.161.454 in the same period of 2025, representing a decrease of VND 1.098.169.201. The Company would like to provide the following explanation for the decrease in profit after tax:

- The complex development of animal diseases has reduced the scale of livestock farming and decreased the demand for veterinary drugs.
- Many new businesses have entered the market, increasing competition in terms of selling prices and trade policies.
- Additional investment in personnel is needed to exploit untapped markets.

The above factors are the main contributors to the decrease in net profit after corporate income tax in quarter II 2026 compared to the same period in 2025.

We hereby confirm that the information disclosed above is accurate and truthful. We assume full legal responsibility for the content of this disclosure.

Respectfully yours./.
