Re: Explaining the variation of after-tax profit of the reporting period by more than 10% compared to the same period of the previous year

To:

- State Securities Commission of Vietnam;
- Hanoi Stock Exchange.

Pursuant to the provisions of Circular No. 96/2020/TT-BTC dated 16 November 2020 of the Ministry of Finance guiding information disclosure on the stock market, Bien Hoa Building Materials Production and Construction Joint Stock Company (securities code: VLB) hereby presents our explanation below:

After-tax profit presented in the Income Statement for the 2nd quarter of 2026 varies by more than 10% compared to that of the same period of 2025:

No.	Item	2 nd quarter of 2026 (VND)	2 nd quarter of 2025 (VND)	Increase (VND)	Increase rate (%)
1	Profit after tax	374,449,453,405	79,185,866,828	295,263,586,577	372.9%

Reasons for the increase in profit after tax in the 2nd quarter of 2026 compared to the same period of 2025:

+ Sales revenue in the 2nd quarter of 2026 increased by VND 31.8 billion, equivalent to a 7.8% increase compared to the same period of the previous year. This was mainly driven by sales volume of various types of soil reaching 217,281 m³, representing a 889% surge over the same period (21,970 m³), whilst selling prices of stone products were adjusted upwards to align with fluctuations in input costs.

+ During the 2nd quarter of 2026, the Company received Notices from the Dong Nai City Tax Authority determining an overpayment of mineral exploitation licensing fee for the period from 2014 to June 2025, totaling VND 343,928,545,626. Pursuant to these Notices from the Dong Nai City Tax Authority and current accounting regulations, the Company has recognized this overpaid fee as other income in the period. This other income was the primary reason for the 372.9% surge in post-tax profit for the 2nd quarter of 2026 compared to the same period in 2025.

Yours faithfully./.
