2.5 . Financial assets and Financial liabilities

a) Initial recognition

Financial assets

Financial assets of the Company including cash and cash equivalents, financial assets at fair value through profit and loss (FVTPL), held-to-maturity investments (HTM), loans, available for sale financial assets (AFS) and receivables. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets, except financial assets at fair value through profit and loss (FVTPL) are identified by purchasing price/issuing cost.

Financial liabilities

Financial liabilities of the Company including loans, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

b) *Classification principles*

Financial assets at fair value through profit and loss (FVTPL): financial asset is classified as FVTPL if it was held for the purpose of selling or repurchasing in financial market through researching and analyzing with profit-taking expectation. The other financial assets are not classified to FVTPL when they are sold, they must be reclassified to FVTPL.

Financial assets FVTPL is a debt instrument at maturity which must be recognized as receivables and provision as doubtful debts (if any).

Held-to-maturity financial assets (HTM): are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company has the positive intention and ability to hold to maturity, except for:

- Non-derivative financial assets that the Company classified as fair value through profit or loss (FVTPL) upon initial recognition;
- Non-derivative financial assets classified by the Company as available for sale (AFS);
- Non-derivative financial assets that meet the definition of loans and receivables.

Loans: are non-derivative financial assets with fixed or identifiable payments and not listed on the market.

Types of loan commitments made:

- Margin contract;
- Prepaid of selling securities contract.

After initial recognition, loans are measured at amortized cost using the real interest rate method, except for loans to financial assets recognized at fair value through profit or loss; Financial liabilities arising from the transfer a financial asset that are not eligible for discontinuance or when applicable in accordance with the continued relevant regulations; financial guarantee contracts.

Available for sale financial assets (AFS): are the non-derivative financial assets that are determined as available for sale or are not classified as:

- Loans or Receivables;
- Held to maturity investments;
- Financial assets at fair value through profit and loss (FVTPL).

Financial assets that are invested by the Company but have no short-term investment objectives and long-term objectives have not been identified. Therefore, this is a limited financial asset classified in the Company's operations.

Financial liabilities recognized through profit or loss: are financial liabilities that meet one of the following conditions:

- Financial liabilities are classified by The Board of Management into the holding group for business;

- At the time of initial recognition, the Company classified financial liabilities into groups that recognized through profit or loss.

Financial liabilities recognized by amortized value: financial liabilities are not classified as financial liabilities recognized through profit or loss.

c) *Revalue financial asset principles*

Revaluation of financial assets FTVPL and AFS at market value or fair value is according to the method of valuation in accordance with the law. In case, there is no market prices at the most recent trading date, the Company uses fair value to revalue its financial assets. The fair value is determined on the base of respect for the principle, method or model of valuation theory of financial assets approved by the Board of Management.

The fair value/market value of financial assets is determined in accordance as follows:

- The market value of the securities listed on the Hanoi Stock Exchange and the Ho Chi Minh City Stock Exchange is the closing price of the last trading day counted to the date of revaluation;
- For securities of companies not listed on the stock market but registered for trading on the trading market of unlisted public companies (UPCOM), the market value is determined as the average reference price in the 30 most recent consecutive trading days before the revaluation date announced by the Stock Exchange.
- For listed securities that are cancelled or suspended from trading or cease trading from the sixth trading day onwards, the actual securities price is the book value on the date of the most recent financial statement.
- For unlisted securities and securities not registered for trading on the unlisted public companies trading market (UPCom), the securities price used as the basis for revaluation is the price collected from reference information sources that the Board of Directors assesses that this price represents the market price of these securities.

For securities without reference from the above sources, the Company has not properly measured the fair values of these securities because Vietnam Accounting Standards and Vietnamese Accounting System apply for securities companies do not have specific guidance on the determination of fair value. Accordingly, fair value is estimated at the original cost of the investment.

The difference in increase/decrease dues to revalue FVTPL are recorded according to the principle of non-offset and presented in the Statement of Comprehensive Income on 02 items: the item "Loss from financial assets at fair value through profit and loss (FVTPL)" - details "Loss from revaluation of financial assets at FVTPL" (if the assessment decreases) and the item "Gain from financial assets at fair value through profit and loss (FVTPL)" - Details "Gain from revaluation of financial assets at FVTPL" (if the assessment increases).

The difference in increase/decrease dues to revalue AFS are recognized directly in equity of the Statements of Financial Position on the item "Asset revaluation differences".

Financial assets held to maturity are reviewed for impairment at the balance sheet date. Provisions are made for these investments when there is objective evidence that the investment is not recoverable or is not likely to be recoverable as a result of one or more loss events that have an adverse effect on the expected future cash flows. Objective evidence of impairment may include a decline in the market value/fair value (if any) of the debt, signs that the debtor or group of debtors are experiencing significant financial difficulties, defaults or delays in payment of interest or principal, the possibility of bankruptcy or financial restructuring of the debtor and observable data that indicate a quantifiable reduction in expected future cash flows, such as changes in repayment terms, financial position associated with the possibility of default. When there is evidence of impairment, the provision balance is determined based on the difference between the allocated value and the fair value at the time of assessment. Increases or decreases in the provision balance are recorded in the Statement of Operations under the item "Provision expenses for financial assets, handling of bad debts, impairment losses of financial assets and borrowing costs of loans".

Loans are made provision of impairment at the Statement of Financial Position date. Provision for loans is made on the basis of the estimated loss, calculated as the difference between the market value of the security used as collateral for the loan and the balance of the loan. Increases and decreases of provision are recognized in the Statement of Comprehensive Income on the "Provision expenses for diminution in value and impairment of financial assets, doubtful receivables and borrowing costs of loans".

2.6 . Short-term and long-term deposits received

Deposits received are recording amounts enterprises received deposits related to business to be performed in compliance with regulations of law in force. Deposits received are not under assets of the Company, the Company has to manage separately from monetary assets of the Company.

2.7 . Short-term and long-term receivables

Receivables from disposal of financial assets: reflecting receivables from disposal of financial assets of the Company (not through Stock Exchange), ...

Receivables from and accruals for dividend and interest income: reflecting receivables from and accruals for dividend and interest income belonging to the Company's financial asset list.

Receivables of services rendered by the Company: reflecting receivables of the Company with the Stock Exchange, the Vietnam Securities Depository (VSD), the Investors are clients of the Company, with Securities issuing organizations or underwriters of securities and receivables from securities trading activities.

Receivables are monitored in detail by receivable term, receivable entity, original currency, and other factors according to the Company's management needs. Receivables are classified as short-term and long-term in the interim financial statements based on the remaining term of receivables at the reporting date.

Provision for impairment of receivables: The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

32 . FINANCIAL INSTRUMENTS

Financial risk management

The Company's financial risks include market risk, credit risk and liquidity risk. The Company has developed its control system to ensure the reasonable balance between cost of incurred risks and cost of risk management. The Board of Directors of the Company is responsible for monitoring the risk management process to ensure the appropriate balance between risk and risk control.

Market risk

The Company's business operations will bear the risks of changes in prices, exchange rates and interest rates.

Price Risk

The Company bears price risk of equity instruments from short-term and long-term investments in securities due to the uncertainty of future prices of the securities. As regards, long-term securities held for long-term strategies, at the end of the fiscal year, the Company has no plan to sell these investments.

Exchange rate risk

The Company bears the risk of exchange rate due to the fluctuation in fair value of future cash flows of a financial instrument in line with changes in exchange rates if loans, revenues and expenses of the Company are denominated in foreign currencies other than VND.

Interest rate risk

The Company bears the risk of interest rates due to the fluctuation in fair value of future cash flow of a financial instrument in line with changes in market interest rates if the Company has time or demand deposits, borrowings and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain interest beneficial for its operation purpose.

Credit Risk

Credit risk is the risk of financial loss to the Company if a counterparty fails to perform its contractual obligations. The Company has credit risk from operating activities (mainly to trade receivables) and financial activities (including deposits, loans and other financial instruments), detailed as follows:

Liquidity Risk

Liquidity risk is the risk that the Company has trouble in settlement of its financial obligations due to the lack of funds. Liquidity risk of the Company is mainly from different maturity of its financial assets and liabilities.

Due date for payment of financial liabilities based on expected payment under the contracts (based on cash flow of the original debts) as follows:
