After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities. Upon liquidation or transfer, cost of trading securities is determined using first in first out method or weighted average method.

Investments held to maturity comprise term deposits (including treasury bills and promissory notes), bonds, preference shares which the issuer is required to repurchase at a certain time in the future and loans, etc. held to maturity to earn profits periodically and other held to maturity investments.

Investments in subsidiaries, joint ventures or associates are initially recognized at original cost. After initial recognition, the value of these investments is measured at original cost less provision for devaluation of investments.

Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

For dividends received in the form of shares, only the number of shares received is recorded without any increase in the investment value and financial income.

Provision for devaluation of investments is made at the end of the year specifically as follows:

Investments in trading securities: provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.

Investments in subsidiaries, joint ventures or associates: provision for loss investments shall be made based on the [Separate] Financial Statements/Consolidated Financial Statements (of subsidiaries, joint ventures or associates at the provision date.

Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, provision shall be made based on the Financial Statements at the provision date of the investee.

Investments held to maturity: provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

4. Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

The cost of inventory is calculated using specific identification or retail.

Inventory is recorded by declare regularly method.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

5. Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.
