The Company's primary activities are mining, manufacturing and trading in all kinds of stones.
4. Regular manufacturing and trading cycle
The Company's regular manufacturing and business cycle is performed within a period of no more than 12 months.
5. Characteristics of the business operations during the fiscal year impacting the financial statement.
6. Business structure
The Company has a sole investment in CMISTONE., LTD, located at No. 25 Giai Phong Street, Dong Tam Ward, Hai Ba Trung District, Hanoi. The subsidiary primarily engages in manufacturing and trade. As of the end of the fiscal year, the Company's capital contribution in the subsidiary is 100%, with voting rights and interest ratios aligned with the capital contribution.
 - List of subsidiaries;
 - List of joint ventures and associates;
 - List of affiliated units without legal status for dependent accounting.
7. Statement on the comparability of information on the Financial Statement (whether comparable or not comparable, if not, specify the reasons such as change of ownership form, separation, merger, and the length of the comparison period...)

II. Accounting period and currency used in accounting

1. Annual accounting period (beginning from January 1, 2025 and ending on December 31, 2025).
The Company's annual accounting period follows the calendar year, starting on January 1 and ending on December 31 each year. Separate financial statements are prepared for the fiscal year ending on December 31,....
2. Currency used in accounting. In case of any change in the accounting currency compared to the previous year, clearly explain the reason and impact of the change. In the event of any change in the accounting currency compared to the previous year, specify the reason for changes and their impacts.

The accounting currency is Vietnam Dong ("VND"). The accounting is made based on the original cost principle, in accordance with Vietnamese Accounting Standards, the accounting regime for enterprises, and relevant legal regulations governing the preparation and presentation of financial statements.

III. Applicable Accounting Standards and Regimes

1. Applicable accounting regime
The Company applies the Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance and Circular No. 53/2016/TT-BTC dated March 21, 2016 of the Ministry of Finance amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC.
2. Declaration on compliance with Accounting Standards and Regimes
The Company has applied Vietnamese Accounting Standards and documents guiding the Standards issued by the State. The separate financial statements and their presentation comply with the provisions of each applicable standard and the circulars guiding the implementation of the applicable Accounting Standards and Regimes.

IV. Applicable Accounting Policies (for Going Concern):

1. Principles for converting Financial Statements prepared in foreign currencies to Vietnam Dong (in case the accounting currency is different from Vietnamese Dong); Effects (if any) due to the conversion of Financial Statements from foreign currencies to Vietnam Dong.
The Company's separate financial statements have been prepared on the going-concern basis, assuming that the Company will continue to operate and will be able to utilize its assets and settle its liabilities in the normal course of business in the foreseeable future.
2. Types of exchange rates applied in accounting.
3. Principles for determining the actual interest rate (effective interest rate) used to discount cash flows.
4. Principles for recognition of cash and cash equivalents.
Currency used in accounting: VND. Cash and cash equivalents include: cash on hand; bank deposits; Short-term investments with a recovery or maturity of no more than 3 months that are readily convertible into a known amount of cash and are not subject to risks in conversion to cash since the date of purchase of the investment at the reporting date.
5. Accounting principles for financial investments
Investments in subsidiaries over which the Company has control are presented using the original cost method. Distributions of profits received by the parent company from the accumulated profits of subsidiaries, following the date the Company gained control, are recognized in the Company's business results for the period. Any other distributions are treated as recoveries of investments and are deducted from the carrying value of the investment.
 - a) Trading securities;
 - b) Held-to-maturity investments;
 - c) Loans;
 - d) Investments in subsidiaries; joint ventures and associates;
 - d) Investments in equity instruments of other entities;
 - e) Accounting methods for other transactions related to financial investments.
6. Accounting principles for accounts receivable
Accounts receivable from customers represent commercial receivables arising from purchase and sale transactions between the Company and independent third-party buyers, including receivables from export sales entrusted to other entities.
Other receivables refer to non-commercial receivables that are unrelated to purchase and sale transactions.
A provision for doubtful accounts is established for overdue receivables arising from economic contracts, contractual obligations, or debt repayment commitments that the Company has repeatedly requested but has not yet recovered. It is also set aside for receivables from debtors who are unlikely to pay due to liquidation, bankruptcy, or similar financial difficulties.
Any increases or decreases in the provision for doubtful accounts must be determined at the closing date of financial statement preparation and recorded as management expenses in the Company's financial statements.
7. Principles of inventory recognition:
 - Principles of inventory recognition;
Inventories are initially recorded at their original cost, which includes purchase costs, processing costs, and other directly attributable costs incurred to bring the inventories to their current location and condition at the time of initial recognition. After initial recognition, at the time of preparing the separate financial statements, if the net realizable value of the inventories is lower than their original cost, the inventories are recorded at their net realizable value.
 - Method of calculating inventory value;

Inventories value is determined by the weighted average method.

- Method of accounting for inventories;

Inventories are accounted for using the periodic inventory method.

- Method of provisions for inventory price reduction.

The provision for inventory price reduction is prepared at the end of the year as the difference between the original cost of the inventory and its net realizable value.

8. Principles of recording and depreciation of fixed assets, finance lease fixed assets, and investment property

Tangible fixed assets and intangible fixed assets are initially recognized at their original cost. During their use, these assets are recorded at their original cost, less accumulated depreciation (for tangible fixed assets) or amortization (for intangible fixed assets), and any residual value.

9. Principles of accounting for business cooperation contracts.

10. Principles of accounting for deferred corporate income tax.

11. Principles of accounting for prepaid expenses.

Expenses incurred that are related to the results of manufacturing and business activities over multiple accounting periods are recorded as prepaid expenses to be gradually allocated to the results of business activities in the subsequent accounting periods.

12. Principles of accounting for liabilities.

Liabilities are amounts payable to suppliers and others. Liabilities include trade payables, internal payables and other payables. Liabilities are not recognized at an amount lower than the actual obligation

13. Principles for recording loans and finance lease liabilities.

Loans are monitored on an individual basis for each lending entity, each loan agreement, and the repayment terms associated with the loans.

14. Principles for recording and capitalizing borrowing costs.

Borrowing costs include interest and other costs incurred in direct connection with the borrowings.

Borrowing costs are recognized as manufacturing and business expenses in the year they are incurred, except for borrowing costs that are directly attributable to the construction or production of unfinished assets. These costs are capitalized as part of the asset's value when they meet all the conditions outlined in Vietnamese Accounting Standard No. 16 "Borrowing Costs." Additionally, for specific loans used to finance the construction of fixed assets or investment properties, borrowing interest is capitalized even if the construction period is less than 12 months.

15. Principles of recording payable expenses.

The Company's payable expenses include interest expenses that have been incurred during the reporting period but remain unpaid due to the absence of invoices or insufficient accounting records and documents. These expenses are recorded in the manufacturing and business expenses of the reporting period.

16. Principles and methods of recording payable provisions.

17. Principles of recording deferred revenue.

18. Principles of recording convertible bonds.

19. Principles of recording owner's equity:

Owner's equity is recorded based on the actual capital contributed by the holder.

- Principles of recording equity contributions, equity surplus, convertible bond options, and other capital contributions of the owner.

Equity surplus represents the difference between the par value of shares, the direct costs associated with the issuance of shares, and the issuance price of the shares (including cases involving the reissuance of treasury shares). It can result in a positive surplus if the issuance price exceeds the par value and related issuance costs, or a negative surplus if the issuance price is lower than the par value and direct costs associated with the issuance.

- Principles for recording asset revaluation differences.

- Principles for recording exchange rate differences.

- Principles for recording undistributed profits.

20. Principles and methods of revenue recognition:

Revenue is recognized when the Company is able to receive economic benefits that can be reliably measured. It is determined based on the fair value of the amounts received or to be received, after deducting trade discounts, sales discounts, and sales returns.

- Sales revenue;

Sales revenue is recognized when all of the following conditions are met: (i) The Company has transferred the majority of risks and benefits associated with ownership of the products or goods to the buyer; (ii) The Company no longer reserve the rights

- Revenue from rendering of services;

Revenue from a service provision transaction is recognized when the outcome of that transaction can be reliably determined. The outcome is determined when all of the following conditions are met: (i) Revenue is generated from

- Financial operations revenue;

- Construction contract revenue;

- Others.

21. Principles of accounting for revenue deductions.

22. Principles of accounting for cost of goods sold.

23. Principles of accounting for financial expenses.

24. Principles of accounting for sales expenses and business management expenses.

25. Principles and methods of recording expenses for applicable corporate income tax and deferred corporate income tax.

26. Other accounting principles and methods.

V. Applicable accounting policies (in the event the enterprise fails to meet the going-concern assumption)

1. Are long-term assets and liabilities reclassified as short-term?

2. Principles for determining the value of each type of asset and liability (according to net realizable value, recoverable value, fair value, current value, current price, etc.)

3. Principles for financial management of:

- Provisions;

- Differences in revaluation of assets and exchange rate differences (presented in the Balance Sheet - if any).
