Regarding the explanation of the difference in
after-tax profit in separate financial statements
between the second quarter of 2026 and second quarter of
2025 of the public company

Ho Chi Minh City, July. 23, 2026

**To: STATE SECURITIES COMMISSION OF VIETNAM
HANOI STOCK EXCHANGE**

Company Name: Vietnam Technology & Telecommunication Joint Stock Company
Stock Code: TTN
Head Office Address: 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong
Ward, Ho Chi Minh City
Phone: 0274 2220 222

Pursuant to: Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance
guiding the disclosure of information on the securities market;

Vietnam Technology & Telecommunication Joint Stock Company explains the main reasons
for the fluctuation in after-tax profit in the second quarter of 2026 separate financial statement,
which decreased by 15.9% compared to second of 2025, as follows:

- Separate after-tax profit in the second quarter of 2025: 19,373,991,298 VND
- Separate after-tax profit in the second quarter of 2026: 16,299,541,044 VND

Reasons:

- Total revenue from sales and service provision increased by 103.6%, equivalent to an increase of 102.8 billion VND compared to the same period last year. This was mainly driven by a strong increase in construction and retail services, which rose by 331.4%, equivalent to an increase of 99.2 billion VND. Meanwhile, revenue from the company's core business services, telecommunications and data center services, which generate high profits, maintained a growth rate of 5.1%, equivalent to an increase of 3.6 billion VND.
- Despite strong revenue growth, after-tax profit decreased by 15.9% compared to the same period last year due to increased expenses during the period, including:
 - The cost of telecommunications service terminal equipment increased by 6.1 billion VND as the company is in the process of replacing and upgrading terminal equipment on a large scale to improve quality and customer experience;
 - Electricity costs for data center services increased by 0.8 billion VND due to the application of business electricity rates instead of production electricity rates as stipulated in Circular 60/2025/TT-BCT of the Ministry of Industry and Trade;
 - Selling expenses increased by 2.9 billion VND, mainly due to the recognition of a provision for warranty costs of 3.3 billion VND for construction projects as stipulated in Circular 99/2025/TT-BTC of the Ministry of Finance.

- In addition, revenue from financial activities, including short-term bank deposits, decreased by 1.4 billion VND compared to the same period last year.

This is the explanatory report of Vietnam Technology & Telecommunication Joint Stock Company regarding the fluctuation in after-tax profit of the separate financial statement for second quarter of 2026 compared to second quarter of 2025.

Respectfully submitted!

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

6. Statement of information comparability on the Financial Statements

The corresponding figures of the previous period can be comparable with figures of the current period.

7. Headcount

As of the statement of financial position date, the Company's headcount is 358 (headcount at the beginning of the year: 337).

II. FISCAL YEAR AND ACCOUNTING CURRENCY UNIT

1. Fiscal year

The fiscal year of the Company is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnamese Dong (VND) because transactions of the Company are primarily made in VND.

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

1. Applicable Accounting System

The Company applies the Vietnamese Accounting Standards and System, which were issued in accordance with the Circular No. 99/2025/TT-BTC dated 27 October 2025 guiding the Vietnamese Accounting System and other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Interim Financial Statements.

2. Statement of the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 99/2025/TT-BTC dated 27 October 2025 as well as the Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Interim Financial Statements.

IV. APPLICABLE ACCOUNTING POLICIES

1. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Foreign currency transactions

Transactions denominated in foreign currencies are converted at the exchange rate ruling as of the transaction dates. The balances of monetary items denominated in foreign currencies at the end of the accounting period are converted at the exchange rate prevailing on that date.

Foreign exchange differences arisen from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences arising from the revaluation of foreign currency-denominated monetary items at the end of the accounting period, after netting out increases and decreases, shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate agreed upon in the contracts of trading foreign currency between the Company and the Bank.

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANY

Address: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

- For capital contribution made or received: the buying rate of the bank where the Company opens its account to receive capital contributed from investors as of the date of capital contribution.
- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Company supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Company makes payments.

The exchange rates used to re-evaluate the ending balances of foreign currency-denominated monetary items are determined in accordance with the following principle:

- For foreign currency bank deposits: the average buying and selling transfer exchange rate of the bank where the Company holds its foreign currency account.
- For monetary items denominated in foreign currencies, the average transfer buying and selling exchange rate of Joint Stock Commercial Bank for Investment and Development of Vietnam (BIDV) – Binh Duong Branch where the Company regularly conducts transactions.

3. Cash and cash equivalents

Cash includes cash on hand and cash in bank. Cash equivalents are short-term investments with a maturity of three months or less from the date of investment, which can be readily converted into a known amount of cash and are not subject to significant risks in conversion to cash at the reporting date.

4. Financial investments

Held-to-maturity investments

An investment is classified as a held-to-maturity investment when the Company has the intention and ability to hold it to maturity. The Company's held-to-maturity investment includes term deposits.

Held-to-maturity investments are initially recognized at cost including the acquisition cost and other transaction costs. After initial recognition, these investments are recorded at recoverable value. Interest income from these held-to-maturity investments after acquisition date is recognized in the Income Statement on an accrual basis. Interest incurred prior to the Company's acquisition of held-to-maturity investments is deducted into the costs at the acquisition time.

When there is reliable evidence proving that a part or the whole investment cannot be recovered and the loss is reliably measured, the loss is recognized as financial expenses during the year and directly deducted into the investment costs.

Investments in subsidiary

A subsidiary is an entity controlled by the Company. Control is achieved when the Company has the ability to control the financial and operating policies of the investee in order to obtain economic benefits from the activities of that enterprise.

Initial recognition

Investments in subsidiary are initially recognized at costs, including the cost of acquisition or capital contributions plus costs directly attributable to the investments. In cases where the investment is made through non-monetary assets, the cost of the investment is recognized at the fair value of the non-monetary assets at the time of occurrence.

Profits incurred prior to the acquisition of investments are deducted into the investment costs. Profits incurred after the acquisition of investments are recorded into the Company's financial income.

Provision for impairment losses on investments in subsidiary

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANY

Address: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

A provision for impairment losses on investments in subsidiary is recognized when a subsidiary incurs losses, with the provision amount determined as the difference between the Company's actual investment cost in the subsidiary and the investee's actual equity multiplied (x) by the Company's ownership interest in such subsidiary. If the subsidiary is consolidated into Consolidated Financial Statements, the basis for impairment provisions is the Consolidated Financial Statements.

Any increase or decrease in the provisions for impairment of investments in the subsidiary required to be recognized as of the statement of financial position date is recorded into financial expenses.

5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the age of debts after offsetting against liabilities (if any) or estimated loss as follows:

- As for overdue debts for telecommunications, IT, post-paid television, retails of goods with deferred/instalment payment from individuals:
 - 30% of the value of debts overdue between 3 months and less than 6 months.
 - 50% of the value of debts overdue between 6 months and less than 9 months.
 - 70% of the value of debts overdue between 9 months and less than 12 months.
 - 100% of the value of debts overdue from 12 months and more.
- As for other overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue from 3 years or more.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the statement of financial position date are recorded into general and administration expenses.

6. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandise: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs comprise costs of main materials, labors and other directly relevant expenses.

Inventory costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANYAddress: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City**INTERIM FINANCIAL STATEMENTS**For the 2nd quarter of the fiscal year ending 31 December 2026**Notes to the Interim Financial Statements (cont.)**

Allowance for devaluation of inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/(decreases) in the obligatory allowance for devaluation of inventories as of the statement of financial position date are recorded into costs of sales.

7. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include expenses of tools, land rental, survey materials and equipment, construction and repair expenses. These prepaid expenses are allocated into costs over the prepayment period or period in which corresponding benefits are realized.

Expenses of tools

Expenses of tools in use are allocated into costs in accordance with the straight-line method for the maximum period of 2 years.

Land rental

Land rental reflects the rental prepaid for the land being used by the Company. Land rental is allocated over the lease term as stated in the land lease contract.

Survey materials and equipment

Installing materials and equipment in use are allocated into costs in accordance with the straight-line method for the maximum period of 5 years.

Construction and repair expenses

Construction and repair expenses are allocated into costs in accordance with the straight-line method for the maximum period of 3 years.

8. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Company's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

9. Tangible fixed assets

Tangible fixed assets are presented at historical costs less accumulated depreciation. Historical costs of tangible fixed assets comprise all costs incurred by the Company to acquire the assets up to the time when it is brought to its working condition for its intended use. Subsequent costs are added to historical costs of fixed assets only if it is probable that future economic benefits associated with the asset will flow to the Company. Subsequent costs that do not meet the above conditions will be recognized as operation costs during the year.

Upon disposal or liquidation of a tangible fixed asset, its historical cost and accumulated depreciation are derecognized, then any gain or loss incurred from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation period applied is as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	02 – 25
Machinery and equipment	03 – 15
Vehicles	05 – 20
Office equipment	03 – 05
Other tangible fixed assets	03 – 05

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

10. Intangible fixed assets

Intangible fixed assets are presented at initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all costs incurred by the Company to acquire the assets up to the time when it is brought to its working condition for its intended use. Subsequent costs relevant to intangible fixed assets are recognized as operation costs during the period in which they are incurred, unless such costs are directly attributable to a specific intangible fixed asset and increase the future economic benefits expected to be derived from that asset.

Upon disposal or liquidation of an intangible fixed asset, its initial costs and accumulated amortization are derecognized, then any gain or loss incurred from such disposal is included in the income or the expenses during the year.

The Company's intangible fixed assets include:

Land use right

Land use right comprises all the actual costs incurred by the Company that are directly attributable to the land in use, including payments made to obtain the land use right, compensation and site clearance costs, land levelling costs, registration fees, etc. If the land use right is permanent, it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method from 2 years to 5 years.

11. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant interest expenses following the accounting policies of the Company) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

12. Contractual arrangement

Jointly controlled operations

In respect of its interest in jointly controlled operations, the Company shall recognize in its Financial Statements:

- the assets that the Company controls.
- the liabilities that the Company incurs.
- the revenue that Company earns from the sale of goods or services by the joint venture.
- the expenses that the Company incurs.

13. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANY

Address: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the statement of financial position on the basis of their remaining term as of the statement of financial position date.

14. Provisions for payables

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, the settlement of which is expected to result in an outflow of economic benefits, and a reliable estimate of the obligation can be made.

If the effect of time is significant, provision is determined by discounting the future cash outflows required to settle the liability at a pre-tax discount rate that reflects current market assessments of the time value of money and the specific risks of the liability. The increase in the provision due to the passage of time is recognized as finance expenses.

The Company's provisions for payables only include provision for construction work warranties.

A provision for construction work warranties is recognized for each construction project subject to a warranty commitment.

The provision is measured at the rate of 3% on total value of the construction (previous year: 3%). The rate is estimated based on historical data on warranty costs incurred in previous periods and weighted rate of all the possible consequences with corresponding probability. Upon expiry of the warranty period, any unused or unutilized balance of the provision for construction work warranties is recognized as other income.

15. Owner's capital

The contributed capital is recorded according to the actual amounts invested by the shareholders.

16. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and voted to approve by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables after being voted to approve by the General Meeting of Shareholders and Announcement of dividend payment of the Board of Directors.

17. Recognition of revenue and income

Revenue from sales of merchandise

Revenue from sales of merchandise shall be recognized when all of the following conditions are satisfied:

- The Company transfers most of risks and benefits incident to the ownership of merchandise to customers.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise sold.
- The amount of revenue can be measured reliably. When the contracts stipulate that buyers have the right to return merchandise purchased under specific conditions, the revenue is recorded only when those specific conditions no longer exist and buyers retain no right to return merchandise (except for the case that such returns are in exchange for other merchandise or services).

These notes form an integral part of and should be read in conjunction with the Interim Financial Statements

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANY

Address: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Revenue from provisions of services

Revenue from provisions of services shall be recognized when all of the following conditions are satisfied:

- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, the revenue is recognized only when these specific conditions no longer exist and the buyers retain no right to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of revenue is done on the basis of the volume of work done as of the statement of financial position date.

Revenue from real estate sold in form of land plots

Revenue from real estate sold in form of land plots under irrevocable contracts shall be recognized when all of the following conditions are satisfied:

- the Company has transferred most of risks and benefits incidents to the ownership of the land use right to the buyer.
- the amount of revenue can be measured reliably.
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.
- the Company received or shall probably receive the economic benefits associated with the transaction.

Revenue from operating lease

Income from leases of operating assets is recognized in accordance with the straight-line method during the lease term. Rentals received in advance for several periods are allocated to revenues in consistence with the lease term.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

18. Construction contract

Construction contract is a contract agreed for acquisition of an asset or combined assets closely relevant or mutually dependent on their design, technology, function or basic using purpose.

When the results of the contract implementation can be estimated reliably:

- For construction contracts in which the contractor is entitled to pay according to construction progress: revenue and expenses relevant to the contracts are recognized to corresponding completed assignment determined by the Company as of the statement of financial position date.
- For construction contract in which the contractor is entitled to pay according to volume of work done: revenue and expenses relevant to the contracts are recognized to corresponding completed assignment determined by the customers and reflected in the invoices.

Increases/decreases in construction volume, compensations and other receivables are only recognized into revenue when these are mutually agreed with the customer.

VIETNAM TECHNOLOGY & TELECOMMUNICATION JOINT STOCK COMPANY

Address: No. 16th Floor, WTC Tower, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

When the results of the contract implementation cannot be estimated reliably:

- Revenue is only recognized equivalent to the contract's expenses and the payment is relatively reliable.
- The contract's expenses are only recognized as the expenses when they occur.

Difference between total accumulated revenue of construction contract recognized and the accumulated amount in the invoice of payment under the contract plan is recognized as receivable or payable under the contract plan.

19. Borrowing costs

Borrowing costs are interest and other costs that the Company directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the interest is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as borrowings are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the year, except for particular borrowings serving the purpose of obtaining a specific asset.

20. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

21. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the assessable income. The assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of assessable income in the future against which the temporarily deductible differences can be used.

INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2026

Notes to the Interim Financial Statements (cont.)

Carrying values of deferred corporate income tax assets are considered as of the statement of financial position date and will be reduced to the rate that ensures enough assessable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the statement of financial position date and are recorded when there is certainly enough assessable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the statement of financial position date. Deferred income tax is recognized in the Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Company shall offset deferred tax assets and deferred tax liabilities if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

22. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

23. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Financial Statements of the Company.
