NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. BUSINESS HIGHLIGHT

1.1 Structure of ownership

Machines And Industrial Equipment Corporation - JSC (hereinafter referred to as "the Corporation") was formerly a State Corporation with the name of Industrial Machinery and Equipment Corporation. Industrial Machinery and Equipment Corporation was established under Decision No. 155/HDBT dated May 12, 1990 of the Council of Ministers (now the Government) and re-established under Decision No. 1117/QD/TCCBDT dated October 27, 1995 of the Minister of Heavy Industry (now the Ministry of Industry and Trade). The Corporation was converted to operate under the model of Parent Company - Subsidiary Company under Decision No. 3168/QD-BCT dated June 15, 2010 of the Ministry of Industry and Trade. On November 16, 2015, the Ministry of Industry and Trade decided to determine the enterprise value of the Corporation to convert it to a Joint Stock Company under Decision No. 12494/QD-BCT.

Following the transfer of the state capital ownership representation rights to the State Capital Investment and Corporation (SCIC), MIE registered two changes to its business registration details, including: the 14th change on July 08, 2026 and the 15th change on July 13, 2026 issued by Business Registration Office - Hanoi Department of Finance

The Charter Capital of the Corporation is VND 1.419.915.000.000 VND (*In words: One thousand, four hundred and nineteen billion, nine hundred and fifteen million dong*)

Based on the number of shares held, the shareholder structure ratio at 30 June, 2026 is as follows

Shareholders	Number of Shares	Amount	Ownership ratio
- (SCIC)	141,384,680	1,413,846,800,000	99.5726%
- Staff	537,820	5,378,200,000	0.3788%
- Other	69,000	690,000,000	0.0486%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. ACCOUNTING PERIOD, CURRENCY

Annual Accounting period

The Corporation's annual accounting period is according to the calendar year, starting from January 1 and ending on December 31 of each year.

Currency unit used in accounting

The accompanying consolidated financial statements are presented in Vietnamese Dong (VND).

3. APPLICABLE ACCOUNTING SYSTEM

Applicable accounting system

The Corporation applies Business accounting system of Viet Nam issued under Circular No.99/2025/TT-BTC dated 27/10/2025 and No.43/2026/TT-BTC dated 20/4/2026 of the Ministry of Finance on "Guidelines for accounting policies for Enterprises"

Statement of complying with the accounting standard and accounting policies

The Corporation's Executive Board ensures that it has fully complied with the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting System issued and effective in preparing and presenting these Consolidated Financial Statements.

4. ACCOUNTING POLICIES

Basis for preparing consolidated financial statements

The consolidated financial statements of the Corporation are prepared in Circular No. 99/2025/TT-BTC dated 27/10/2025 and No.43/2026/TT-BTC dated 20/4/2026 of the Ministry of Finance on Guidance on methods of preparing and presenting consolidated financial statements, specifically:

The accompanying consolidated financial statements are presented in Vietnam Dong (VND), using the historical cost principle and in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and other relevant legal relating to the preparation and presentation of the consolidated financial statements.

The consolidated financial statements incorporate the financial statements of the Holding company and enterprises controlled by the Company (its subsidiaries) prepared for 30/06/2026. Control is achieved where the Corporation has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Corporation.

Intragroup transactions and balances are eliminated in full on consolidation.

The non-controlling interest in the consolidated subsidiary's net assets is identified as a separate item from the parent's equity. Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Principles for definition of cash and cash equivalents

Cash includes all cash on hand, cash in bank of the Company at the time of the Financial Statement.

Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

Financial investments

Trading securities

Trading securities include securities held for trading purposes (including securities with a maturity of more than 12 months that are bought and sold for profit), such as: Shares, bonds listed on the stock market; other types of securities and financial instruments

Trading securities are recorded at cost and determined at the fair value of the payments at the time of the transaction. The time of recording trading securities is the time when the Corporation has ownership, specifically as follows:

Listed securities are recorded at the time of the matching order (T+0);

Unlisted securities are recorded at the time of official ownership according to the provisions of law.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Corporation has the positive intent or ability to hold to maturity, including term deposits at banks held to maturity to earn periodic interest. Held-to-maturity investments are deposits with a maturity period longer than 3 months.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Investments in joint ventures, associates and other investments

Investments in joint ventures, associates over which the Corporation has significant influence are accounted for using the equity method.

Distributions from the accumulated profits of the associates received by the Corporation after the date of acquisition are recognized in the Corporation's income statement for the period. Other distributions are considered as a recovery of investments and are deducted from the investment value.

Other investments

These investments are stated at cost, which includes purchase prices and any directly attributable expenditures. After initial recognition, these investments are measured at cost less provision for diminution in value of the investments.

Provision for impairment of investments

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Provision for impairment of capital contributions to joint ventures, investments in associates and investments in equity instruments of other entities is made when there is solid evidence showing a decline in the value of these investments at the end of the accounting period.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is assessed and considered for receivables that are overdue and face difficulties in debt recovery, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are valued at cost, for those which have costs higher than the net realisable value, it must be calculated according to the net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The Corporation's inventory impairment provision is made when there is reliable evidence of a decline in the net realisable value compared to the cost of the inventory.

Tangible fixed assets accounting and depreciation principles

Tangible fixed assets are recognized at historical cost which are stated at cost less accumulated depreciation. Historical cost of a fixed asset includes all costs incurred by the Company to acquire the fixed asset up to the date it is ready for use.

Tangible fixed assets are amortized on a straight-line basis over their estimated useful lives. The specific depreciation period is as follows:

Assets	Second Quarter of 2026
Buildings and architectures	05 – 50
Machinery and equipments	05 – 20
Transportation means	06 – 30
Management tools	03 – 10

Tangible fixed assets accounting and depreciation principles (Continued)

When a fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off and any gains or losses arising from the liquidation are included in other income or other expenses during the year.

Intangible fixed assets accounting and depreciation principles

Intangible fixed assets of the Corporation is computer software which are stated at cost less accumulated amortization.

The cost of intangible fixed assets is all the costs that the Corporation has to spend to get it up to the time of putting the assets into the state of ready to use.

Computer software is amortized using the straight-line method over its estimated useful life of 5 years

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. ACCOUNTING POLICIES (CONTINUED)

Investment real estate assets accounting and depreciation principles

Investment properties are composed of land use rights, buildings and structures held by the Corporation to earn rentals or for capital appreciation. Investment properties held to earn rentals are stated at cost less accumulated depreciation.

The costs of investment properties comprise all the expenditures (cash and cash equivalents) paid by the Corporation or the fair value of other consideration given to acquire the investment property at the time of its acquisition or completion of construction.

The costs related to investment properties incurred after initial recognition must be recognized as operating expenses unless it is certain that these costs will increase the future economic benefits from the investment property beyond its originally assessed value, in which case they are added to the cost of the investment property.

Depreciation: Investment properties for rental are depreciated using the straight-line method to allocate the cost over the estimated useful life. The Corporation does not depreciate investment properties held for appreciation. The depreciation period is as follows:

	<u>Years</u>
Housing	40 - 50

Disposal: Gains and losses from the disposal of investment properties are determined as the difference between the net proceeds from disposal and the carrying amount of the investment properties and are recognised as income or expense in the Income Statement.

Consstruction in progress

Properties in the course of construction for production, rental and administrative purposes or for other purposes are carried at cost including any costs that are necessary to form the asset including service cost and interest expense related cost in accordance with the Corporation's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Prepaid expenses

Prepaid expenses are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepaid expenses of the Corporation include: tools, instruments, repair expenses and other expenses.

Tools and supplies issued for consumption, repair expenses and other expenses which are amortized on a straight – line method with an allocation period not exceeding 36 months.

Payables

The payables are monitored in detail by maturity terms, subjects, kind of currency and other factors according to management demand of the Corporation.

The payables include payable to suppliers, loans payables and other payables which are determined almost certainly about the recorded value and duration which are not less than the obligation payable, they are classified as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. ACCOUNTING POLICIES (CONTINUED)

- Trade payables includes commercial payables arising from the purchase of goods, services and assets between the Corporation and the seller (the independent unit of the Company, including amounts payable between the Holding company and its subsidiaries, joint ventures, associates);
- Other payables include non-commercial payables, non-related transactions of purchasing and selling of goods and services.

Principles of Unearned Revenue Recognition

Unearned revenue includes: Revenue received in advance (advance payments received from customers over multiple accounting periods for activities such as leasing assets, infrastructure).

Unearned revenue is allocated using the straight-line method, based on the number of periods for which payment has been received in advance.

Principles of Loan Recognition

Includes borrowings, excluding loans in the form of bond issuance or preferred shares with clauses obligating the issuer to repurchase at a specific point in the future.

The Corporation tracks loans in detail for each debtor and classifies them into short-term and long-term categories based on the repayment timeline.

Direct costs related to the loans are recognized as financial expenses, except for costs incurred from loans specifically used for investment, construction, or production of unfinished assets, which are capitalized.

Principles of Accrued Expenses Recognition

Accrued expenses refer to actual costs that have not yet been paid but may be allocated to production and business expenses in the current period to ensure compliance with the matching principle between revenue and expenses. When these expenses are actually incurred, any discrepancies (if any) are either additionally recorded or reversed accordingly.

Principles for recording dividends payable

Dividends are recorded as Liabilities when there is a dividend payment notice from the Board of Directors of the Corporation and notice of the closing date for receiving dividends from the Vietnam Securities Depository Center.

Principle for recognition of owners' equity

Owners' equity is recognized as the actual capital contributed to the Company.

Profit after corporate income tax is distributed to shareholders after the allocation of funds in accordance with the Corporation's Charter, legal regulations, and approval by the General Meeting of Shareholders.

Revenue recognition

Revenue from sale of goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- The Corporation has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. ACCOUNTING POLICIES (CONTINUED)

- It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from services

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the consolidated balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Construction Revenue

When the outcome of a construction contract can be reliably estimated:

- For construction contracts where the contractor is paid based on planned progress, revenue and expenses related to the contract are recognized in proportion to the work completed, as determined by the Company at the end of the accounting period.
- For construction contracts where the contractor is paid based on the value of work performed, revenue and expenses related to the contract are recognized in proportion to the work completed, as confirmed by the customer and reflected on the issued invoice.

Adjustments to construction volume, compensation claims, and other revenues are recognized as revenue only when agreed upon with the customer.

When the Outcome of a Construction Contract Cannot Be Reliably Estimated:

- Revenue is recognized only to the extent of the contract costs incurred for which payment is relatively certain.
- Contract costs are recognized as expenses only when they are incurred.

The difference between the cumulative revenue recognized from the construction contract and the cumulative amounts invoiced based on the planned progress of the contract is recorded as a receivable or payable based on the planned progress of the construction contracts.

Revenue from Operating Lease of Assets

Revenue from the operating lease of assets is recognized on a straight-line basis over the lease term. Lease payments received in advance for multiple periods are allocated to revenue in accordance with the lease term.

Financial Operating Revenue

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. ACCOUNTING POLICIES (CONTINUED)

Revenue from interest income be recognized when these two (2) conditions are met:

- It is probable that the economic benefits associated with the transaction will flow to the enterprise;
- The amount of revenue can be measured reliably.

Dividends and Distributed Profits

Dividends and distributed profits are recognized when the Corporation has the right to receive dividends or profits from its capital contributions. Dividends received in shares are only recorded by the number of shares increased, the value of shares received is not recorded.

Accounting Principles for Deductions from Revenue

Deductions from revenue include:

- Sales Discounts: Reductions granted to buyers due to inferior quality, defective goods, or non-conformity to specifications as stipulated in the economic contract. This does not include discounts already reflected in VAT invoices or sales invoices.
- Ales returned: Returns of goods due to breaches of commitments, violations of economic contracts, or issues with quality, deterioration, incorrect types, or non-compliance with specifications.

Principle for recognition of the cost of goods sold

Cost of goods sold is the total cost incurred of finished products, goods, services, investment real estate; production price of construction products in the period according to the principle of matching with revenue.

Financial expenses

The following expenses are recognized as financial expenses:

- Costs related to lending and borrowing activities;
- Losses from exchange rate fluctuations in transactions involving foreign currencies;
- Other financial expenses.

Principles and methods of recording current income tax expenses

Corporate income tax expense (or corporate income tax assets) is the total of current income tax expense and deferred income tax expense expected to be paid to (or recovered from) tax authorities when determining profit or loss for a period.

Current Corporate Income Tax Expense: This represents the corporate income tax payable calculated on taxable income during the period using the prevailing corporate income tax rate. The payable income tax is based on taxable income and the applicable tax rate for the reporting period. The difference between taxable income and accounting profit arises from adjustments made to reconcile differences between accounting profit and taxable income under the current tax regulations.

The company has an obligation to pay corporate income tax (CIT) for taxable income at the current tax rate of 20%.

The determination of the Corporation's income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of corporate income tax depends on the inspection results of the competent tax authority.

Basic Earnings Per Share

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Basic earnings per share (EPS) for common shares is calculated by dividing the profit or loss attributable to holders of common shares by the weighted average number of common shares outstanding during the reporting period.

Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions.

Parties are also considered to be related if they are subject to common control or common significant influence. To examine related party relationships, the nature of the relationship is more important than the legal form.

Segment Reporting

A segment is a distinguishable component of the Corporation engaged in providing related products or services (business segment) or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and returns that differ from those of other segments.

The Board of General Directors considers the Corporation's primary activity to be the supply and installation of industrial equipment, with operations primarily concentrated in the Hanoi area. Therefore, the Corporation does not present segment reports by business field or geographical area in accordance with Vietnamese Accounting Standard No. 28 - Segment Reporting.
