CIAS provides an explanation regarding the change of over 10% in profit after tax in the separate and consolidated business results reports for the second quarter of 2026 compared to the same period of the previous year, specifically as follows:

1. Separate financial statements for the second quarter of 2026:

- Profit after tax for the second quarter of 2026 is: 5,498,378,014 VND.
- Profit after tax for the second quarter of 2025 is: 660,265,803 VND.
- The difference compared to the same period in 2025 is: 4,838,112,211 VND; corresponding to an increase of 732.75%.

2. Consolidated financial statements for the second quarter of 2026:

- Profit after tax for the second quarter of 2026 is: 6,455,609,727 VND.

The main reasons for the increase of over 10% in profit after tax in the separate and consolidated financial statements for the second quarter of 2026 compared to the same period of the previous year:

Compared with the second quarter of 2025, the aviation market experienced a significant recovery, particularly on international routes, while CIAS achieved greater operational efficiency across its business locations. These were the primary factors driving an increase of over 10% year-on-year in profit after tax for the second quarter of 2026.

The above is the explanation provided by Cam Ranh International Airport Services Joint Stock Company regarding the financial variances in both the separate and consolidated financial statements for the second quarter of 2026.

Sincerely!
