Pursuant to the provisions of Section 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, Ton Dong A Corporation hereby would like to explain the reason for the difference in profit after corporate income tax in separate income statement for the second quarter of the year 2026 changing by 10% or more compared to the report of the same period last year.

In the second quarter of the year 2026, the company recorded growth with after-tax profit reaching VND 94.1 billion, an increase of VND 16.8 billion (equivalent to a 21.7% increase) compared to the second quarter of the year 2025.

Reason: In the context of the steel industry facing many challenges due to rising input material prices and intense competition, the company proactively optimized costs. As a result, financial costs decreased by 14%, selling expenses decreased sharply by 37.1%, and administrative expenses decreased by 10.2%. This effective cost-saving management helped after-tax profit in the second quarter of the year 2026 grow by 21.7% compared to the second quarter of the year 2025.

Thank you very much.
Best regards!
