Pursuant to the provisions of Section 4, Article 14 of Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance, Ton Dong A Corporation hereby would like to explain the reason for the difference in profit after corporate income tax in consolidated income statement for the secon quarter of the year 2026 Changing compared to the report of the same period last year.

In the second quarter of the year 2026, the company recorded growth with after-tax profit reaching VND 92.1 billion, an increase of VND 4.4 billion (equivalent to a 5% increase) compared to the second quarter of the year 2025.

Reason: In the context of the steel industry facing many challenges due to rising input material prices and intense competition, the company proactively optimized costs. As a result, financial costs decreased by 11.6%, selling expenses decreased sharply by 42.2%, and administrative expenses increase slight by 2.2%. This effective cost-saving management helped after-tax profit in the second quarter of the year 2026 grow by 5% compared to the second quarter of the year 2025.

Thank you very much.
Best regards!
