REPORT ON REVIEW OF THE FINANCIAL SAFETY RATIO REPORT

**To: The Shareholders
The Board of Directors, Board of Supervisors and Board of Management
Bao Minh Securities Joint Stock Company**

We have reviewed the accompanying financial safety ratio report of Bao Minh Securities Joint Stock Company ("the Company"), approved on 12 August 2026 as set out from pages 05 to 24. The report has been prepared in accordance with Circular No. 91/2020/TT-BTC ("Circular 91") issued by the Ministry of Finance on 13 November 2020 on financial safety ratio and actions against securities-trading organizations that fail to achieve the financial safety ratio, as amended and supplemented by Circular No.102/2025/TT-BTC ("Circular 102") issued by the Ministry of Finance on 29 October 2025.

The Board of Management's Responsibility

The Board of Management of the Company is responsible for preparing and presenting the financial safety ratio report in accordance with Circular 91 on financial safety ratio and actions against securities-trading organizations that fail to achieve the financial safety ratio, as amended and supplemented by Circular 102 and responsible for internal controls that the Board of Management determines as necessary to enable the preparation of financial safety ratio report that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the accompanying financial safety ratio report based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements (VSRE) 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity..

A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial safety ratio report as at 30 June 2026 do not present fairly, in all material respects, in accordance with Circular No. 91/2020/TT-BTC ("Circular 91") issued by the Ministry of Finance on 13 November 2020 on financial safety ratio and actions against securities-trading organizations that fail to achieve the financial safety ratio, as amended and supplemented by Circular No. 102/2025/TT-BTC ("Circular 102") issued by the Ministry of Finance on 29 October 2025.

REPORT ON REVIEW OF THE FINANCIAL SAFETY RATIO REPORT (Continued)

Basis of preparation and limits on use of financial safety ratio report

Without qualifying our conclusion, we draw the attention to the Note 2, which describes the basis for preparing the financial safety ratio report. This financial safety ratio report is prepared for the Company to comply with the requirements of competent authorities as prescribed in the Circular 91 on financial safety ratio and actions against securities-trading organizations that fail to achieve the financial safety ratio, as amended and supplemented by Circular 102. As a result, this financial safety ratio report may not be suitable for other purposes.

NOTES TO THE FINANCIAL SAFETY RATIO REPORT

These notes are an integral part of and should be read in conjunction with the accompanying financial safety ratio report

1. GENERAL INFORMATION

Capital ownership

Bao Minh Securities Joint Stock Company ("the Company") is a joint stock company established in Vietnam under the License for Establishment and Operation No. 90/UBCK-GP dated 21 April 2008 issued by the State Securities Commission and the latest adjusted Establishment and Operation License No. 84/GPĐC-UBCK dated 08 July 2026.

The company is registered to trade shares on the UPCoM market at the Hanoi Stock Exchange with the stock code of BMS, according to the Decision No. 492/QĐ-SGDHN dated 01 August 2018. As of 30 June 2026, the Company's approved charter capital is VND 2,039,326,520,000 (as of 31 December 2025: VND 2,039,326,520,000).

The total number of employees of the Company as at 30 June 2026 was 65 (as at 31 December 2025: 49).

The Company's head office is located 3rd Floor, Pax Sky Building, 34A Pham Ngoc Thach, Xuan Hoa Ward, Ho Chi Minh City, Vietnam. The Company also operates one (01) dependent branch, the Hanoi Branch, which is located on the 3rd Floor at 303-305 Pho Hue Street, Hai Ba Trung Ward, Hanoi City, Vietnam.

The Company's Charter

The Company's Charter amended was issued on 24 June 2026.

Operating industry and principal activities

The principal activities of the Company are securities brokerage service, securities trading, securities issuance guarantee, securities depository, financial advisory services and securities investment consulting.

Normal business cycle

The Company's normal business cycle is carried out for a time period of 12 months or less.

2. BASIS OF PREPARATION AND ACCOUNTING PERIOD

Basis of preparing financial safety ratio report

The accompanying financial safety ratio report is prepared in accordance with Circular No. 91/2020/TT-BTC ("Circular 91") issued by the Ministry of Finance on 13 November 2020 on financial safety ratio and actions against securities-trading organizations that fail to achieve the financial safety ratio, as amended and supplemented by Circular No. 102/2025/TT-BTC ("Circular 102") issued by the Ministry of Finance on 29 October 2025 and relevant prevailing regulations in Vietnam.

This financial safety ratio report is prepared on the basis of the financial safety ratio report of the Company for submission to competent authorities. Therefore, this financial safety ratio report may not be suitable for other purposes.

The financial safety ratio report is prepared on the basis of reviewed interim financial statements for the 6-month period ended 30 June 2026.

Accounting period

The Company's financial year begins on 1 January and ends on 31 December.

The Company's interim financial statements are prepared for period from 1 January to 30 June each year.

3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT

The significant accounting policies, which have been adopted by the Company in the preparation of this financial safety ratio report, are as follows:

3.1 Liquidity capital ratio

Liquidity capital ratio of the Company is determined under Circular 91 (as amended and supplemented by Circular 102) as follows:

$$\text{Liquidity capital ratio} = \frac{\text{Liquid capital} \times 100\%}{\text{Total exposures to risks}}$$

In which, total exposures to risks are the sum of exposures to market risk, settlement risk, and operational risk.

3.2 Liquid capital

Liquid capital is the total equity that can be converted into cash within ninety (90) days. Liquid capital shall be adjusted to increase or decrease according to the instructions in Article 5 and Article 7 of Circular 91 (as amended and supplemented by Circular 102).

3.3 Exposures to market risk

Exposures to market risk are equivalent to the potential losses which may be incurred when the market value of the assets owned and expected to be owned by the Company according to underwriting commitment fluctuates in a negative trend. Exposures to market risk is determined in accordance with Circular 91 (as amended and supplemented by Circular 102) as follows:

$$\text{Exposures to market risk} = \text{Net position} \times \text{Asset price} \times \text{Market risk coefficient}$$

Net position of a security at a specific time is the net quantity of securities currently held by the Company, after deducting the number of lent securities and adding the number of securities borrowed in accordance with prevailing regulations.

The Company do not determine exposures to market risk for the following assets and securities:

- Treasury shares;
- Securities issued by the Company's related parties;
- Restricted securities with the remaining restriction period of more than ninety (90) days from the date of valuation;
- Bonds, debts instruments, valuable papers in the money market at maturity;

Asset price

Asset prices are determined according to the valuation principle specified in Circular 91 (as amended and supplemented by Circular 102) as follows:

No.	Type of assets	Valuation principles for market transactions
Cash and cash equivalent, money market instruments		
1.	Bank deposits (VND)	Value equals the account balance on the valuation date
2.	Foreign currencies	Value converted into VND at the exchange rate quoted by credit institutions licensed for foreign exchange business on the valuation date
3.	Term deposits	Deposit value plus accrued interest
4.	Treasury bills, bank drafts, commercial bills, transferable certificates of deposit, bonds and discounted money market instruments	Purchase price plus accrued interest
Bonds		
5.	Listed bonds	- Average price on the most recent trading day plus accrued interest from the most recent coupon payment date to the trading date (if the average price does not include accrued interest); - If the bond has no transaction for more than 15 days before the valuation date, or is delisted, its value shall be the highest among the following: + Price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest; + Purchase price plus accrued interest; + Par value plus accrued interest; + Value determined under the internal regulations of the securities trading organization, including accrued interest.
6.	Unlisted bonds	- Average price of the bond quoted on the trading system of the Stock Exchange on the most recent trading day plus accrued interest from the most recent coupon payment date to the trading date (if the average price does not include accrued interest); - If the bond is not traded on the centralized trading system of the Stock Exchange, or has no transaction for more than 15 days before the valuation date, or is deregistered from trading, its value shall be the highest among the following: + Price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest; + Purchase price plus accrued interest; + Par value plus accrued interest; + Value determined under the internal regulations of the securities trading organization, including accrued interest.
Shares		
7.	Listed shares	- Closing price (or equivalent term under the Exchange's Regulations) of the most recent trading day before the valuation date; - If there is no transaction for more than 15 days before the valuation date, or the share is delisted, its value shall be the highest among the following: + Book value; + Purchase price; + Value determined under the internal regulations of the securities trading organization.

No.	Type of assets	Valuation principles for market transactions
8.	Shares of public companies registered for trading on the UPCoM system	- Reference price (or equivalent term under the Exchange's Regulations) of the most recent trading day before the valuation date; - If there is no transaction for more than 15 days before the valuation date, or the share is deregistered from trading, its value shall be the highest among the following: + Book value; + Purchase price; + Value determined under the internal regulations of the securities trading organization.
9.	Shares registered for depository but not listed and not registered for trading	- Average price based on quotations of at least 3 securities companies that are not related persons on the most recent trading day before the valuation date; - If fewer than 3 quotations of securities companies are available, the value shall be the highest among the following: + Value from available quotations; + Price of the nearest reporting period; + Book value; + Purchase price; + Value determined under the internal regulations of the securities trading organization.
10.	Shares under trading suspension, delisting, or deregistration for trading	- Price shall be the highest among the following: + Price of the nearest valuation period but not exceeding 90 days before the valuation date; + Book value; + Par value; + Value determined under the internal regulations of the securities trading organization.
11.	Shares of organizations undergoing dissolution or bankruptcy	80% of the liquidation value of such shares (the share value distributed as announced by the dissolving or bankrupt organization, or book value) as at the most recent balance sheet date, or the value determined under the internal regulations of the securities trading organization.
12.	Equity interests and other contributed capital	- Price shall be the highest among the following: + Book value; + Purchase price/contributed capital value; + Value determined under the internal regulations of the securities trading organization.
Securities investment fund certificates/Shares of securities investment companies		
13.	Listed public fund certificates/Shares of public securities investment companies	- Closing price (or equivalent term under the Regulations issued by the Stock Exchange) of the most recent trading day before the valuation date; - If there is no transaction for more than 15 days before the valuation date, or delisting occurs due to transfer of listing between Stock Exchanges, the value shall be the highest among the following: + Net asset value per fund certificate/share as publicly disclosed under regulations at the most recent date before the valuation date; + Purchase price; + Value determined under the internal regulations of the securities trading organization.
14.	Member funds/Shares of private securities investment companies	Net asset value per capital contribution unit/share as at the most recent reporting or valuation period before the valuation date.

No.	Type of assets	Valuation principles for market transactions
15.	Unlisted public fund certificates	Net asset value per fund certificate as publicly disclosed under regulations at the most recent date before the valuation date.
16.	Other cases	According to the internal regulations of the securities trading organization.
Fixed assets		
17.	Land use rights	Value determined by an independent valuation organization selected by the securities trading organization.
18.	Buildings and structures including Construction in progress	Value determined by the independent valuation entity selected by the securities trading organization/Accumulated construction in progress.
19.	Equipment, machinery, transportation, etc.	Residual value of assets.
20.	Other fixed assets	Value determined by the independent valuation organization selected by the securities trading organization.
Other securities		
21.	Covered warrants issued by the securities business institution	- Closing price of the latest trading day prior to the valuation date; - Purchase price (in case of unlisted secured warrants).
22.	Shares listed on foreign markets	- Price (in foreign currency) × conversion exchange rate on the valuation date; - Closing price on the most recent trading day before the valuation date; - If there is no transaction for more than 15 days before the valuation date, the value shall be the highest among the following: + Book value; + Purchase price; + Value determined under the internal regulations of the securities trading organization.

Market risk coefficient

Market risk coefficient is determined for each asset item in accordance with Circular 91 (as amended and supplemented by Circular 102) presented in Note 4.

Supplemental exposures to market risk

Exposures to market risk of each asset as determined in accordance with the above regulations are increasingly adjusted in case that the Company over invests excessively in that asset, except for securities under firm-commitment underwriting, Government bonds, and Government-guaranteed bonds. The market risk value shall be increased according to the following principles:

- An increase by 10% if the value of this investment value in securities or contributed capital of an organization accounts for more than 10% to 15% of the owners' equity of the Company;
- An increase by 20% if the value of this investment value in securities or contributed capital of an organization accounts for more than 15% to 25% of the owners' equity of the Company;
- An increase by 30% if the value of this investment value in securities or contributed capital of an organization accounts for more than 25% of the owners' equity of the Company.

Dividends, coupons, preference right of shares (if any) or interest of deposits, cash equivalents, negotiable instruments and valuable papers shall be added to the value of asset for the purpose of determining the exposures to market risk.

3.4 Settlement risk coefficient

The settlement risk value is the value equivalent to a loss likely to be incurred when the counterparty is unable to pay on time or transfer assets on time as committed. The settlement risk value is determined at the end of the trading day of contracts and transactions as follows:

The settlement risk value before the payment term for receiving the transfer of securities, cash and liquidating the contract is determined as follows:

$$\text{The settlement risk value before the payment term} = \text{Counterparty Settlement risk coefficient} \times \text{Value of potential payment risk assets}$$

The above principle of determining the settlement risk value before the payment term applies to the following contracts:

- Term deposits at credit institutions, certificates of deposit issued by credit institutions, and funds on the securities trading accounts of fund management companies opened at securities companies;
- Security borrowing agreement in accordance with the regulations of law;
- The securities sale contract contains a commitment to repurchase securities in accordance with the law and regulations;
- The securities purchase contract contains a commitment to resell securities in accordance with the regulations of law;
- Buying on margin contract in accordance with the regulations of law;
- Firmly-committed underwriting contracts in the form of commitment signed with other institutions in a syndicated underwriting contract in which the Company is the principal underwriter;
- Receivables arising from securities business activities in accordance with law, and receivables from the sale of listed securities in financial investment activities of fund management companies;
- Receivables from mature bonds, valuable papers, mature debt instruments that have not yet been paid;
- The overdue transferred asset, including securities in the business activities of securities trading organizations, securities of customers in securities brokerage activities; and
- Receivables from debt trading transactions with counterparties other than the Vietnam Asset Management Company (VAMC) and the Vietnam Debt and Asset Trading Corporation (DATC).

For overdue receivables, securities that have not been transferred on time, including securities, uncollected cash from the above contracts, the exposures to settlement risk is determined according to the following principle:

$$\text{Exposures to settlement risk} = \text{Settlement risk coefficient by time} \times \text{Value of assets exposed to settlement risk}$$

The settlement risk coefficient by partners specified in Circular 91 is as follows:

No.	Payment partners for securities trading organizations	Settlement risk coefficient
1.	Governments, government-guaranteed issuers, and central banks of OECD countries; People's Committees of provinces and cities under the central government.	0%
2.	Stock Exchange, Securities Depository	0.8%
3.	Credit institutions, financial institutions, securities trading organizations established in OECD countries and having credit ratings that meet other conditions according to internal regulations of securities trading organizations	3.2%

No.	Payment partners for securities trading organizations	Settlement risk coefficient
4.	Credit institutions, financial institutions, securities trading organizations established in OECD countries and having credit ratings that fail to meet other conditions according to internal regulations of securities trading organizations	4.8%
5.	Credit institutions, financial institutions, securities trading organizations established and operating in Vietnam	6%
6.	Other organizations and individuals	8%

The settlement risk coefficient by time is specified in Circular 91 is as follows:

No	Overdue time for payment, transfer of securities	Risk coefficient
1.	0 - 15 days after the date of payment, transfer of securities	16%
2.	16 - 30 days after the date of payment, transfer of securities	32%
3.	31 - 60 days after the date of payment, transfer of securities	48%
4.	60 days or more after the date of payment, transfer of securities	100%

Settlement/transfer period of securities according to regulations on derivative securities (for derivative securities), is T+2 (for listed shares), T+1 (for listed bonds); T+n (for transactions outside the official trading system within n days under agreement of both parties).

Value of assets exposed to settlement risk

Value of assets exposed to settlement risk in borrowing activities, securities lending, margin transactions, repo transactions

No.	Transaction type	Value of assets exposed to settlement risk
1.	Term deposits, certificates of deposit, unsecured loans	Total outstanding balance of deposit accounts, certificates of deposits, total loan value, total value of the contract, transaction plus dividends, interests, rights (for securities) or interests from deposits, loans, fees (for credit granting)
2.	Securities lending	Max {(Market value of the contract - Collateral value (if any)), 0}
3.	Securities borrowing	Max {(Collateral value - Market value of the contract), 0}
4.	Reverse repurchase agreements	Max {(Contract value based on purchase price - Market value of the contract x (1 - Market risk coefficient)), 0}
5.	Repurchase agreements	Max {(Market value of the contract x (1 - Market risk coefficient) - Contract value based on selling price), 0}
6.	Buying on margin contracts (loans to customers to purchase securities)/ Other economic agreements with the similar nature	Max {(Outstanding balance - Collateral value (if any), 0}

Outstanding loan balance includes outstanding principal, interest and other fees.

The value of collateral assets is determined according to market price. In case the value of collaterals does not have any reference price in the market, its value is determined by the internal methods of the securities-trading organizations.

Value of assets exposed to settlement risk in securities trading:

No.	Period	Value of assets exposed to settlement risk
A - For sales of securities (seller is the securities-trading organizations or its customers under the securities brokerage activities)		
1.	Before the settlement date	0
2.	After the settlement date	Market value of the contract (if Market value is less than Trading value)
		0 (if Market value is greater than Trading value)
B - For purchase of securities (buyer is the securities-trading organizations or its customers)		
1.	Before the securities transfer date	0
2.	After the securities transfer date	Market value of the contract (if Market value is less than Trading value)
		0 (if Market value is greater than Trading value)

Settlement/transfer period of securities is T+2 (for listed shares), T+1 (for listed bonds); or T+n (for transactions outside the official trading system within n days under agreement of both parties).

Value of assets exposed to settlement risk for receivables, bonds, debt instruments at maturity: is the value of receivables calculated based on face value, plus accrued interest, related costs and less cash previously received (if any).

Decreases to value of assets exposed to settlement risk

The value of collaterals shall be deducted from the Company's value of assets exposed to settlement risk, in determination of value of assets exposed to settlement risk as specified under Clause 1, Article 10, Circular 91 (as amended and supplemented by Circular 102), if the related contracts and transactions satisfy the following conditions:

- Counterparties or customers secure their obligations using collaterals being cash, cash equivalents, valuable papers, negotiable instruments on the money market, securities listed and registered on the Stock Exchange, Government bonds, Bonds guaranteed by the Ministry of Finance;
- The securities trading organization has rights to control, manage, use, and transfer collaterals if counterparties fail to make sufficient and timely payments as agreed in the contracts.

Value of assets subjected to deduction is determined as follows:

Collateral value = Quantity of asset * Asset price * (1 – Market risk coefficient)

Value of assets is determined in accordance with regulations of Circular 91 (as amended and supplemented by Circular 102) as presented in Note 3.

The market risk coefficient is determined in accordance with regulations of Circular 91 (as amended and supplemented by Circular 102) as presented in Note 4.

Supplemental exposures to settlement risk

Exposures to settlement risk are increasingly adjusted in the following cases:

- a) Increased by 10% if the total borrowing from an organization, an individual and a group of related organizations/individuals (if any) accounts for more than 10% to 15% of the owners' equity;
- b) Increased by 20% if the value of borrowing from an organization, an individual and a group of related organizations/individuals (if any) accounts for more than 15% to 25% of the owners' equity;
- c) Increased by 30% if the value borrowing from an organization, an individual and a group of related organizations/individuals (if any) accounts for more than 25% of the owners' equity.

3.5 Exposures to operational risk

Exposures to operational risk are the potential losses which may occur due to technical errors, system errors and operational processes, human errors during task performance, or due to the lack of capital resulting from expenses, losses arising from investment activities, or other objective reasons.

Exposures to operational risk of the securities-trading organizations is determined at the higher of: 25% of the securities trading organization's expenses for calculating operational risk within twelve (12) consecutive months up to the month before reporting date and 20% of the securities trading organization's minimum charter capital for business operations as regulated by law.

The Company's expenses for calculating operational risk are determined from total expenses incurred in the period less:

- a) Depreciation and amortization expenses;
- b) Expense/Reversal of provision for impairment of short-term financial assets and collaterals;
- c) Expense/Reversal of provision for impairment of long-term financial assets;
- d) Expense/Reversal of provision for impairment of receivables;
- e) Expense/Reversal of provision for impairment of other current assets;
- f) Loss from revaluation of financial assets at fair value through profit/loss;
- g) Interest expenses;
- h) Expenses arising from the revaluation of outstanding warrant payables;
- i) Unrealized foreign exchange losses or gains;
- j) Finance costs and other non-cash expenses incurred in the securities company's operating activities.
