Re: Explain the difference in profit after corporate income tax compared to the same period last year on reviewed financial statements for the six –month period ended 30 June 2026

Ho Chi Minh City, 12 August 2026

**To: STATE SECURITIES COMMISSION OF VIET NAM
HANOI STOCK EXCHANGE**

Dear State Securities Commission of Vietnam and Hanoi Stock Exchange.

Duc Trung Investment Joint Stock Company sends to the State Securities Commission of Vietnam and the Hanoi Stock Exchange this dispatch to explain the difference in profit after corporate income tax compared to the same period last year on reviewed financial statements for the six –month period ended 30 June 2026 of the company as follows:

Unit: VND

No	Item	2026	2025	Variance
1	Profits after corporate income tax	123,076,244	142,616,546	(19,540,302)

During the first six months of 2026, the Company continued to leverage the strengths of its core business operations, resulting in robust growth in gross profit for the second quarter, which increased significantly compared with the same period of the previous year. However, profit after tax for the first six months of 2026 declined year-on-year, primarily due to lower financial income during the period, coupled with an increase in administrative expenses, which adversely affected the Company's overall profitability.

Duc Trung Investment Joint Stock Company explained to the State Securities Commission of Vietnam and the Hanoi Stock Exchange.

Best regards!
