JOINT STOCK COMPANY**

**THE SOCIALIST REPUBLIC OF VIETNAM
Independence - Freedom - Happiness**

No.: 242/CT-TCKT

Dong Nai, August 14, 2026

*Regarding the explanation about the profit for the
first 6 months of 2026*

To:

- The State Securities Commission;
- Hanoi Stock Exchange.

IDICO Srok Phu Mieng Hydropower Joint Stock Company has thanked for the interest and support of the State Securities Commission and Hanoi Stock Exchange for along time.

According to the regulations of Circular 96/2020/TT-BTC dated November 16, 2020, IDICO Srok Phu Mieng Hydropower Joint Stock Company (IDICO-SHP) explains that the business results for the first 6 months of 2026 and the after-tax corporate income profit for the first 6 months of 2026 increase by over 10% compared to the first 6 months of 2025, specifically as follows:

The after-tax corporate income profit in the first 6 months of 2026 of the company is 26,129 million VND, an increase of 4,691 million VND, corresponding to an increase of 22% compared to the first 6 months of 2025. The reasons are as follows:

- In the first 5 months of 2026, the water inflow to the Srok Phu Mieng hydropower reservoir was higher than the same period in 2025; therefore, the Company's electricity production and revenue for the first 6 months of 2026 were higher than the same period in 2025 (*the electricity revenue was 70,003 million VND, an increase of 2,697 million VND, corresponding to an increase of 4% compared to the same period in 2025*);

- The Company's expenses for the first 6 months of 2026 were 44,688 million VND, a decrease of 4% compared to the same period of 2025;

- The company's revenue primarily comes from electricity production activity; therefore, the impact of weather conditions is the most significant factor affecting the overall business operations of the company.

The above is the explanation from IDICO-SHP.

Sincerely.
