*Re: Explanation of the fluctuation in profit in the
reviewed financial statements for the first 6 months
of 2026 compared to the reviewed financial
statements for the first 6 months of 2025*

Tay Ninh, August 14 , 2026

To: Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance guiding the disclosure of information on the securities market;

Long An Water Supply Sewerage Joint Stock Company would like to provide an explanation:

- The fluctuation in profit after corporate income tax in the reviewed financial statements for the first 6 months of 2026 has a difference of 10% or more compared to the reviewed financial statements for the first 6 months of 2025.

Unit: Million VND

No.	Content	Reviewed 6 months 2026	Reviewed 6 months 2025	Difference	Ratio
1	The profit after corporate income tax	19,606	22,180	2,574	88.39%

The fluctuation in profit after tax for the first 6 months of 2026 represents a decrease of 11.61% compared to the same period last year. This result reflects the impact of increased key operating expenses to serve the company's long-term operational strategy. Specifically, selling expenses increased as the company stepped up customer outreach and support solutions. At the same time, to optimize performance and ensure the safety of technical infrastructure systems, the company carried out major periodic upgrades and repairs of key fixed assets, leading to significantly higher repair costs compared to the same period and reducing the net profit margin in the reporting period.

The above is the explanation from Long An Water Supply Sewerage Joint Stock Company regarding the fluctuation in profit after tax in the reviewed financial statements for the first 6 months of 2026 compared to the reviewed financial statements for the first 6 months of 2025, submitted to the Hanoi Stock Exchange and for the information of shareholders.
