

**LONG AN WATER SUPPLY SEWERAGE
JOINT STOCK COMPANY**

SOCIALIST REPUBLIC OF VIETNAM
Independence – Freedom – Happiness

No.: 2470/CVCN- KTTV

*Re: Explanation of fluctuation in
increase/decrease of profit after tax before and
after review*

Tay Ninh, August 14, 2026

To: Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance guiding the disclosure of information on the securities market;

Long An Water Supply Sewerage Joint Stock Company would like to explain the fluctuation in profit after corporate income tax in the reviewed semi-annual financial statements for 2026, which shows a difference of 5% or more before and after the review.

Unit: Million VND

No.	Content	Before review	After review	Difference	Ratio
1	The profit after corporate income tax	21.908	19.606	2.302	89,49%

Profit after tax after the audit differs by 5% compared to the pre-audit figures. The main reason is that when preparing the pre-audit financial statements, the Company had not fully recorded the corporate income tax expenses. After the audit, the Company supplemented the corporate income tax expenses according to the restated figures, leading to a corresponding decrease in profit after tax.

Above is the explanation from Long An Water Supply Sewerage Joint Stock Company regarding the fluctuation in profit after tax in the 2026 financial statements before and after the review, submitted to the State Securities Commission, the Hanoi Stock Exchange, and for the shareholders' information.

Recipient:

- Hanoi Stock Exchange
