Compared to 2025, the financial indicators on the interim combined financial statements of 2026 fluctuated due to the following main reasons:

- Increased commercial trading of agricultural products led to higher efficiency in core business operations;
- Exchange rate fluctuations resulted in lower financial costs;
- Recovery of bad debts boosted efficiency from other activities;
- Regarding operating expenses (administrative and selling): selling expenses associated with export and domestic operations rose, leading to an increase in total operating expenses.
