Board of Directors

Ms. Pham Minh Huong	Chairwoman
Mr. Vu Hoang Ha	Member
Ms. Do Thanh Huong	Member
Mr. Park Ki Hyun	Member
Mr. Ko Young Joo	Member
Mr. Nguyễn Anh Duc	Member
Mr. Kim Nahm Yoon	Member
Ms. Hoang Thuy Nga	Member
Ms. Hoang Thi Yen	Member

Supervisory Board

Ms. Nguyen Thi Ha Ninh	Head of the Supervisory Board
Ms. Nguyen Thi Huong Thao	Member
Mr. Ko Dong Gi	Member
Ms. Nguyen Thi Thuy Giang	Member
Mr. Kim Jin Ho	Member (appointed on 22 April 2026)
Mr. Yoo Jang Hee	Member (resigned on 22 April 2026)

Executive Board

Ms. Hoang Thi Yen	Chief Executive Officer
Ms. Luu Phuong Lan	Permanent Executive Officer / Chief Governance Insurance Officer
Mr. Dieu Ngoc Tuan	Permanent Executive Officer / Chief Governance Officer
Mr. Le Xuan Bach	Executive Officer / Chief Operating Officer
Mr. Vu Hoang Long	Executive Officer
Ms. Pham Viet Ha	Executive Officer for Business operations
Ms. Dang Thi Hong Van	Executive Officer for Business operations

STATEMENT OF THE EXECUTIVE BOARD (Continued)

EXECUTIVE BOARD'S STATEMENT OF RESPONSIBILITY

The Executive Board of the Corporation is responsible for preparing the interim consolidated financial statements, which give a true and fair view of the consolidated financial position of the Corporation as at 30 June 2026, and its consolidated financial performance and its consolidated cash flows for the 6-month period then ended in accordance with Vietnamese accounting standards, accounting regime applicable to insurance enterprises in Vietnam and legal regulations relating to interim consolidated financial reporting. In preparing these interim consolidated financial statements, the Executive Board is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the interim consolidated financial statements;
- Prepare the interim consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Corporation will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the interim consolidated financial statements so as to minimise errors and frauds.

The Executive Board of the Corporation is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Corporation and that the interim consolidated financial statements comply with Vietnamese accounting standards, accounting regime applicable to insurance enterprises in Vietnam and legal regulations relating to interim consolidated financial reporting. The Executive Board is also responsible for safeguarding the assets of the Corporation and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Executive Board confirms that the Corporation has complied with the above requirements in preparing these interim consolidated financial statements.

For and on behalf of the Executive Board: 

Hoang Thi Yen
Legal representative

Hanoi, 28 August 2026

No.: 0319/VN1A-HN-BC

REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To: **The Shareholders**
Board of Directors, Supervisory Board and Executive Board
Post and Telecommunication Joint Stock Insurance Corporation

We have reviewed the accompanying interim consolidated financial statements of Post and Telecommunication Joint Stock Insurance Corporation (the "Corporation"), approved on 28 August 2026 as set out from page 05 to page 56, which comprise the interim consolidated statement of financial position as at 30 June 2026, the interim consolidated income statement and interim consolidated cash flow statement for the 6-month period then ended, and a summary of significant accounting policies and other explanatory information.

Executive Board's Responsibility for the Interim Consolidated Financial Statements

The Executive Board is responsible for the preparation and fair presentation of these interim consolidated financial statements in accordance with Vietnamese accounting standards, accounting regime applicable to insurance enterprises in Vietnam and legal regulations relating to interim consolidated financial reporting, and for such internal control as the Executive Board determines is necessary to enable the preparation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the accompanying interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements (VSRE) 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Corporation as at 30 June 2026, and its consolidated financial performance and its consolidated cash flows for the 6-month period then ended in accordance with Vietnamese accounting standards, accounting regime applicable to insurance enterprises in Vietnam and legal regulations relating to interim consolidated financial reporting.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

These notes are an integral part of and should be read in conjunction with the accompanying interim consolidated financial statements

1. GENERAL INFORMATION

Structure of ownership

Post and Telecommunication Joint Stock Insurance Corporation (the "Corporation") was incorporated and has operated under Operation Licence No. 3633/GP-UB dated 01 August 1998 issued by Hanoi People's Committee and the latest amended Operation Licence No. 41A/GPDC33/KDBH dated 13 March 2025.

The total number of employees of the Corporation and its subsidiary as at 30 June 2026 was 2,133 (as at 31 December 2025: 2,134).

Business industry and principal activities

Business industry of the Corporation includes non-life insurance services and financial services.

The Corporation's principal activities include:

- Non-life insurance business;
- Re-insurance business;
- Financial investments; and
- Other activities in accordance with the Operation Licence.

Normal operating cycle

The Corporation's normal operating cycle is carried out for a time period of 12 months or less.

The Corporation's structure

As at 30 June 2026, the Corporation has a main office located at No. 95, Tran Thai Tong Street, Cau Giay Ward, Hanoi; 02 (two) representative offices for claim appraisal in Hanoi and Ho Chi Minh cities; 01(one) Southern representative office and 54 (fifty-four) branches nationwide directly under the Corporation.

The list of the Corporation's subsidiary and associates as at 30 June 2026 are as follows:

Name of Company	Place of incorporation and operation	Proportion of ownership interest (%)	Proportion of voting power held (%)	Main business
Subsidiary				
- Post Real Estate Joint Stock Company	Hanoi	97.6	97.6	Real estate investment; financial investments
Associate				
- Kasati Joint Stock Company	Ho Chi Minh	21.3	21.3	Telecom, informatics and electronic devices

Disclosure of information comparability in the interim consolidated financial statements

Comparative figures of the interim statement of financial position and corresponding notes are the figures of the audited consolidated financial statements for the year ended 31 December 2025. Comparative figures of the interim income statement, interim cash flow statement and corresponding notes are the figures of the reviewed interim consolidated financial statements for the 6-month period ended 30 June 2025.

As presented in Note 03, the Corporation has applied Circular No. 99 prospectively. Accordingly, certain comparative figures have been reclassified to align with the presentation requirements under Circular No. 99, as detailed below:

Items	Reported amount	Adjustment	Reclassification
	VND	VND	VND
Statement of financial position as at 31 December 2025			
Short-term financial investments	2,902,148,964,156	89,822,004,045	2,991,970,968,201
Short-term investments	2,902,148,964,156	89,822,004,045	2,991,970,968,201
Other receivables	294,578,979,028	(107,066,122,397)	187,512,856,631
Long-term financial investments	1,179,365,701,714	17,244,118,352	1,196,609,820,066
Other long-term investments	1,146,855,168,168	17,244,118,352	1,164,099,286,520

2. ACCOUNTING CONVENTION AND ACCOUNTING PERIOD

Accounting convention

The accompanying interim consolidated financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese accounting standards, accounting regime applicable to insurance enterprises in Vietnam and legal regulations relating to interim consolidated financial reporting.

The interim consolidated financial statements are prepared based on consolidation of interim separate financial statements of the Corporation and its subsidiaries' interim financial statements.

The accompanying interim consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

The Corporation also prepares separate interim financial statements. Users of the financial statements should read this interim consolidated financial statement together with the separate interim financial statements for the six-month period ended 30 June 2026 in order to obtain comprehensive information on the Corporation's operations.

Accounting period

The Corporation's financial year begins on 01 January and ends on 31 December.

These interim consolidated financial statements are prepared for the 6-month period ended 30 June 2026.

3. ADOPTION OF NEW ACCOUNTING GUIDANCE

New guidance on the accounting regime for enterprises

Circular No. 232/2012/TT-BTC dated 28 December 2012 issued by the Ministry of Finance provides accounting guidance applicable to non-life insurance enterprises and reinsurance enterprises. On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99"), providing guidance on the accounting regime for enterprises. This Circular is effective for financial years beginning on or after 1 January 2026. Circular 99 supersedes the regulations on the enterprise accounting regime promulgated under Circular No. 200/2014/TT-BTC issued by the Ministry of Finance on 22 December 2014. The Board of Management has applied Circular 99 in the preparation and presentation of the financial statements for the period ended 30 June 2026 with respect to matters not specifically guided by Circular No. 232/2012/TT-BTC.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Corporation in the preparation of these interim consolidated financial statements, are as follows:

Estimates

The preparation of interim consolidated financial statements in conformity with Vietnamese accounting standards, accounting regime applicable to insurance enterprises and legal regulations relating to interim financial reporting requires the Executive Board to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these accounting estimates are based on the Executive Board's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The interim consolidated financial statements incorporate the consolidated financial statements of the Corporation and enterprise controlled by the Corporation (its subsidiary) for the 6-month period ended 30 June 2026. Control is achieved where the Corporation has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiary to bring the accounting policies used in line with those used by the Corporation.

Intra-group transactions and balances between the Corporation and its subsidiary are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination (see below) and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Investments in associates

An associate is an entity over which the Corporation has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these interim consolidated financial statements using the equity method of accounting. Interests in associates are carried in the interim consolidated statement of financial position at cost as adjusted by post-acquisition changes in the Corporation's share of the net assets of the associate. Losses of an associate in excess of the Corporation's interest in that associate (which includes any long-term interests that, in substance, form part of the Corporation's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Corporation, unrealised profits and losses are eliminated to the extent of the Corporation's interest in the relevant associate.

Financial instruments

Initial recognition

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets.

Financial assets of the Corporation comprise cash, short-term and long-term investments, trade receivables and other receivables.

The fair value of cash is stated at its carrying amount. The fair value of the receivables is measured at cost less provision.

The fair value of the investments is determined as follows:

- The fair value of listed securities is determined according to the average trading price on the Hanoi Stock Exchange (HNX) or the closing price on the Ho Chi Minh Stock Exchange (HOSE) at the period-end date.
- The fair value of securities which have been registered for trading in the market of unlisted public company (UPCoM) is determined according to the average reference price of the latest 30 consecutive days before the period-end date. For the securities which not traded in 30 consecutive days before the period-end date, fair value is determined by the net asset value method based on the financial statements of the investees.
- The fair value of other long-term equity investments is determined by the net asset value method based on the financial statements of the investees.
- The fair value of short-term deposits is stated at the book value because of their short term.
- For other investments with insufficient information in the market to determine the fair value at the reporting date, the book value less provision for impairment of these items is shown instead of the fair value.

Financial liabilities: At the date of initial recognition, financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities.

Financial liabilities of the Corporation comprise trade payables, other payables, borrowings and other financial liabilities.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial recognition.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, cash in transit and short-term, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and are not restricted in use.

Financial investments

Trading securities

Trading securities are securities held by the Corporation for trading purposes. Trading securities are recognised from the date on which the Corporation obtains ownership rights and are initially measured at the fair value of the consideration paid at the transaction date. Transaction costs related to the acquisition of trading securities (if any), such as brokerage fees, transaction fees, information service fees, taxes, bank charges, etc., are recognised as financial expenses in the period.

Cash dividends received from trading securities for the period after the acquisition date are recognised as finance income in the consolidated income statement. Dividends receivable relating to the period prior to the acquisition date are deducted from the carrying amount of the investment.

Subsequent to initial recognition, trading securities are measured at cost less any provision for impairment of trading securities.

Provision for impairment of trading securities is recognised when there is objective evidence that the market value of the securities has declined below their carrying amount.

Upon disposal, sale or exchange of trading securities (on a security-by-security basis), the cost is determined using the first-in, first-out method. Gains or losses arising from the disposal or sale of trading securities are recognised in the consolidated income statement in the period.

Held-to-maturity investments

Held-to-maturity investments are investments that the Corporation has the intention and ability to hold until maturity. Held-to-maturity investments include bank-term deposits and investment in bonds.

Held-to-maturity investments are initially recognised at cost, including the principal amount less (-) any interest received in advance for multiple periods, plus (+) any premium or less (-) any discount.

Subsequent to initial recognition, any discounts and/or premiums are amortised using the straight-line method consistent with the term of the investment], as follows:

- The discount on held-to-maturity investments is amortised over the term of the investment and recognised as finance income in each period;
- The premium on held-to-maturity investments is amortised over the term of the investment and reduces finance income in each period.

The discount or premium is allocated evenly and recognised in the consolidated income statement on a straight-line basis over the term of the investment. Interest received at maturity or periodically is recognised as finance income in the relevant interest periods.

Held-to-maturity investments are measured at cost less provision for held-to-maturity investments.

Provision for held-to-maturity investments is recognised when there is any indication or objective evidence that part or all of the Corporation's held-to-maturity investments may not be recoverable.

Equity investments in other entities

Equity investments in other entities represent the Corporation's investments in ordinary shares of the entities over which the Corporation has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment (if any).

A provision for impairment of investments in other entities is recognised when the investee incurs losses or when such investments are impaired, indicating that the Corporation may not be able to recover its investment.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost, accumulated depreciation and net book value.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Number of years</u>
Buildings and structures	25 - 50
Motor vehicles and transmission equipment	05 - 10
Office equipment	03 - 08
Computer software	03 - 05

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between net proceeds from sales or disposals of assets and their carrying amount and is recognised in the interim consolidated income statement.

Intangible assets and amortization

The costs of intangible assets comprise all expenditures incurred by the Corporation to acquire such assets up to the point at which the asset is in a condition capable of operating in the manner intended by management.

Intangible assets include land use rights and computer software.

Land use rights

Intangible assets represent indefinite land use rights. According to the prevailing regulations, the Corporation does not amortise the indefinite land use rights.

Computer software

Computer software is amortised using the straight-line method over the estimated useful life of 03 – 05 years.

Investment properties

Investment properties are composed of land use rights, buildings, a part of buildings and structures held by the Corporation to earn rentals. Investment properties held to earn rentals are stated at cost less accumulated depreciation. The costs of purchased investment properties comprise their purchase prices and any directly attributable expenditures, such as professional fees for legal services, property transfer taxes and other related transaction costs. The costs of self-constructed investment properties are the finalised construction cost or directly attributable costs of the properties.

Investment properties held to earn rentals are depreciated using the straight-line method over their estimated useful lives of 20 – 50 years.

Only in the following cases shall an owner-occupied property be transferred into an investment property or shall an investment property be transferred into an owner-occupied property or an inventory:

- An investment property is transferred into an owner-occupied property when the owner starts to use the property;
- An owner-occupied property is transferred into an investment property when the owner ceases to use the property.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost includes costs that are necessary to form the assets in accordance with the Corporation's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their use.

Deferred expense

Deferred expenses are expenses which have already been paid but relate to results of operations of multiple accounting periods. Deferred expenses include unallocated commissions expenses, unallocated operating expenses, office repair and renovation expenses, costs of tools, supplies issued for consumption and other prepayments.

Operating development expenses relating to insurance activities in the period is allocated on the same basis as the allocation of unearned premium reserves of respective line of insurance business.

The accounting policy for prepayment for insurance commissions expenses is presented in the accounting policy section for some specific operations of insurance business activities, under "Expenditures" section.

Deferred expenses are expected to provide future economic benefits to the Corporation. These expenditures have been capitalised as prepayments and are allocated to the interim consolidated income statement using the straight-line method in accordance with the prevailing accounting regulations.

Trade payables

Trade payables represent liabilities arising from the purchase of goods, services or assets from suppliers in the ordinary course of the Corporation's business. Trade payables are stated at historical cost.

Dividends and profit payable

Dividends and profit payable represent dividends payable to shareholders. Dividends payable are recognised when the Corporation no longer has the right to avoid the obligation to make such dividends distributions to shareholders in accordance with applicable laws and regulations.

Accrued expenses

Accrued expenses comprise amounts payable for goods and services received by the Corporation but not yet paid due to the absence of sufficient supporting documentation and are recognised in the consolidated income statement in the accounting period.

Borrowings

Borrowings are recognised at cost, being the proceeds received net of directly attributable costs incurred in connection with the borrowings.

Borrowing costs

Borrowing costs include interest expenses incurred on borrowings.

Borrowing costs are recognised in profit or loss in the period in which they are incurred, except for borrowing costs that are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing Costs". Accordingly, borrowing costs directly attributable to the construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Any income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Deferred revenue

Deferred revenue comprises premiums received in advance from insurance business activities and rental income received in advance arising from business cooperation contracts relating to one or more accounting periods. The Corporation recognises deferred revenue to the extent of the obligations that it is required to fulfil in the future. Deferred revenue is recognised in the interim consolidated income statement when the revenue recognition criteria are satisfied, in proportion to the performance obligations fulfilled during the corresponding accounting period.

Underwriting reserves

Underwriting reserves are made in accordance with Circular No. 67/2023/TT-BTC issued by the Ministry of Finance dated 02 November 2023 ("Circular 67") and Approval Document No. 3281/BTC-QLBH dated 23 March 2018 by the Insurance Supervisory Authority - Ministry of Finance. Details are as follows:

a) Non-life insurance lines

Unearned premium reserve:

Unearned premium reserves are made by a factor of period of direct policies:

- For direct insurance and reinsurance contracts with a term of less than 01 year, the reserves are determined by the percentage of total retained insurance premium, details are as follows:
 - For cargo insurance: The unearned premium reserves are made at 25% of total retained insurance premium.
 - For other types of insurance: The unearned premium reserves are made at 50% of total retained insurance premium.
- For direct insurance and reinsurance contracts with more than 01-year term, unearned premium reserves are made by a factor of the term of insurance contract.

Claim reserve

For losses incurred and reported, claim reserves for direct insurance and inward reinsurance and outward reinsurance are made using the statistic of retention liabilities for each estimated loss incurred and reported.

For losses incurred but not reported ("IBNR"), claim reserves are made based on statistic rate on claim in 3 consecutive years.

$$\begin{array}{l}
 \text{Claim reserve for} \\
 \text{incurred but not} \\
 \text{reported (IBNR)} \\
 \text{loss in current} \\
 \text{fiscal year}
 \end{array}
 = \frac{\text{Total claim amount for} \\
 \text{IBNR losses incurred in} \\
 \text{3 consecutive previous} \\
 \text{fiscal years}}{\text{Total claim amount} \\
 \text{incurred in 3} \\
 \text{consecutive fiscal} \\
 \text{years}} \times \frac{\text{Claim} \\
 \text{amount} \\
 \text{incurred in} \\
 \text{current} \\
 \text{fiscal year}}{\text{Net revenue of} \\
 \text{insurance} \\
 \text{business in current} \\
 \text{fiscal year}} \times \frac{\text{Average delay in} \\
 \text{claim reporting} \\
 \text{in current fiscal} \\
 \text{year}}{\text{Average delay in} \\
 \text{claim reporting} \\
 \text{in previous} \\
 \text{fiscal year}}$$

Catastrophe reserve

Under Vietnamese Accounting Standard No. 19 "Insurance Contract", the reserve for claim under contracts that has neither arisen nor existed at the reporting date (including catastrophe reserve) is not required to be made. However, the Corporation follows the reserve policy in accordance with Circular 67, accordingly, catastrophe reserves for all types of insurance were consistently made at 1% of total retained premium in the period.

b) Health insurance lines

Mathematical reserve

For health insurance and reinsurance contract (insurance contract) with a term of more than 01-year, mathematical reserves are made on a daily basis according to the gross premium valuation.

Unearned premium reserve

For health insurance and reinsurance contract with a term of less than 01 year, the unearned premium reserve is established at 50% of retained premium.

Claim reserve

For losses incurred and reported, the Corporation provides claim reserves for direct insurance and inward reinsurance and outward reinsurance using the statistic of retention liabilities for each estimated loss incurred and reported.

For losses incurred but not reported ("IBNR"), claim reserves are made based on statistic rate on claim in 3 consecutive years.

$$\begin{array}{c} \text{Claim reserve} \\ \text{for incurred but} \\ \text{not reported} \\ \text{(IBNR) loss in} \\ \text{current fiscal} \\ \text{year} \end{array} = \frac{\text{Total claim amount for} \\ \text{IBNR losses incurred in} \\ \text{3 consecutive previous} \\ \text{fiscal years}}{\text{Total claim amount} \\ \text{incurred in 3} \\ \text{consecutive fiscal} \\ \text{years}} \times \frac{\text{Claim} \\ \text{amount} \\ \text{incurred in} \\ \text{current} \\ \text{fiscal year}}{\text{Net revenue of} \\ \text{insurance business} \\ \text{in current fiscal year}} \times \frac{\text{Average delay in} \\ \text{claim reporting in} \\ \text{current fiscal year}}{\text{Net revenue of} \\ \text{insurance business} \\ \text{in previous fiscal} \\ \text{year}} \times \frac{\text{Average delay in} \\ \text{claim reporting in} \\ \text{previous fiscal} \\ \text{year}}{\text{Average delay in} \\ \text{claim reporting in} \\ \text{previous fiscal} \\ \text{year}}$$

Equalization reserve

The Corporation's equalization reserve was consistently made at 1% of the premium retained in the period and recorded in Catastrophe reserve in the statement of financial position.

Reserves for the Corporation's direct insurance and inward reinsurance are not offset with reserve for outward reinsurance. Such reserves should be presented under consolidated items in the statement of financial position. Accordingly, unearned premium reserve and claim reserve for direct insurance and inward reinsurance and catastrophe reserve are recognised as payables while unearned premium reserve for outward reinsurance and claim reserve for outward reinsurance are recognised as reinsurance assets.

The equalization reserve is presented in the interim consolidated financial statements under "Catastrophe reserve".

Insurance deposits

The Corporation is obliged to pay a deposit equal to 2% of the minimum charter capital, the deposit shall receive interest in accordance with the agreement reached with the bank into which it is paid and the Corporation may withdraw the whole amount of their deposit upon termination of its operation. The Corporation may only use its insurance deposit to meet undertakings to purchasers of insurance when its solvency is inadequate and upon written approval of the Ministry of Finance.

Equity

Ordinary shares

Ordinary shares with voting rights are recognised at par value. Shares issued to increase charter capital or shareholders' contributed capital are recognised based on the actual proceeds received corresponding to the par value of successfully issued shares.

Share premium

Share premium represents the difference between the par value and the issuance price of ordinary shares, net of costs directly attributable to the share issuance.

Costs directly attributable to the share issuance are allocated between successfully issued shares and unsuccessfully issued shares as follows:

- The portion allocated to successfully issued shares is offset against share premium.
- The portion related to unsuccessfully issued shares is recognised as financial expenses for the period.

Profit distribution

The Corporation's net profit after tax is available for appropriation to shareholders as dividends upon approval by the Corporation's General Meeting of Shareholders.

Dividends are declared and paid from retained earnings based on the approval of shareholders at the Corporation's Annual General Meeting of Shareholders.

Bonus and welfare fund

Bonus and welfare fund is deducted from the profit after corporate income tax of the Corporation to be used for rewarding and encouraging physical benefits, serving the needs of the public, improving and enhancing mental and physical life of employees as approved by the resolution of the Corporation's Annual General Meeting of Shareholders. The appropriation and use of the bonus and welfare fund must comply with current prevailing accounting and financial regulations.

Investment and development fund

Investment and development fund is deducted from profits after corporate income tax of the Corporation to be used to invest in expanding the scale of production, business or in-depth investment of the enterprise. The appropriation and use of the investment and development fund

are carried out in accordance with the Resolution of the General Meeting of Shareholders and applicable regulations.

Compulsory reserve fund

Compulsory reserve fund is appropriated from after-tax profits at a rate of 5% until it reaches 10% of the Corporation's charter capital.

Revenue recognition and other income

Direct insurance premium

Direct insurance premium revenue is recognised when the Corporation has the ability to receive economic benefits that can be reliably determined. The following specific recognition conditions must also be met before premium is recognised. Accordingly, direct insurance premium revenue is recognised when the following conditions are met:

- The insurance policy has been signed between the insurance corporation and the insurance buyer and the buyer has fully paid the insurance premium;
- There is evidence that the insurance contract has been conducted and the insurance buyer has fully paid insurance premium;
- When the insurance policy is signed, the non-life insurance enterprise or foreign branch has an agreement with the insurance buyer on the insurance premium payment term (including the extension period); and
- When the insurance policy has been conducted and there is an agreement for the policyholder to pay the premium in instalments under the insurance policy, the insurer or foreign branch of non-life insurer shall record revenues from the premium corresponding to the period or periods of premium that have incurred, and shall not record revenues from the premium that has not yet come due for the policyholder to pay according to the agreement under the insurance policy.

The insurance premium payment term must be specified in the insurance contract in which the premium payment period does not exceed 30 days from the start date of the insurance period. In case of paying insurance premiums in instalments, the Corporation accounts insurance premium revenue corresponding to the period or periods in which insurance premiums have incurred. In case the insurance buyer does not pay the insurance premium in full by the premium payment due date, the insurance policy will automatically terminate at the end of the premium payment due date.

Refund or deduction in direct insurance premiums are tracked and recorded separately for each insurance policy and transferred to direct insurance premium revenue to calculate net revenue at the end of the period.

Inward reinsurance

a) Treaty inward reinsurance

Revenue and expenses related to reinsurance assumed under treaty arrangements are recognised when the periodical reconciliation is received from the cedants. As of the date of these interim consolidated financial statements, expenses related to treaty reinsurance transactions whose the periodical reconciliation has not been received from the cedants will be estimated based on the statistical and estimated figures of the cedants.

b) Facultative inward reinsurance

Inward reinsurance premium is recognised when the facultative reinsurance agreement has been signed and a statement of account (for each facultative reinsurance agreement) has been received from the cedant.

Outward reinsurance

Reinsurance premium ceded under treaty reinsurance is recognised when gross written premium in the scope of these agreements is recognised.

Facultative reinsurance premium ceded is recognised when facultative reinsurance agreement is signed and gross written premium in the scope of this agreement is recognised.

Claim receipts from ceded policies are recognised when there is substantial evidence on reinsurers' obligations.

Commission income from outward reinsurance is recognised when outward reinsurance premium is recognised.

Interest income

Interest income from deposits and bonds is recognised on an accrual basis and is determined based on deposit account balances, the face value of bonds, and the applicable interest rates.

Interest income from investments is recognised when the Corporation's right to receive such income is established.

Dividends and profit distributions

Dividends and profit distributions are recognised when the Corporation's right to receive the dividends or profit distributions arising from its investments is established. Stock dividends are accounted for by monitoring only the increase in the number of shares held, with no recognition of the value of the shares received.

Other revenue

Other revenue of the Corporation such as revenue from other services relating to insurance activities, revenue from selling investment properties, leasing houses, interest on bank deposits, securities, bonds and loans are recognised when incurred.

Other income comprises income derived from incidental or non-recurring transactions that are not related to the Corporation's principal revenue-generating activities.

The allocation principles for assets, resources, revenue, general expenses related to Shareholders' fund and Policyholders' fund approved by the Ministry of Finance in Official Letter No. 7034/BTC-QLBH dated 14 June 2018 were applied to allocate revenue from investment activities using technical reserves for insurance operation.

Claim settlement expenses

Claims expenses are recognised when claim files have been completed and approved by authorised personnel in accordance with the Corporation's regulations.

For claim files that have not yet been approved as at the date of the consolidated financial statements, such amounts are classified as outstanding claims and the corresponding claims provisions are recognised based on the estimates of the Management.

Reinsurance claims expenses are recognised when incurred, based on reinsurance claim statements submitted by reinsurers and accepted by the Corporation for settlement.

Recoveries from ceded reinsurance are recognised in line with the claim expenses recognised during the period, based on the reinsurance cession percentage stipulated in the relevant reinsurance contracts.

Commission expenses

Commission expenses are recognised corresponding to the percentage of direct premium in the interim income statement in the period.

Commission of each type of products are calculated by respective percentage in accordance with Circular 67 guiding the implementation of Decision No. 46/2023/ND-CP dated 01 July 2023 of the Government regarding Insurance Business Law.

At the period end, the Corporation should determine unearned commission expenses for direct insurance and inward reinsurance which have not been recognised as expenses for the period corresponding to unearned direct premium and inward reinsurance premium so as to allocate such commission expenses to the subsequent accounting periods in accordance with the above-mentioned method.

Investment expenses

Expenditures on investing activities include directly incurred expenses relating to investment activities and allocated expenses from general expenditures.

Direct expenses include salary expenses for investment department staff, investment portfolio management expenses, provisions for impairment of investments, losses from securities trading, securities transaction costs, expenses related to real estate activities.

General expenses for investing activities are allocated to insurance operations based on the proportion of financial income over the total realised revenue in the period. This allocation principal was approved by the Ministry of Finance in Official Letter No. 7034/BTC-QLBH dated 14 June 2018.

Other expenses

Insurance operating expenses

Insurance operating expenses comprise costs incurred directly in connection with the provision of insurance services by the Corporation and are recognised as expenses in the period in which they are incurred on an accrual basis.

General and administrative expenses

General and administrative expenses are expenses incurred in connection with the general administrative activities of the Corporation, which are not directly attributable to sales or production activities, and are recognised as expenses in the period on an accrual basis.

Other expenses are recognised in the interim consolidated income statement when they are incurred.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the date of consolidated statement of financial position are retranslated at the average bank transfer buying and selling exchange rates of commercial bank where the Corporation usually transacts on the same date, except for demand deposits denominated in foreign currencies, which are translated at the average bank transfer buying and selling exchange rates quoted by the commercial bank where the Corporation maintains such deposit accounts. Exchange differences arising from the translation of these accounts are recognised in the consolidated income statement.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable includes current corporate income tax expenses in accordance with the Corporate Income Tax Law and the top-up tax expenses under the global minimum tax regulations. The tax currently payable is based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the interim income statement because it excludes items of income or expense that are taxable or deductible in other period (including loss carried forward, if any) and it further excludes items that are never taxable or deductible. The top-up tax expenses under the global minimum tax regulations represent the additional corporate income tax that the Corporation is required to pay to the State Budget, determined in accordance with applicable global minimum tax legislation.

Deferred tax is recognised on temporary differences between carrying amounts of assets and liabilities in the interim consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised only to the extent that it is probable that the Corporation will have future taxable profit against which the deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period/year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

According to VAS No. 05 - Investment Properties, fair value of investment property as at 30 June 2026 is required to be disclosed. However, the Corporation could not determine the fair value as at 30 June 2026; therefore, no information about the fair value is disclosed in the notes to the interim consolidated financial statements. In order to determine the fair value, the Corporation would require an independent consultancy company to perform the valuation. At present, the Corporation has not found a suitable consultancy company yet.

22. SEGMENT REPORT

For management purposes, the Corporation is currently organised into business divisions based on its products and services as follows:

1 – Insurance Business Division: providing non-life insurance products and services.

2 – Other division: trading products in the field of real estate leasing, real estate investment and other activities.

Management decisions are made based on products and services provided by the Corporation rather than geographical areas in which its products and services are rendered. Accordingly, the Corporation's primary report is based on business segments.

Information on business results by segment for the 6-month period ended 30 June 2026 is as follows:

Items	Insurance business VND	Others VND	Total VND
1. Net revenue from selling goods and rendering services	1,777,330,198,088	2,158,098,484	1,779,488,296,572
2. Net profit from business activities	70,650,341,766	1,667,491,434	72,317,833,200
3. Financial income	106,123,931,799	73,236,719	106,197,168,518

Basic earnings per share	1,171	1,303

33. FINANCIAL INSTRUMENTS

Capital risk management

The Corporation manages its capital to ensure that the Corporation will be able to continue as a going concern while maximizing the return to the owners through the optimization of the debt and equity balance.

The capital structure of the Corporation consists of net debt (comprising borrowings offset by cash) and owners' equity (comprising contributed capital and reserves).

Gearing ratio

The gearing ratio of the Corporation as at the statement of financial position date was as follows:

	Closing balance	Opening balance
	VND	VND
Borrowings	170,000,000,000	288,000,000,000
Less: Cash	187,740,087,319	730,008,717,644
Net debt	-	-
Equity	2,782,716,498,919	2,660,838,514,897
Net debt to equity ratio	0.0%	0.0%

Significant accounting policies

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Note 4.

Categories of financial instruments

	Closing balance		Opening balance (Reclassification)

Long-term financial investments	750,812,507,021	702,635,523,732	1,211,609,820,066	1,164,099,286,520
	5,890,313,268,957	5,842,136,285,668	5,656,321,344,702	5,608,810,811,156
Financial liabilities				
Borrowings	170,000,000,000	170,000,000,000	288,000,000,000	288,000,000,000
Trade and other payables	1,046,911,158,840	1,046,911,158,840	851,080,501,682	851,080,501,682
Accrued expenses	142,048,729	142,048,729	3,432,843,351	3,432,843,351
	1,217,053,207,569	1,217,053,207,569	1,142,513,345,033	1,142,513,345,033

The fair value of financial assets and financial liabilities is stated at the value of convertible financial instruments in a current transaction between the parties, except where required to sell or liquidate. The Corporation uses the following methods and assumptions to estimate the fair value:

- The fair value of short-term items including cash, cash equivalents, trade receivables, other receivables, trade payables, accrued expenses, and other short-term amounts is equivalent to the book value of these items due to their short or undetermined term.

- For financial assets and financial liabilities with insufficient information in the market to determine fair value at the reporting date, the book value of these items is shown instead of the fair value.

Financial risk management objectives

The Corporation has set up risk management system to identify and assess the risks exposed by the Corporation and designed control policies and procedures to manage those risks at an acceptable level. Risk management system is reviewed on a regular basis to reflect changes in market conditions and the Corporation's operations.

Financial risks include market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and insurance risk.

Market risk

The Corporation's activities primarily expose it to the financial risks of changes in foreign exchange rates, interest rates and prices. The Corporation does not hedge these risk exposures due to the lack of active market for the trading activities of these financial instruments.

Exchange rate risk management

Exchange rate risk is the risk that fair value or cash flows in the future of financial instruments will change according to the fluctuations of foreign exchange rates.

The Corporation manages risks concerning fluctuations in exchange rates by optimizing the maturity of debts, forecasting foreign exchange rates, maintaining a reasonable structure of borrowings and liabilities between foreign currencies and VND, choosing to buy and pay items in foreign currencies at the time of low foreign exchange rate, utilizing available cash resources to balance between foreign exchange risk and liquidity risk.

The Executive Board assesses that the impact of fluctuations in foreign exchange rates on profit after tax and owners' equity of the Corporation is insignificant.

Interest rate risk

The Corporation has significant interest rate risks arising from interest bearing loans which are arranged. The Corporation manages this risk by maintaining an appropriate level of borrowings and analysing market competition to enjoy favourable interest rates from appropriate lenders.

Stock price risk management

Stocks held by the Corporation are affected by market risks arising from the uncertainty about future prices of such shares. The Corporation manages this risk exposure by setting up investment limits and diversifying the investment portfolio.

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Corporation. The Corporation has a credit policy in place and the exposure to credit risk is monitored on an on-going basis. Credit risk was evaluated prudently by the Executive Board.

Liquidity risk management

The purpose of liquidity risk management is to ensure the availability of funds to meet present and future financial obligations. Liquidity is also managed by ensuring that the excess of maturing liabilities over maturing assets in any period is kept to manageable levels relative to the amount of funds that the Corporation believes can generate within that period. The Corporation's policy is to regularly monitor current and expected liquidity requirements to ensure that the Corporation maintains sufficient reserves of cash, borrowings and adequate committed funding from its owners to meet its liquidity requirements in the short and longer terms.

The following table details the Corporation's remaining contractual maturity for its non-derivative financial assets and financial liabilities with agreed repayment periods. The table has been drawn up based on the undiscounted cash flows of financial assets and undiscounted cash flow of financial liabilities based on the earliest date on which the Corporation can be required to pay. The inclusion of information on non-derivative financial assets is necessary in order to understand the Corporation's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Net liquidity gap	3,290,293,487,549	1,223,514,512,120	4,513,807,999,669

The Executive Board assessed the liquidity risk at low level. The Executive Board believes that the Corporation will be able to generate sufficient funds to meet its financial obligations as and when they fall due.

Insurance risk

A risk arising from any insurance contract is the possibility that the insured event occurs and of the uncertainty of the amount of the claim payments. As the nature of an insurance contract, this risk is random and therefore unpredictable.

To achieve the goal of managing insurance risk, the Corporation has established and applied a full range of risk assessment processes before accepting insurance, insurance risk transfer processes (reinsurance), damage assessment processes and claim settlement processes.

For premium operations, the Corporation has diversified the types of insurance services, insurance products as well as geographical areas to minimise concentrations of insurance risk. Besides, the Corporation has also applied different criteria in risk selection, implemented various measures in risk assessment to build an appropriate premium level. The Corporation does not accept insurance risks that highly likely occur or are subject to self-interested profit-maximizing behaviours.

For insurance risks accepted for the 6-month period ended 30 June 2026, the Corporation redefined the premium rates applicable to each risk group based on historical loss statistics and forecast of the trend of risks, inflation, level of industry competition and related regulations.

- With regard to the risk groups having increasing rates of losses and premiums, the Corporation will only accept insurance risk if the insured accepts to increase the premium correspondingly or limit the insurance coverage and increase deductibles.
- With regard to the risk groups having loss rate increasing but still at an acceptable level and ensuring insurance profit, the Corporation has adopted a policy on increasing the proportion of acceptable insurance risk to have its market share risen and also takes advantage of cash inflows from insurance premiums for the purpose of investments.

The Corporation has also conducted thorough and strict measures to transfer insurance risks to other insurance companies in order to minimise the risks that may occur but still ensure the effectiveness of insurance businesses through building a reasonable level of retained premium for each type of insurance products, reinsurance arrangements and co-insurances.

The Corporation has been undertaking the policy on the acceleration of the damage assessment and settlement of compensation to minimise the risks that may arise during the compensation assessment process, such as exchange rate risk, inflation risk, increased loss risk, ethical risk, etc. The damage assessment and compensation settlement are conducted by the Corporation at two different levels depending on the complexity and nature of damage:

- For large and complicated cases, the damage assessment and compensation settlement will be conducted at the Corporation's office;
- For small cases where the Corporation's member companies have practical experience and sufficient resources to implement, the work will be handled by the Corporation's members.
