*Re: Explanation of the auditor's qualified
opinion and explanation of the profit variance
of more than 10% between the separate and
consolidated Financial Statements audited
compared to the same period of 2025.*

To: Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding the disclosure of information on the securities market;

Pursuant to the Semi-annual Financial Statements for 2026 covering the period from January 1, 2026 to June 30, 2026. Ho Chi Minh City Electric Power Trading Investment Corporation hereby explains the auditor's qualified opinion and explains the profit variance of more than 10% between the Company's Semi-annual Financial Statements for 2026 and the Semi-annual Financial Statements for 2025.

1/ Explanation of the Auditor's Qualified Opinion:

According to the reviewed separate Financial Statements No. A0626257-SXR/MOORE AISC-DN6 dated 25/8/2026 issued by MOORE AISC Auditing And Informatics Services Company Limited.

According to the reviewed consolidated Financial Statements No. A0626257-SXHN/MOORE AISC-DN6 dated 25/8/2026 issued by MOORE AISC Auditing And Informatics Services Company Limited.

Both the reviewed separate and consolidated Financial Statements for the accounting period of the first 6 months of 2026 contain the following qualified opinion:

Auditor's Opinion Section.

As presented in Note V.7 to the accompanying separate and consolidated interim financial statements, the Company has not yet allocated the general and administrative expenses incurred in accounting periods prior to 2025 to each construction-contracting unit in order to determine the cost of each completed construction product for which revenue has been recognized. The non-allocation of the above general and administrative expenses stemmed from decisions of the Board of Management in those accounting periods. Had the Company allocated and recognized these amounts as expenses in prior years in accordance with Vietnamese accounting standards and the Vietnamese Enterprise Accounting Regime, the indicators "Work in Progress Costs" and "Undistributed After-tax Profit" as at the end of the prior financial years, as well as at June 30, 2026, would have decreased by a corresponding amount of VND 12,498,253,760.

Ho Chi Minh City Electric Power Trading Investment Corporation hereby explains the qualified opinion as follows:

Regarding the qualified opinion.

As at June 30, 2026, the general and administrative expenses currently recorded under work-in-progress costs, amounting to VND 12,498,253,760, arose in accounting periods prior to 2025 across various units of the Company. During the first 6 months of 2026, the Company had not yet allocated this expense within the period. As a result, the outstanding work-in-progress costs as at June 30, 2026 remained at VND 12,498,253,760.

Accordingly, this general expense item is temporarily carried under a qualified opinion in the Semi-annual Financial Statements for 2026. TRADINCORP will develop a plan to analyse and assess the reasons for this accumulated general expense, which has persisted from accounting periods prior to 2025, to notify and alert the relevant units and to establish better expense management policies. At the same time, the Company's Board of Management will develop a specific plan and roadmap to allocate this expense in accordance with regulations and in line with the Company's annual business performance.

2. Explanation of the Profit Variance of More Than 10% Between the Semi-annual Financial Statements for 2026 and the Semi-annual Financial Statements for 2025 of the Company

2.1./ Explanation of the profit variance of more than 10% between the Separate Semi-annual Financial Statements for 2026 and the Separate Semi-annual Financial Statements for 2025 of the Company.
