Re: Explanation of the 103% increase in profit after tax for Q3 2026 compared to the same period in 2025.

Dear:

- State Securities Commission
- Hanoi Stock Exchange

In the third quarter of 2026, VICEM Bim Son Packaging Joint Stock Company (the "Company") continued to maintain stable production and business operations. Profit after tax for the period reached VND 738 million, equivalent to 203% of the figure recorded in the same period of 2025 (an increase of 103%).

The main reasons for the 103% year-on-year increase in profit after tax in Q3 2026 are as follows:

- The volume of cement bags sold in Q3 2026 reached 12 million bags, equivalent to 109% of the same period in 2025 (an increase of 9%).
- The average selling price of products in Q3 2026 increased by 8% compared to the same period in 2025.

Best regards!
