4. Accounting for FVTPL financial assets, lending and receivables

4.1 Classification of financial assets and liabilities on the Company's investments list

Financial assets at fair value through profit and loss (FVTPL) on Company investment list

Financial assets recognized at fair value through profit and loss (FVTPL financial assets) are financial assets that satisfy either of the following conditions:

a) Financial assets are classified as being held for trading. A financial asset is classified as an item of the group held for trading if:

- It is acquired or created principally for selling or re-purchasing in a short period of time;
- There is evidence that this instrument has been traded for short-term profit-making; or
- It is a derivative instrument (except for a derivative instrument defined as a financial guarantee contract or effective hedging instrument).

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

b) Upon initial recognition, a financial asset is more appropriately presented if classified as an FVTPL financial asset for one of the following reasons:

- Classification of an asset into FVTPL financial assets eliminates or significantly reduces inconsistencies in the recognition or valuation of financial assets on different bases.
- Assets of a group of financial assets are managed and the performance of such management is viewed on a value basis in accordance with the risk management policies or investment strategies of the Company. These financial assets are shares, bonds, cash instruments, derivatives (for risk hedging purpose).

Financial assets are removed from FVTPL in the case that they are lending amounts or receivables which are aimed to be held in a definite period of time in the future or up to the maturity or the financial assets are deposits classified into cash and cash equivalents.

Securities companies who wish to sell financial assets of non-FVTPL nature shall reclassify the financial assets from other related assets to FVTPL financial assets. Differences due to the re-valuation of financial assets currently recorded under Item "Differences due to re-valuation at fair value" are recognized into the corresponding income and expenses at the date of financial asset reclassification for sales.

Non-derivative FVTPL financial assets which are not required to be classified into a group of FVTPL financial assets at initial recognition might be re-classified into lending and receivables in special cases or into cash and cash equivalents if they satisfy conditions for being re-classified into these groups. Profit or loss which is recognized upon re-valuation of FVTPL financial assets before the date of re-classification shall not be reserved.

Held-to-maturity (HTM) investments

Held-to maturity (HTM) investments consist are non-derivative financial assets with fixed or identifiable payments and with fixed maturity that the Company intends and is able to hold to the maturity date, except for:

- Financial assets classified as financial assets recognized at fair value through profit or loss at the initial recognition;
- Financial assets classified as being available for sales; or
- Financial assets that meet the defined criteria of lending and receivables.

If the Company changes its intention or ability of holding an asset and the classification of an investment into HTM investment is no longer appropriate, this investment shall be reclassified to AFS financial assets and re-valued at fair value. The difference between the book value and fair value shall be recorded into the income statement as Difference due to re-valuation of assets at fair value.

Lending

Lending is non-derivative financial assets with fixed or identifiable payments and not listed on the perfect securities market, with the exceptions of:

Amounts that the Company has the intention to sell now or in near future are classified as assets held for trading, as are the amounts that, upon initial recognition, categorized at fair value through profit or loss statements;

The amounts categorized by the Company as available for sale upon initial recognition; or

The amounts with most of the initial investment value being recoverable for the reason of reducing credit quality and categorized as available for sale.

4.2 Recognizing and accounting for re-valuation of investments at market value, fair value or historical cost

FVTPL financial assets listed as Main financial assets of the Company:

FVTPL financial assets are recognized at the cost of securities purchased (historical cost). The cost of purchasing FVTPL financial assets is recognized into trading cost of the financial assets on the income statement as incurred.

After the initial recognition, FVTPL financial assets are recognized at the market value. Any gain or loss incurred from changes in value of these financial assets shall be classified as part of FVTPL group and recognized into the income statement.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

At the end of the accounting period, FVTPL financial assets listed as Financial assets of the securities company shall be re-valued at the market price or fair value (in case no market price is available).

At the first re-valuation, the fair value of FVTPL financial assets listed as financial assets of the securities company are recorded into Account 1212 "Difference on re-valuation" as the difference between re-valued amount of FVTPL financial assets at the re-valuation time at the market price or fair value and the initial purchase price of the FVTPL financial assets listed as financial assets of the securities company.

For the presentation of the statement of financial position, the Item "FVTPL financial assets" is recorded at net amount (The item is computed as follows: FVTPL financial assets = Debit Balance on Account 1211 "Purchase price" plus (+) Debit Balance on Account 1212 "Increase due to re-valuation of FVTPL financial assets" or minus (-) Credit Balance on Account 1212 "Decrease due to re-valuation of FVTPL financial assets" for FVTPL financial assets listed as financial assets of the securities company).

The representation of FVTPL financial assets listed as financial assets of the securities company in Notes to the financial statements shall be made with 3 norms: Purchase price, Re-valued amount and Net value (Purchase price +/- re-valued amount) for all groups of FVTPL financial assets.

Increase or decrease due to re-valuation of FVTPL financial assets FVTPL financial assets listed as financial assets of the securities company is recorded on the no-offsetting principle and represented in the income statement with 2 norms:

Decrease due to re-valuation of FVTPL financial assets is recorded as "Loss and cost of proprietary trading FVTPL financial assets", detailed for "Decrease due to re-valuation of FVTPL financial assets".

Increase due to re-valuation of FVTPL financial assets is recorded into the norm "Income", detailed for "Increase due to re-valuation of FVTPL financial assets".

Increase or decrease difference due to re-valuation of FVTPL financial assets listed as financial assets of securities company shall determine the unrealized profit or loss in the period.

For FVTPL financial assets listed as financial assets of securities companies without reference to the market price, the possibility of price decrease by the time of preparing the financial statements shall be considered. The provision is made when the book value is greater than the value reviewed and re-valued by the Company. Increase or decrease of the provision is recorded in the comprehensive income statement under the norm "Provision for financial assets, treatment of doubtful receivables, impairment of financial assets, and borrowing costs of lending".

The Company has made provisions for impairment in financial assets and assets mortgaged for Khoi Nghiep Investment, JSC and Tai Viet Investment, JSC respectively for VND 6.5 billion and VND 6 billion. These provisions were made under Investment Evaluation Council Meeting Minute dated December 17, 2019 and Board of Management Resolution No. 25/2019/NQ-HDQT-IVS dated December 31, 2019.

Held-to-maturity (HTM) investments

Held-to-maturity investments include term deposits at bank, which have been recognized since the date such deposit transactions commenced.

Bank deposits with terms shorter than 12 months and longer than 3 months are presented as short-term financial assets. Bank deposits with terms of 12 months or longer are presented as long-term financial assets.

Held-to-maturity investments are reviewed for impairment at the reporting date. Provisions are made for HTM investments upon objective evidence showing that it is not probable or uncertain that the investment could be recovered as a consequence of an event or events that have happened and had negative impact on the expected future cash flows from such HTM investments.

Lending

Lending amounts are initially measured at historical cost (the disbursement value of the lending). After the initial recognition, lending is recorded at the allocated value by real-interest rate method.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

Amounts allocated as lending are determined at the initial value of financial assets less the repayment of principal plus (less) accumulated allocation by the real-interest-rate method on the difference between initial value and maturity value, less provisions for impairment or irrecoverability in the assets (if any).

Lending is taken into considerations for the possibility of impairment at the reporting date. Provision for lending is made based on the expected loss which is calculated as the difference between the market price of securities pledged for the lending and the outstanding balance of this lending. Any increase or decrease in the balance of provisions is recognized in the income statement in the item "Provisions for impairment in financial assets, bad debts written off, impairment loss of financial assets and borrowing costs for the lending".

4.3 Fair value of financial assets

The market value of financial assets is determined as follows:

+ For securities listed on the Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, the market prices are the closing prices on the most recent trading day from the date on which securities are valued.

+ For securities yet to be listed on the Stock Exchanges but registered for trading on the market of unlisted public companies (UPCom), their market prices are their average closing prices on the most recent trading day from the date on which securities are valued.

+ For de-listed, suspended or discontinued trading securities on the sixth trading day and afterward, their actual securities prices are the book value at the most recent reporting date of the statement of financial position.

+ For unlisted securities and securities unregistered for trading on the market of unlisted public company (UPCom) the actual market securities is the average of actual trading prices quoted by three (3) securities companies having trades and transactions at the most recent date from the date on which securities are valued.

+ For securities for which no reference prices are available from the above sources, their fair value is assessed upon reviewing the financial position and book value of the securities issuers as at the most recent date to the date on which securities are valued.

+ For securities for which no market value is available being assessed by the foregoing methods, their fair value is determined upon reviewing the financial position and book value of the securities issuers as at the date on which securities are valued.

5. Fixed asset recognition and depreciation

5.1 Tangible fixed asset

Tangible fixed assets are stated at cost and presented in the balance sheet in terms of historical cost, accumulated depreciation and carrying amount.

The cost of procured tangible fixed assets comprises their purchase price (excluding trade discount or other discount), taxes and directly attributable costs of bringing the assets into the ready-for-use condition.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. For accounting purpose, tangible fixed assets are categorized by nature and purpose of use in the Company's production process, as follows:

<i>Categories</i>	<i>Useful life (year)</i>
- Machinery, equipment	03 - 08
- Motor vehicles	07
- Other fixed assets	03

5.2 Intangible fixed assets

Intangible assets are stated at cost and presented in the balance sheet at historical cost, accumulated amortization and carrying amount.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

The cost of intangible assets comprises all expenses paid by the Company up to the time of bringing the assets to its ready-for-use condition. Expenses incurred after the initial recognition of intangible fixed assets are recognized into production costs of the period unless these expenses are associated to a specific intangible asset and increase economic benefits from this asset.

When an intangible asset is disposed, historical cost and accumulated amortisation are written off and any gain or loss from the disposal is recognized into income or expense in the year.

The Company's intangible assets are trading management software and accounting software.

Computer software

The costs related to computer software shall not be an integral part of capitalized hardware. The historical cost of computer software comprises all expenses paid by the Company up to the time the software is put to use. Software is amortized using the straight-line method over a period from 05 to 08 years.

6. Recognition of long-term financial investments

Investment in associates

An associate is an enterprise in which the Company has significant influence but has no control power over financial and operating policies and which is neither a subsidiary undertaking nor a joint venture of the Company. Significant influence is the power to participate in the financial and operating policy decisions of the investee entity but is not any influence in terms of control or joint control over those policies.

Investments into associates are initially recognized at historical cost, including purchase price or capital contribution plus direct relevant costs in relation to such investments.

Dividend and profit of the prior periods before the investment purchase shall be recorded as a diminution in the value of such investments. Dividend and profit of subsequent periods after the investment purchase is recorded as revenue. Dividend received in shares is only recognized by the number of additional shares, not the value of the shares received.

Provision for impairment loss in investments into an associate is made at the reporting date when the investments show an impairment as compared to historical cost. The Company shall make the provision as follows:

- If an investment in associates with listed shares or the fair value of investment is determined reliably, the provision shall be made according to the market price of the shares.

- With regard to investments the fair value of which is not identifiable at the reporting time, provision shall be made based on the investee's loss with an amount equal to the difference between the actual capital contribution of the parties in the associate and actual owners' equity multiplied with contribution proportion as compared with actual contribution of the parties in the associate. Based on the separate financial statements of the business entity receiving contributed capital prepared at the same time with the Company's annual financial statements, the amount of provision shall be determined for each investment.

Increase, decrease in provision for impairment loss in investments in associates to be made at year-end shall be recognized into financial expenses. The maximum amount of provision for each investment shall be equal to the actual investment value currently recorded in the Company's accounting book.

For its investment into Northern Electric Trading, Building and Investment., JSC a provision for impairment in long-term financial investments has been made in the amount of VND 17 billion following Board of Management Meeting Minute No. 08/2020/BB-HDQT.IVS of 28/12/2020 and Board of Management Decision No. 13/2020/QD-HDQT-IVS of 28/12/2020.

7. Receivables recognition

Receivables are the sum of money to be recovered from clients or other debtors. Receivables include trade receivables from sales of financial assets, receivables from services rendered, receivable and accrued dividends, interest of financial assets, internal accounts and other receivables. Receivables are presented at net book value less provisions for impairment in receivables. Receivables are not recorded higher than the recoverable amount.

Receivables are classified as presented below:

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

- Trade accounts receivable consist of receivables with commercial nature arising from the transactions of financial assets purchasing and selling;
- Receivables from securities companies' services rendered for investors.
- Other receivables comprise receivables of non-commercial nature unrelated to purchasing-selling transactions.

Receivables are recognized by debtor and due date and other requirements of management.

8. Provision for impairment loss in accounts receivable

Receivables are taken into account for provision making for impairment by the aging of the overdue account or by the loss expected to incur in the case of an account within the due date but the debtor entity going broke or with business dissolution underway, debtors going missing, in hiding or under persecution, arrest, judgment by authority of law or already deceased. Provision expenses incurred are recognized as other expenses in the income statement.

Provision for impairment loss in receivables are made for each doubtful debts by the aging of the overdue accounts or by the loss expected to incur in the case of the debtors who are insolvent under liquidation, bankruptcy or similar difficulty.

For receivables that have passed due, the expected recoverability is also taken into consideration for determination of an amount of provision needed to be made.

Provision for impairment loss likely to occur is made for receivables within the due date following management's considerations after the recoverability of these accounts is assessed.

The Company made provision for impairment loss in estimated interests receivable from Truong Thi Thanh Hoa JSC in the amount of VND 12,218,208,333 (This amount has been recognized as financial income and determined by operating results from the prior years based on the terms of fixed profits which the Company would receive from the Investment Co-operation Contract with Truong Thi Thanh Hoa, JSC). The provision was made under Investment Evaluation Council Meeting Minutes dated December 17, 2019 and Board of Management Resolution No. 25/2019/NQ-HDQT-IVS dated December 31, 2019.

In 2021, the Company reclassified the provision made for impairment in its investment in Truong Thi Thanh Hoa JSC from Provision for impairment loss in long-term financial assets into Provision for impairment in receivables upon Judgment Execution Decision per Request No. 103/QD-CCTHADS dated June 17, 2020 and Decision No. 63/QD-CCTHADS dated August 21, 2020 of the Chief of Civil Judgment Execution Department of Thanh Hoa City due to inadequate conditions to execute the judgments for Truong Thi Thanh Hoa JSC.

9. Short- and long-term collaterals, mortgages, deposits

Collaterals, mortgages and deposits represent the amount of office lease deposits and other deposits that are recognized at cost and presented over the term of lease.

10. Prepaid expenses

Prepaid expenses consist of actual expenses incurred but related to the business performance of various accounting periods. Prepaid expenses are deferred costs of tools and instruments in use, prepaid office rentals and other prepayments.

Tools, instruments: Cost of tools and instruments in use is released into expenses by straight-line method over a period not exceeding 03 years.

Prepaid office lease is released into expenses over the term of lease stated in the lease contract. Other prepayments are expensed on a straightline basis over a period not longer than 03 years.

The costs of trading management software maintenance are expensed on the straight-line basis over a period of 12 months as in the maintenance contract.

Other prepaid expenses are released into expenses on the straight-line basis over a period of 12 months for short-term prepaid expenses and 36 months for long-term prepaid expenses.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

11. Short- and long-term liabilities recognition

11.1 Financial liabilities and loans and obligations under finance lease

Loans and obligations under finance lease

Loans and obligations under finance lease are recognized on the basis of receipts, bank vouchers, loan agreement and finance lease contracts.

Loans and obligations under finance lease are recognized by lender and maturity.

11.2 Borrowing costs recognition

Borrowing costs consist of interest expenses and other costs directly attributable to the loans. Borrowing costs are recognized into the period's expenses as incurred.

11.3 Classification of payables for security trading, payables to investors for trading deposits, payables to issuers and other payables

Payables are amounts payable to suppliers and other creditors. Payables include amounts payable for securities trading activities and investors' securities trading deposits payable and other payables. Payables are not recognised lower than their payment obligation.

Classification of payables is conducted on the following principle:

- Payables for securities trading represent amounts payable to organisations providing services of selling and purchasing financial assets of the Company or clients via the Stock Exchange in which the Company acts as a member or payables to agents involved in the issuance of stocks for securities issuers in connection with securities underwriting by the Company. Trade payables for materials, services and labors are not part of Item "Payables for securities trading activities".

- Security trading deposits payable to investors represent the amount of investors' trading deposits managed by the Company via a special-purpose account maintained at a commercial bank. These trades include the making of Margin, Repo transactions and the advancing of proceeds from sale of financial assets. Security trading deposits payable to investors are presented as off-balance sheet items.

- Other payables include amounts payable of non-commercial nature, unrelated to the transactions of purchasing, selling and supplying goods, services.

Payables are recognized by creditor and due date.

11.4 Recognition of payables for securities trading

Payables for securities trading represents the amount of fees payable to entities providing securities trading services determined as appropriate with the amount of trading realized and the amount of fees agreed upon between the service provider entity and the Company. Payables for securities trading are recognised on the principle of a commitment being obtained on providing the client with the service relevant to the revenue realized for business activities prescribed in the Company's license.

11.5 Taxes and amounts payable to State budget

Value added tax (VAT)

The Company computes and declares VAT in accordance with the current tax law at the VAT current tax rate applicable to financial consulting service and is not subject to VAT for the services of securities brokerage, securities proprietary dealing, securities underwriting, securities investment advisory, securities depository and lending to clients for trading deposits and advancing of proceeds from securities sales.

Corporate income tax

Corporate income tax represents the total amount of current tax payable.

Current tax payable is computed on taxable profit in the year. Taxable profit differs from net profit presented in the income statement because taxable profit does not include assessable incomes or expenses or tax deductible in other years (including the amounts of loss carried forward, if any) and otherwise excludes non-taxable or non-deductible items.

The Company applies corporate income tax rate at 20% on taxable profit.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

The determination of taxable income and tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and its ultimate determination depends on the results of tax authorities' examination.

Other taxes and fees payable

Other taxes and fees are declared and paid to local tax authorities in accordance with the prevailing tax law in Vietnam.

11.6 Short-term and long-term accrued expenses

Accrued expenses comprise the accruals of securities trading on the 2 exchange floors, audit service, depository service and other re-current expenses incurred at the Head Exchange Office and Ho Chi Minh Branch in the reporting period but unpaid for absence of invoices or inadequacy of supporting documents and already recognized as expenses in the period.

These are expenses yet to be incurred but already accrued in the reporting period so that such expenses, as incurred, could cause no abnormal variance in operating expenses on the basis of matching revenue with expenses. The difference, is any, between the expenses incurred and the amount accrued is added to or deducted from the corresponding expenses. Expenses are accrued in strict consideration with reasonable, reliable evidence on the expenses accrued in the period so that the accruals to be recorded in this account shall match with the actual costs as incurred.

12. Recognition of shareholders' equities and profits

12.1 Shareholders' equities

Shareholders' equities are recognized as actually contributed by the shareholders.

Treasury stocks are shares issued by the Company and re-purchased by the very Company. For treasury stocks held by the Company, the Company is entitled to no dividend and has no rights to vote or participate in the Company's division of properties upon its dissolution. By the time of paying dividend to shareholders, Treasury stocks held by the Company are taken as unsold shares. The value of these treasury stocks is presented at the cost of buy-back including the repurchase price and expenses directly attributed to the buy-back, such as trading, communication, etc.

12.2 Recognition of profit, earning

Retained earnings include:

- Profit realized in the period that represents the difference between the total revenue and income and the total expenses recognized in the Company's income statement other than financial assets re-valuation gain/loss recognized as part of unrealized profit.
- Unrealized profit of the accounting period that represents the difference between the total financial assets re-valuation gain/loss recognized as part of the reported profit and loss in the income statement under the list of Financial assets.

The value of FVTPL financial assets are recognized at the market value, thereby, the unrealized profit in the period is the difference between the total values of FVTPL financial assets being recognized into the comprehensive income statement under the list of Financial assets accumulated in the period.

12.3 Distribution of dividend, profit

Retained earnings represent the profits (losses) from business operation less corporate income tax of the current year and the retroactive adjustments due to changes in accounting policies and the retroactive adjustment of material misstatements in the previous years.

Distribution of dividend, profit: Net profit after corporate income tax and dividend is paid/distributed to investors as approved by the Board of Management in its annual meeting and upon the making of mandatory reserves funds as in the Company's Charter, general meeting of shareholders' resolution and relevant statutory regulations applicable to the Company.

Retained earnings accumulated at the end of year (N-1) serves a basis for profit distribution to owners. Unrealized profit as at the end of year (N-1) provides no basis for profit distribution.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

13. Recognition of revenue and other income

13.1 Revenue and other income, estimated dividend and financial assets derived gains

The Company's revenue comprises income from securities trading, and revenue from brokerage services, securities depository and securities underwriting, investment advisory service and corporate finance advisory services, etc.

Securities trading income

Income from securities trading is determined as the difference between the selling price and the weighted average cost of securities.

Sales of services (brokerage, depository, underwriting, securities investment advisory, custodian auction services)

Revenue is recognized at the time of transactions taking place as it is certain that economic benefits are gained and determined at the fair value of options regardless of whether cash is received or not.

Revenue from rendering services to clients shall be in line with the business activities prescribed in the Incorporation and Operation License issued for the Company. Revenue from services rendered is regarded as completed on the basis that the clients have made payment in cash or pledged to pay or deduct their liability from the securities sale proceeds due to them.

Revenue from brokerage service is recognized as the securities trading transaction has been completed.

Interest income

Interest income is recognized on an accrual basis as determined on the balances of deposits and interest rates in the period.

Dividend and profit paid

Paid dividend and profit are recognized when the Company has the right to receive dividend or profit for its capital contribution. Dividend received in shares is only recognized by the number of additional shares, and not by the value of shares received.

13.2 Recognition of financial asset trading loss and expenses

Financial assets trading expenses represent the losses from sales of FVTPL financial assets, cost of purchasing FVTPL financial assets, decrease difference from re-valuation of FVTPL financial assets and loss/impairment of financial assets listed as FVTPL financial assets invested by the Company.

14. Costing of proprietary trading securities sold

The Company adopts the case-by-case average weighted method for costing of its proprietary trading securities.

15. Financial expenses

Financial expenses recognized in the income statement are the total finance cost incurred in the period without being offset with financial income, including interest expenses, etc.

NOTES TO THE INTERIM FINANCIAL STATEMENTS *(continued)*

(These notes are an integral part of and should be read in conjunction with the accompanying Interim Financial Statements.)

16. Recognition of general and administrative expenses

General and administrative expenses presented in the income statement represent the general expenses that comprise management staff cost (salaries, wages, allowances...), social insurance, health insurance, Trade Union fee, lay-off insurance for management staff, office supplies, working tools, depreciation of assets in use for management purpose, license tax, outsource services (power, water, phone and fax); and other expenses in cash (client entertainment, meetings...).

V. Financial risk management

1. Quantitative and qualitative measurement of financial risk

The Company is exposed to market risk, credit risk and liquidity risk in its regular operations. The Company's management policies for financial risk as a whole focus on forecasting unexpected fluctuations in the market and mitigating their bad impacts on the Company's business performance.

2. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations due to a shortage of funds. The Company's liquidity risk arises primarily from the mismatches of maturities of financial assets and liabilities

The Company monitors its liquidity risk by maintaining a level of cash and cash equivalents deemed as adequate by the Board of General Directors to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.

3. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate alongside the changes in the market. Market prices expose risk of the such types as interest rate risk and other price risk. Financial instruments affected by the market risk are deposits and short term investments. Market risk management is aimed for managing and controlling market risks within acceptable limits while profit can still be maximized.
