HCMC, October **16th**, 2026

Dear:

- **State Securities Commission of Vietnam**
- **Hanoi Stock Exchange**

Based on the 2026 business performance results, Petrolimex Saigon Transportation and Services Joint Stock Company (PSC) recorded an after-tax profit of VND 3,583,795,936 in the third quarter of 2026, with a cumulative after-tax profit of VND 8,649,584,632 for the first nine months of 2026, representing a variance of more than 10% compared with the same period in 2025. The main reasons are as follows:

- Retail business operations have shown positive developments, contributing to improved business performance and increased profitability compared with the same period last year.
- Growth in fuel sales volume and transportation volume has driven revenue growth while helping improve vehicle utilization and the efficient use of existing resources.
- Greater emphasis has been placed on cost management and control, with operating expenses reviewed and managed in line with actual business conditions, thereby enhancing operational efficiency and improving the Company's after-tax profit.

Above figures are the reasons for making the difference in net profit compared to the same period the year, more than 10%.
