3. Loans receivable: Loans receivable are recorded at their principal amount,, Provision for doubtful debts related to loans receivable is recognized based on the estimated potential losses and is recorded as an expense in the accounting period,
- d, Investments in subsidiaries, joint ventures, and associates:
 - Investments in subsidiaries, joint ventures, and associates are recorded at historical cost, including the purchase price and directly related costs, If investments are made in foreign currency, they are recorded at the exchange rate applicable at the time of the transaction,

- Dividends and profits from previous periods before the investment was acquired are accounted for as a reduction in the value of the investment, Dividends and profits from the investment received after the acquisition are recorded as financial income, In cases where dividends are received in the form of shares rather than cash, the number of shares received is disclosed in the financial statement notes, but no increase in the value of the investment is recognized, nor is it recorded as financial income,
- Provision for investment losses in subsidiaries, joint ventures, and associates is made when these entities suffer losses, The provision is determined based on the proportion of ownership interest in the investee company and the total accumulated losses of that entity, except for cases where the losses are confirmed to be temporary, For investee entities that are subsidiaries or associates, provisions for investment losses are set aside unless consolidated financial statements are prepared for them, If these entities prepare separate financial statements, the provision is recorded in the consolidated financial statements,
- Increases and decreases in provisions for investments in subsidiaries, joint ventures, and associates are determined on the financial statement date and recorded as financial expenses,
- d, Investments in equity instruments of other entities: Not applicable
- e, Accounting Methods for other transactions related to financial investments:
 - Share exchange transactions: none occurred
 - Capital contribution under cooperative arrangements: none occurred
 - Transactions in the form of buying back contributed capital: none occurred
 - Accounting for dividends received in the form of shares: none occurred

6. Principles for Receivables:

Receivables must be presented at their recorded value, net of any allowance for doubtful accounts, The classification of receivables into trade receivables, internal receivables, and other receivables must follow these principles:

- ii. Trade receivables must reflect the receivables that arise from transactions of commercial nature related to the purchase - sale of goods with the Company and independent partners, including receivables from selling goods for export or providing services to others,
- iii. Internal receivables must reflect receivables between dependent units that do not have legal status and operate under the accounting regime of the parent unit,
- iv. Other receivables reflect receivables that are non-commercial in nature, not related to buying-selling transaction,

The provision for doubtful debts is set up for each doubtful receivable based on the aging of the receivables and/or estimated loss levels, specifically:

For overdue receivables, the provision is made by percentage::

- 30% of the value for receivables overdue from 6 months to under 1 year,
- 50% of the value for receivables overdue from 1 year to under 2 years,
- 70% of the value for receivables overdue from 2 years to under 3 years,
- 100% of the value for receivables overdue over 3 years,

- v. For receivables not yet due but unlikely to be collected: provisions are based on the estimated loss level,

7. Principles for Inventory Recognition

- Inventory is recorded at original cost, In case of consistent and reliable implementation, inventory may be recorded at fair value, which is the selling price minus estimated costs to complete and selling expenses, Original cost includes purchase cost, processing cost, and directly attributable costs incurred to bring the inventories to their current location and condition,
- The cost of inventories is determined using the weighted average method,
- Inventories are accounted for using the perpetual inventory method,
- Provision for inventory devaluation is made at year-end based on the difference between original cost and net realizable value, if the latter is lower, The Company does not set up provisions for inventory devaluation,

8. Principles of Recognition and Depreciation of Fixed Assets, Finance-leased Assets, and Investment Properties

1. Principles of Recognition and Depreciation of Tangible and Intangible Fixed Assets

- vi. Fixed assets are recorded at original cost minus accumulated depreciation, The original cost of fixed assets includes the entire cost incurred by the Company to bring the asset to its working condition as intended, Depreciation is calculated using the straight-line method over the estimated useful life of the asset, Assets that are fully depreciated but still in use are continued to be monitored,

- vii. Depreciation is calculated using the straight-line method, The depreciation rates for tangible and intangible fixed assets are applied according to Circular No, 45/2013/TT-BTC dated April 25, 2013, issued by the Ministry of Finance, The depreciation periods are as follows:

Type of Asset	Depreciation Period (Years)	
	Current Period	Prior Period
- Buildings and structures	10 - 12	10 - 12
- Machinery and equipment	04 - 12	04 - 12
- Transportation vehicles	06 - 10	06 - 10
- Office equipment	05 - 06	05 - 06
- Land use rights	20	20
- Computer software	3	3

b, Principles of recognition and depreciation of finance-leased fixed assets

Finance lease fixed assets: The cost of finance lease fixed assets is recognized at the fair value of the leased asset or the present value of the minimum lease payments (whichever is lower), plus any directly attributable initial costs related to the finance lease, The company did not incur any transactions related to finance lease fixed assets,

c, Principles of recognition and depreciation of investment properties

- Investment properties are recognized at historical cost, During the period of holding for value appreciation or rental, investment properties are not depreciated but are recorded at cost and fair value (if any),
- Investment properties are depreciated using the straight-line method over the useful life of the asset

9, Principles of deferred corporate income tax accounting: Not applicable,

10, Principles of accounting for business combination transactions: Not applicable

11. Principle of accounting for prepaid expenses:

- Prepaid expenses are allocated using the straight-line method, and the allocation period depends on the nature and level of each type of cost for reasonable allocation,
- Prepaid expenses are monitored and tracked based on their term,

12. Principle of accounting for payables:

The classification of payables includes payables to sellers, internal payables, and other payables, which are carried out based on the following principles:

- Payables to sellers reflect trade payables arising from the purchase of goods, services, fixed assets, and land use rights independently contracted with the Company, including payables for imported goods through entrusted import,
- Internal payables reflect payables between upper and lower-level units without legal entity status that are accounted for on a dependent basis,
- Other payables reflect non-commercial payables not related to trading activities for the purchase/sale/supply of goods and services,

The company does not revalue payables at fair value and does not account for differences in foreign exchange rates,

The company does not record liabilities lower than the obligations to be paid,

The company does not make provisions for liabilities,

13. Principle of recognition of borrowings and financial lease liabilities:

Borrowings and financial lease liabilities are tracked according to the loan provider, contractual terms, and maturity of the borrowings and financial lease liabilities,

14. Principle of recognition of capital and interest of borrowing costs:

Borrowing costs incurred during the production or business process are recognized at the time of occurrence, except for costs related to direct investment in construction or procurement of assets that are eligible to be included in the value of such assets (capitalized) according to Vietnamese Accounting Standard No, 16 "Borrowing Costs",

15. Principle of recognizing accrued expenses:

Accrued expenses that have not yet arisen but are reasonably estimated and allocated into production and business costs during the period to ensure the matching principle between revenues and expenses in the same period, These expenses are recorded under "Accrued expenses payable," When the expenses are incurred, if the difference is significant compared to the estimated amount, the company will adjust the current expense and accrued expense to match the actual amount,

16. Principle and method of recognizing provisions for payables:

- + Recognition principle of provisions for payables:

Provisions for payables are recognized when they meet the conditions set out in Vietnamese Accounting Standard No, 18 "Provisions, Contingent Liabilities, and Contingent Assets,"

- + Method of calculating provisions for payables:

Provisions for payables are calculated (or reversed) based on the difference between the larger (or smaller) amount between the newly calculated provision and the existing provision recorded on the accounting books,

17. Principle of recognizing unearned revenue:

Unearned revenue includes amounts paid in advance by customers for one or more accounting periods related to asset leasing,

Unearned revenue is transferred to revenue from sales and services or financial operations revenue according to the amount determined to be appropriate for each accounting period,

The company does not have unearned revenue arising,

18. Principle of recognizing owners' equity:

a. Principle of recognizing contributed capital, share premium, and other owner's equity:

- + Contributed capital of owners: recognized according to the amount contributed by the owners;
- + Share premium: recognized as the difference (positive or negative) between the actual proceeds from the issuance of shares and the par value of shares of joint-stock companies when initially issuing, additionally issuing, or reselling treasury shares;
- + Other owner's equity: recognized as the remaining difference between the actual value of assets handed over to the company by the State or other entities (such as donations, gifts, or post-tax paid funds) related to those assets,

The company does not have any operations involving contributed capital or share premium,

b, Principle of recognizing asset revaluation differences::

The company does not have any operations involving asset revaluation differences,

c, Principle of recognizing foreign exchange differences:

The foreign exchange differences reflected in the Balance Sheet are the exchange rate differences arising or re-evaluated at the end of the period for monetary items denominated in foreign currencies (foreign exchange gains or losses) related to construction investment activities (pre-operating phase, unfinished investment),

The company does not have operations involving foreign exchange differences,

d, Principle of recognizing undistributed profit:

The undistributed after-tax profit reflected in the Balance Sheet represents the profit (gain or loss) from the company's activities after deducting (-) the corporate income tax expense for the current year and adjustments due to the retrospective application of changes in accounting policies and the retrospective correction of material errors from previous years,

19. Principles and methods for revenue recognition:

a. Revenue from goods sold:

Revenue from goods sold is recognized when the conditions for revenue recognition prescribed in Accounting Standard No. 14 "Revenue and other income" are satisfied, such as:

- + The significant risks and rewards of ownership of the goods or products have been transferred to the buyer,
- + The company no longer retains control over the goods as the owner or manager of the goods,
- + Revenue is determined with relative certainty,
- + The company has collected or is expected to collect the economic benefits from the sales transaction,
- + Costs related to the sales transaction can be determined,

Sales revenue is determined in accordance with the fair value of the amount received or to be received under the accrual principle, Amounts collected before the revenue recognition conditions are met are not recognized as revenue in the current period, In cases of deferred payment sales with interest, the interest portion is recorded under "Unearned revenue" and will be recognized in financial income based on the time factor,

b, Revenue from services provided:

Revenue from services provided is recognized when the conditions for recognizing service revenue under Accounting Standard No. 14 "Revenue and other income" are satisfied, such as:

- + Revenue is determined with relative certainty;
- + It is probable that the economic benefits associated with the transaction will flow to the company;
- + The stage of completion of the service can be reliably measured at the balance sheet date;
- + The costs incurred and the costs to complete the service transaction can be determined,

The portion of the service that has been completed is determined based on the method that reflects the level of completion of the service,

c, Revenue from financial activities:

Revenue from financial activities includes revenue from interest, royalties, dividends, shared profits, and other revenues from financial operations, These are recognized when both (2) of the following conditions are satisfied:

- + There is a possibility that the economic benefits from the transaction will flow to the company;
- + The amount of revenue can be reliably measured,

30-C
Y
N
TRIE
NG
12
HỒ CH

d, Revenue from construction contracts:

The completed work portion of a construction contract, which serves as the basis for revenue recognition, is determined using the completed work assessment method or the percentage (%) method, which compares the completed construction volume to the total construction volume required under the contract,

20. Principle of accounting for sales deductions:

Sales deductions include trade discounts, price reductions, and returned goods arising from the same period of consumption of products, goods, and services that require adjustment to the recognized revenue,

If the goods or services were consumed in a previous period but the deduction (e.g., discount or return) occurs in the current period, the treatment depends on timing:

- + If the deduction or return arises before the Financial statements are issued, it should be recorded as a revenue deduction in that reporting period,
- + If the deduction or return arises after the Financial statements are issued, it will be recorded in the subsequent period,

21. Principle of accounting for cost of goods sold:

The cost of goods sold includes the cost of products, goods, services, real estate for investment, and the cost of production for construction projects (for construction businesses). In addition, it includes costs related to business activities of real estate investment such as: depreciation, repair costs, business operations, leasing of real estate for investment purposes (if not capitalized), sales discounts, and real estate management,,

For inventory losses due to shrinkage, loss, or damage, these should be directly charged to the cost of goods sold (after deducting any compensation received),

For abnormal material wastage, labor costs, or overhead expenses, these should also be recorded directly into cost of goods sold (after deducting any compensation received),

If the value of inventory is higher than its market value or net realizable value, a provision must be made, and any recognized provision will be charged to the cost of goods sold,

22. Principle and method of recognizing financial expenses

The items recorded as financial expenses include:

- + Expenses or losses related to financial investment activities;
- + Interest expenses and capital borrowing costs;
- + Losses from exchange rate differences arising from foreign currency-related transactions;
- + Provision for devaluation of securities investments,

These items are recognized based on the total amount incurred during the period and are not offset against financial revenue,

23. Principle of accounting for selling expenses and general & administrative expenses:

Selling expenses reflect the actual costs incurred in the process of selling products, goods, and providing services,

General & administrative expenses reflect the general management costs of the company,

24. Principle and method of recognizing current corporate income tax expenses and deferred corporate income tax expense:

Current corporate income tax expense is determined based on taxable income and the applicable tax rate of the enterprise for the current year,

Deferred corporate income tax expense or income is determined based on temporary differences that are deductible or taxable, and the corporate income tax rate applicable when those temporary differences reverse,

The offsetting of current and deferred corporate income tax expenses is done according to applicable accounting regulations

25. Segment reporting

A business segment is a component of a company that is separately identified and involved in producing or supplying products, services, and has risks and returns that are different from other segments,

A geographic segment is a component of a company that is separately identified and involved in producing or supplying products, services in a specific geographical area, and has risks and returns that are different from those in other geographical areas,

26. Financial instruments

According to Circular No, 75/2015/TT-BTC dated May 18, 2015 by the Ministry of Finance, before the accounting standard for financial instruments and related guidance take effect, the General Director of the Company decides not to present and disclose financial instruments in accordance with Circular No, 210/2009/TT-BTC in the Company's financial statements,
