We would like to submit an explanation to the Hanoi Stock Exchange regarding the consolidated business results for the third quarter of 2026, which turned from profit to loss and decreased by more than 10% compared to the same period in the third quarter of 2025.

The consolidated profit for the third quarter of 2026 was a loss of VND 1.32 billion, while the consolidated profit for the third quarter of 2025 reached VND 18.84 billion, representing a decrease of VND 20.16 billion.

- Due to unfavorable weather conditions and low water inflows into the reservoirs, output at both plants decreased. Consequently, electricity generation in the third quarter of 2026 was lower, resulting in lower consolidated revenue and profit.
- High financial expenses at Tra Xom Hydropower Joint Stock Company reduced the profit after tax and operating results on the consolidated financial statements of the two companies.

Yours sincerely./.
