VIETNAM PLASTIC CORPORATION

No:..476.../CV-NVN-TCKT

SOCIALIST REPUBLIC OF VIETNAM

Independence - Freedom - Happiness

Subject: Explanation of Variances in Business results for the Third Quarter of 2026 Compared with the Third Quarter of 2025

Ho Chi Minh City, October..26.., 2026

To: State Securities Commission

Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance, providing guidance on information disclosure on the securities market.

Vietnam Plastic Corporation would like to explain the business results for the third quarter of 2026 compared to the third quarter of 2025 as follows:

1. **Profit after corporate income tax in the income statement for the reporting period changes by 10% or more compared with the corresponding period of the previous year:**

+ **For the Company's separate financial statements:**

- Profit after corporate income tax for the third quarter of 2026: **Loss of VND 909,432,506**
- Profit after corporate income tax for the third quarter of 2025: **VND 725,820,693**

The main reason for the decrease in profit was the increase in other expenses in the third quarter of 2026 compared with the corresponding period of the previous year. The Company recognized expenses arising from the tax finalization inspection for the period from 2020 to 2024. In addition, the decrease in revenue from sales of goods and rendering of services adversely affected business results, resulting in the Company's profit after corporate income tax turning from a profit into a loss compared with the corresponding period of the previous year.

+ **For the consolidated financial statements:**

- Profit after corporate income tax for the third quarter of 2026: **VND 12,003,643,526**
- Profit after corporate income tax for the third quarter of 2025: **VND 8,219,174,532**

The main reasons for the increase in profit compared with the corresponding period of the previous year were higher financial income and an increase in the share of profit from joint ventures and associates. These factors contributed to the increase in the Company's consolidated profit after corporate income tax in the third quarter of 2026.

2. **Profit after corporate income tax for the reporting period is a loss, changing from a profit in the corresponding period of the previous year to a loss in the current period, or vice versa:**

+ **For the Company's separate financial statements:**

- Profit after corporate income tax for the third quarter of 2026: **Loss of VND 909,432,506**
- Profit after corporate income tax for the third quarter of 2025: **VND 725,820,693**

The loss recorded in the third quarter of 2026 was mainly attributable to the increase in other expenses compared with the corresponding period of the previous year. The Company recognized expenses incurred in connection with the tax finalization inspection for the period from 2020 to 2024. In addition, the decrease in revenue from sales of goods and rendering of services adversely affected business results, resulting in the Company's profit after corporate income tax turning from a profit into a loss.

Vietnam Plastic Corporation prepares this explanation letter for the State Securities Commission and the Hanoi Stock Exchange for information.

Sincerely,

Recipients:
