KASATI Joint Stock Company hereby provides an explanation for the fact that profit after corporate income tax in the income statement for the reporting period has changed by 10% or more compared with the same period of the previous year, as follows:

- Profit after tax, Q3 2026: VND 734,157,258
- Profit after tax, Q3 2025: VND 8,615,773,197
- Profit after tax in Q3 2026 decreased by VND 7,881,615,939 (equivalent to a decrease of 91.48%) compared with Q3 2025.

– **Reasons:**

- Decline in net revenue: Net revenue from sales of goods and provision of services for the period fell sharply by VND 489.41 billion (down 96.41%) compared with the same period last year (from VND 507.64 billion to VND 18.23 billion). This was due to fluctuations in the industry market, which caused a decline in trading revenue from equipment.
- The sharp drop in revenue led to a decline in gross profit, causing the Company's profit after corporate income tax for the period to decrease by more than 10% compared with the same period last year.

This is the Company's explanation, and we respectfully look forward to your acceptance.

Yours sincerely,
